F.A.Q.'S

Frequently Asked Questions

Q: What will happen to the children before, during and after construction work?

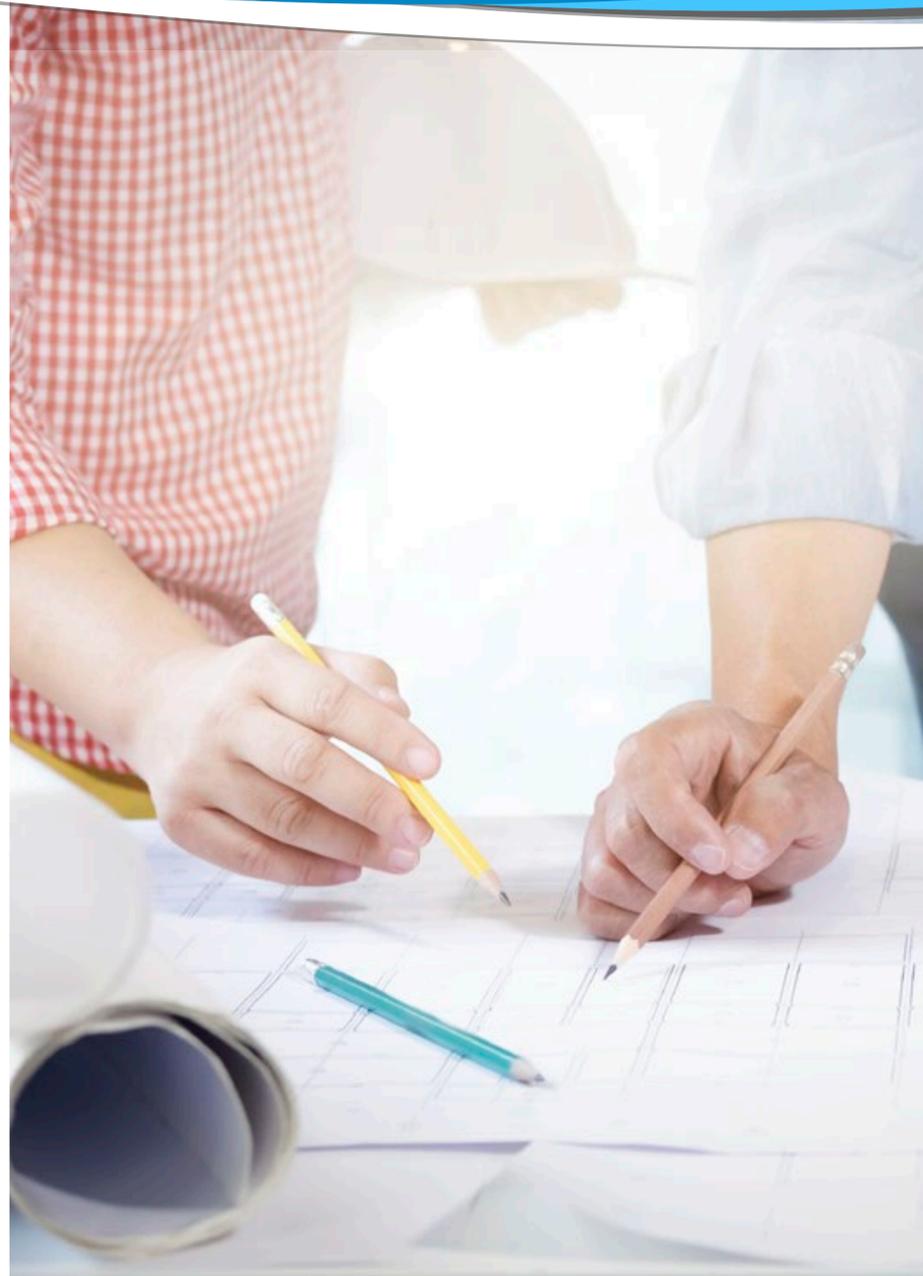

A: Safety is always a prime concern while work is being done. Therefore, Construction and renovations will be scheduled so that many of the renovations are completed during the summer months or other times when students are not in the schools. When school is in session, students will be separated from work at all times, this way, students can attend classes with minimal disruption.

Q: Can more money be spent than the amount approved in the question?

A: No. The Cost of the Referendum Projects cannot exceed the amount approved by the voters. The amount approved by the voters includes a reasonable budget under which to complete the work as well as required contingencies to address unforeseen conditions and construction issues.

