

# Fourth Grade Refrigerator Page

Week of: October 3rd

**\*IMPORTANT UPDATES\***

- Thursday, October 6<sup>th</sup> – **Data binders** will be sent home
- Friday, October 7<sup>th</sup> – **Fun Run** <https://www.getmovinfundhub.com/event-webpage/62b9bb9881b68>
- Friday, October 7<sup>th</sup> - **Quarterly Interims** ( check Home Access Center)
- Sunday, October 9 – **Project ACES ends**

## STEM

**Math** – This week we will be finishing up Unit 1 with our test coming at the end of the week. The test will be on:

- addition and subtraction with regrouping using a standard algorithm
- rounding numbers to a given place
- rounding ranges of numbers
- place value – including expanded form, word name form and standard form

A test reminder will come out later in the week to assist with concepts to study. Unit 2 will focus on multiplication so please work with your child on practicing their multiplication facts.

**Science** – We are finishing the lesson on our “Bucket of Mud” and will be moving on to learning about food chains and food webs and how they affect the health of the ecosystem.

## HUMANITIES

**Reading** – We are continuing to find the theme in stories. Students have read plays and stories to determine the theme.

**Writing** – Students are putting their finishing touches on their personal narrative writing. They have written stories about an event that happened in their life. We have taken it through the writing process and they will be “published” by the end of the week.

**Word Study** - We are continuing to look at syllable types, right now we are focusing on closed syllables.

While looking through the data binder keep in mind some assignments are in the Google Classroom. Also, please check Home Access Center for grades for interims.
