

## FACT SHEET

# Migratory Students of Issaquah School District

Year: 2021    Grade: 10    Sex: All    Number of Students Surveyed: 1,227

### Background

The purpose of this report is to provide stakeholders a comparative overview of the health status, behaviors, and access to healthcare coverage between self-identified migratory students of Washington State, as defined by Title I. Part C Migrant Education Program (MEP), and their non-migratory student counterparts.

The HYS data suggests that there are significantly higher health disparities among Migratory students compared to non-Migratory Washington students. Although Migratory students have access to state and federal funded healthcare coverage, there are evident gaps in accessing healthcare services that may be contributing to greater disparities overall. Other contributing factors such as higher rates of mobility due to the pursuit of temporary or seasonal agricultural work, fear of seeking services, along with other socioeconomic barriers, also impact migrant student's full academic engagement such as attendance, academic participation, and graduation.

**Migrant Status Compared to the State, All Grades, 2021**

Prevalence	6th	8th	10th	12th
Local	10% ±2	6% ±1	5% ±1	5% ±2
State	14% ±1	11% ±1	8% ±1	6% ±1

**Migrant Status 2018-2021, Grade 10**

Prevalence	2018	2021
Migrant status	3% ±1	5% ±1

\* Students self-identified as having moved independently or with family in the past 3 years to another school district or city for temporary or seasonal work in agriculture, dairy, or fishing.

### Statewide Relationships between Migrant Status, Grade 10

For 10<sup>th</sup> grade **migrant** students statewide, are:

- More likely to report getting lower grades in school (mostly C's, D's, or F's)
- More likely to have skipped or "cut" school in the past month
- More likely to have been bullied in the past month
- More likely to have missed school due to a toothache in the past year
- More likely to report binge drinking in the past 2 weeks
- More likely to have made a suicide attempt in the past year

Compared to those with **non-migrant** students.
