Our Educational Philosophy

As a single-sex high school, St. Mary's Academy provides young women with unequalled access to rigorous academics in a highly supportive and collaborative environment. Our students excel in math, science, world languages, and the arts and humanities, and have the tools necessary to lead and succeed in a complex, global environment. We inspire leaders to act with integrity, seek justice, build community, and change the world.

Grading Scale

The G.P.A. is based on a 4.0 point scale as follows:

Advanced Placement course grades are weighted. **A (5.0)**

A (4.0) = course expectations have been met and exceeded in every area to an unquestioned degree of excellence.

B (3.0) = course expectations have been met and in some areas surpassed.

C (2.0) = course expectations have been satisfactorily met.

D (1.0) = course expectations have been met minimally or not at all.

F (0.0) = course expectations have not been met. No credit given.

St. Mary's Academy fosters the holistic growth of young women by requiring serious study in all the core disciplines and world language, and providing extensive opportunities for personal development in sports participation, the fine arts program, and service learning. The school values and encourages the talents of each individual.

The interdisciplinary focus of the **Math/Science Department** emphasizes the inherent logic in both disciplines and challenges students to acquire the habit of thinking critically and analytically. Students are prepared for their technological future through extensive laboratory work, real-life applications, cooperative problem-solving techniques, and mastery of fundamental principles in both disciplines.

The **Humanities Department** coordinates English, social studies, and theological studies focusing on critical thinking, written and oral communication, and moral reasoning. The World Visions program for tenth graders is centered on cross-cultural studies and presented through an interdisciplinary approach. The required and elective courses aim to enable students to become thoughtful, analytical communicators.

The **World Language Department** allows students to see themselves as world citizens by studying countries' cultural, intellectual, and political aspects.

Fine Arts requirements in both visual and performing arts promote competency in the theory and skills of various media. Studio work, choral and instrumental ensembles, and theatrical productions encourage students' self-expression and an appreciation for the work of their peers and other artists.

Classes in **Physical Education** provide the knowledge and skills whereby students develop their own safe and enjoyable physical fitness program. Interscholastic athletics reinforce the Academy's commitment to learning focused on cooperative behavior and individual effort directed toward common goals.

The **Athletics Program** provides opportunities for interscholastic team play for students in grades 9-12 in the Metropolitan League of the Colorado High School Activities Association. Students compete at the 3A level in basketball, cross country, field hockey, golf, lacrosse, soccer, softball, swimming and diving, tennis, track and field, and volleyball.

The **Service Learning Program** provides opportunities to develop lifelong habits of service. Students spend a minimum of 100 hours in volunteer positions throughout the Denver area. They work directly with the people being served by the chosen agencies, thereby facilitating an exchange of talents.

St. Mary's Academy is Denver's premier independent, Catholic, co-educational PK-8 and All-Girls High School, established in 1864 by the Sisters of Loretto. It awarded the first diploma in the Colorado Territory in 1875. The High School is accredited by the State of Colorado, the Association of Colorado Independent Schools and the North Central Association of Colleges and Schools (since 1925). St. Mary's Academy is a member of the National Association of Independent Schools and the National Coalition of Girls Schools.

Admission is based on records and recommendations of the previous school, placement testing, and a personal interview. Accepted students reflect diverse backgrounds, high motivation to learn, and an understanding and acceptance of the opportunities inherent in single-sex education. Each student is scheduled for classes that meet her current needs and challenge her growth, with college counseling established in the freshman year.

Careers in Focus

SMA partners with industry leaders and community organizations for transformative summer internships and mentorships.

St. Mary's Academy Ranking Policy

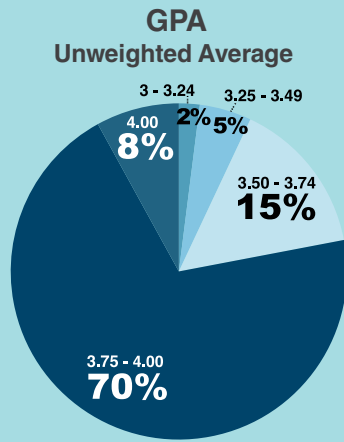

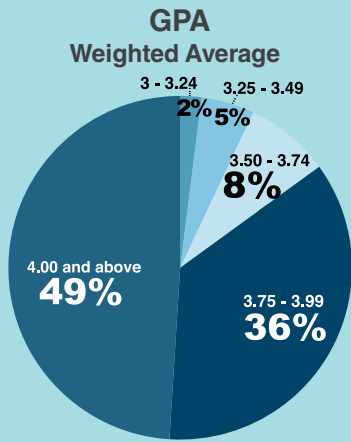

St. Mary's Academy, like many small, independent secondary schools, does not rank its students. The size of our graduating class, composition of our student body, and the rigor of our curriculum all suggest that ranking is not appropriate at our school. We are more than willing to provide further information and to discuss individual students with a college or university.
