

COMPTON UNIFIED SCHOOL DISTRICT

FAMILY LEADERSHIP ACADEMY

Where families come to receive knowledge and skills to help coach their children into becoming College and Career Future Ready Citizens.

What is the Family Leadership Academy?

The Family Leadership Academy is a Compton Unified School District and community collaborative designed to assist families in becoming full partners in their children’s education. The foundation for children’s success is in the home. Our Family Leadership Academy offers workshops and trainings to assist families in their most important and challenging job—helping children reach their full potential. Through these workshops you’ll discover what parenting approaches work best with your family’s unique combination of values, styles and strengths. CUSD scholars receive a *high quality* education when educators and families work and collaborate together. **T**ogether **E**veryone **A**chieves

HOW THE FAMILY LEADERSHIP ACADEMY WORKS

The Family Leadership Academy is a structured workshop series for CUSD families who want to know and learn how to support their children in school, how the educational system works, and how to navigate the school system successfully. Participants attend monthly workshops held at their school site as well as one workshop from each of the District Workshop Strands below. The Community Relations Specialist (CRS) at your school site is the facilitator for the Family Leadership Academy at your school. Your school’s CRS and The Office of Special Projects are available to answer your questions. We are here for you—USE US!!!

Strand I Parenting Awareness.	Strand II Future Ready Learners
These offerings provide information to empower parents/families with a clearer understanding of how children grow and learn. Families learn skills that will assist them to raise confident, educated children who are prepared for their future.	These offerings will provide parents information regarding how to support children’s academic challenges, advocate for children and improve understanding of teaching and learning. Parents become decision makers in the learning process.
Strand III Parents as Leaders.	Strand IV Health and Wellness.
These offerings help parents/families to understand and build the skills necessary to assume leadership roles in their family, school and the community.	These offerings provide information and activities to help families choose and build healthy lifestyles physically as well as emotionally.