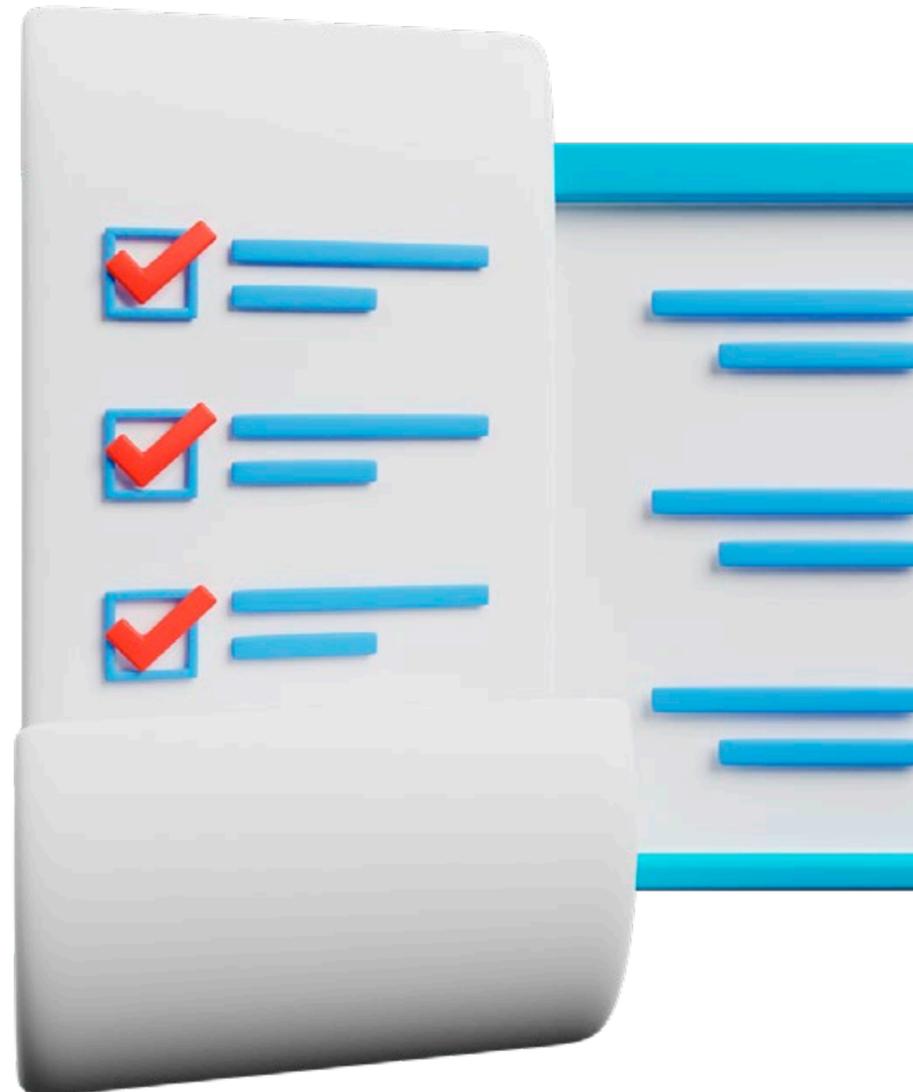

» POTENTIAL CONSTRUCTION SCHEDULE

Q: When would the work begin and when will it be completed?

- A:**
- » The schedule for implementation of the projects will be carefully reviewed & crafted into a detailed timeline that works best for the School District.
 - » While some projects could begin construction as early as summer of 2023, given the timing of a March Referendum, we would determine our ability to strategically bid projects at appropriate times.
 - » Projects that require more time to develop & designs will begin the later in the 2023 year or the summers of 2024 thru 2028.
 - » Allowing flexibility of schedule allows us to bid at the most appropriate times and in turn receive the best pricing for projects.

» SOME FACTS . . .

- » Until such time as we receive DOE Approval the Debt Service Aid Numbers are anticipated, based upon past submissions and approvals.
- » The District has decided to carry a 4.5% interest rate for all tax impact calculations.
- » There have been significant increases in the construction industry due to material costs increases, shipping increases, material shortages, and expanded schedules – we still need to work within the original budget numbers and will need to adjust accordingly.
