Introduction to School Community Councils

School Improvement Goals

Reading Growth – 70% of students achieve typical or above typical growth

Math – 75% of students with typical or above typical growth in iReady

Teachers get a ½ day every month for collaboration days to train and review 4 guiding questions. PLC conference was held in Salt Lake City, with teachers from 1st-6th grade. The registration was expensive (\$700+), but Meggan used money allocated from the legislature and grant money to pay for it. They receive training and can collaborate at the conference. The hope is every teacher gets a chance to go to this conference over the next 3 years.

*At next meeting, look at technology needs

School Behavioral Plan and Positive Behavior Intervention Supports

Reviewed 4 school rules. Children are taught unexpected behaviors, instead of shaming if they do not follow a rule.

Positive behavior incentives: Dragon 100 club (students receive a ticket where they can redeem for a prize, and name goes up on the board); Individual class plans (teachers use their own program); Coins (Classes are given coins for showing expected behavior – rewards for reaching certain coin thresholds); Pizza with the principal (Teachers nominate a student in their class that are recognized for good behavior)

Briefly reviewed poor behavior protocol – Meggan will email that out.

Other Items-

*Kennedy review at next meeting musical/BTS money

Briefly discussed robotics – not a teacher available/willing to teach it

Next meeting will be held December 13 at 10:00 am

Meeting Adjourned at 10:33 am
