Hello, artists! After wrapping up our school wide Dot Day project we are jumping into other projects. Grades 3-5 started some neurographic art which is amazing! Grades K-2 are starting to experiment with blending chalk pastels. I love seeing the amazing work your students do and I love working with them!

Special - Library

Mrs. Hill

I wish you could experience the excitement of these students as they open more treasures through reading - there is absolutely nothing like it!

At the beginning of October, our readers had the opportunity to participate in the *Curiouser and Curiouser Fall Book Fair* inside the library. Over 140 of our students brought their family and friends and were able to walk away with amazing reading material. We loved it!

During the month of October, our students will be learning how to stay safe when using their technology devices. The internet can be a useful tool for learning and communicating with others, but it must also be used with caution and supervision.

If you have any questions or concerns, I'm here for you!

Special - Music

Mr. Hall

In music this month we have continued using the new instruments in the class. We have started using scarves to show movement with the beat for K-1. We have also ventured into learning more advanced ukulele chord structure with the 4th and 5th Grade. 2nd and 3rd Grade have been learning about all of the small Latin percussion instruments and have really enjoyed getting to play them. 4th Grade has been working for hard preparing for their showcase that will be in the middle of November. We have all taken time to fully develop a strong sense of steady beat and rhythm.

Special - P.E.

Coach Mills

Our K-2 students have been using manipulatives to work on tossing, catching, and throwing.

We had pairs and teams for different throwing and catching activities. We have also been learning how to move with bumping, pushing, and shoving one another while moving in PE.

This was getting the students ready for our upcoming unit on Soccer. Grades 3-6 are working hard with aerobic games in preparation for the Pacer Challenge. The Pacer Challenge is sometimes called The Beep Test. The kids love this every year.

Please remind your children to wear proper clothing and footwear on their PE days! Boots, Crocks, slip on Vans, flip flops, and dress shoes are not safe for PE.

If you have any questions or concerns, please reach out to me.

Special - STEM

Mrs. Bowen

We have been working so hard in STEM class! I cannot believe we have completed a whole nine weeks!

Our 3-5 grade classes just wrapped up last week on designing a bone tower out of Q-tips. It was super fun! Kindergarten- 2nd grade have been doing lego halloween STEM challenges! Designing different things out of legos that are associated with Halloween!

All grades have also been doing coding, this follows along with our Computer Science we have been working on.

STEM Wish List:

- Clorox wipes
- Glue sticks
- Legos
