Academics

We believe that the best preparation of our students for a meaningful life is grounded in the clear thinking and discipline that only a rigorous academic program can instill. We treasure genuine scholarship at Collingwood and understand how to make learning meaningful. Accordingly, we strive to deliver classes that are challenging and highly engaging. We also appreciate that our academic standards are connected to the collective quality of our teachers, and therefore go to great lengths to recruit and nurture those teachers who know their discipline inside and out and who can explain it with clarity, passion and insight.

Arts

We believe that a fundamental part of students' liberal education is the exposure to the Arts, and the opportunity to pursue the arts in its many forms. We believe this relationship with music, dance, theatre and visual arts not only enhances an individual intrinsically, but adds colour and richness to the whole school community.

Athletics

We believe that there are unlimited, unscripted life lessons for all children in a well-run sports program. We understand and embrace the value of physical fitness, not only to enhance health and well-being, but also to develop a discipline that can be applied to every aspect of life. We know that character can be revealed and developed during the ups and downs of a game or a season, and we want our students to learn to face adversity and success with a similar amount of humility.

Service

We are blessed to be at a school like Collingwood in a country like Canada, and those blessings bring with them a responsibility to serve others. Accordingly, every program and practice at our school is aimed at weaving into the very soul of our students the determination to lead a life that makes a difference; a life that understands and embraces responsible citizenship; a life that seeks always to contribute to others positively.

Round Square

There are currently 150 Round Square member schools worldwide representing a student capacity of about 200,000. Round Square is a collaboration of like-minded schools and each school shares and benefits from each other's ideas, methods, experience, and opportunities both regionally and internationally. Round Square schools share a commitment to character education and experiential learning built around six **IDEALS**. Collingwood is proud to be the only Round Square school in Metro Vancouver.

Admissions Ambassadors

Duration	All Year
Eligibility	Grade 8-12
Google Classroom Code	See First 5 for application link.
Sponsor	Lindsay Thierry / Laura Peña

The Admissions Ambassador Program is a leadership opportunity for students in grades 11 to 12 and a service opportunity for students in grades 8 to 12 who are dedicated to serving and representing Collingwood School throughout the year. Admissions Ambassadors are students who model the school's values and embody the school's vision and mission. They are students in good standing, engaged in their education, involved in the school community, and respected by their peers and teachers.

Participation in this program is through an application process, an interview, and extensive training. Students interested in this program have an opportunity to join in a Leadership position (for Gr.s 11-12) or a Service position (for Gr. 8-12). All members of the Admissions Ambassadors program are trained to lead campus tours, to serve as greeters and campus hosts at events, including speaking on a panel, and represent the School at community events. The application and selection of Admissions Ambassadors occurs annually.

Board Games Club

Duration	All Year
Eligibility	Grade 8-12
Google Classroom Code	1m7v42a
Sponsor	Clayton Coford

A club that celebrates intelligence, creativity, strategy, and fun. We play a variety of board games that most people have never heard of. You will not find many classics like Monopoly, Risk, Yahtzee or anything similar here. Instead, you will find newer games that embrace strategic thinking, decisions that matter, learning how to work with someone else or possibly against someone else, or potentially just a way to let off some good laughter. New members are always welcome. Game rules are taught at each meeting and new games are introduced all the time.

Netball Club

Duration	Term 3
Eligibility	Grade 8-12
Google Classroom Code	vh6c6x3
Sponsor	Morgan McLaughlin

Netball is one of the most popular sports for girls in the world and is quickly growing in participation. A highly inclusive sport, there is a position for everyone who wants to try it out! If you ask a netballer to explain the game, they would have you imagine combining basketball and ultimate into one game.

It's fun, it's fast, and it's for everyone!

We play against other teams in the Province for a Provincial title. We also get the pleasure of playing against visiting teams from Australia and England! If you can run, pass, catch, and throw - you can play netball!

Psychology Club

Duration	All Year
Eligibility	Grade 8-12
Google Classroom Code	5zmfldd
Sponsor	Kevin Waterhouse

Why are lottery winners not necessarily happier than the survivors of severe car crashes? Are there neurological differences between serial killers and average humans? If you're fascinated by human behaviour, Collingwood psychology club is the perfect place for you! This year, you'll be able to engage in experiences of a lifetime: publishing psychology articles, producing psychology podcasts, eating snacks on movie afternoons, going on field trips to university labs, and presenting your psychology project at a city-wide conference! What are you waiting for?

If you have any questions, please contact our club president Anna Dai (anna.dai@mycw.org) or sponsor teacher Mr. Waterhouse (kevin.waterhouse@mycw.org).

Rocketry Club

Duration	All Year
Eligibility	Grade 8-12
Google Classroom Code	r6lmtoi
Sponsor	Ms. Edel Vo, Ms. Sarah Power

The Collingwood rocketry club is offered as a co-curric for students. We take students through the process of building and designing model rockets. Students are now able to see rockets that otherwise are on a screen, in person. In the club the students are able to freely explore a hobby that can't be found anywhere else. There is a process of building rockets. Throughout the year we will guide them through three steps, building skills, designing a rocket, and launching. This gives the students tools to create things themselves creating lasting long term hobbies and knowledge. As a result of the work, students will be able to participate in a spectacular rocket launch, a fantastic event full of excitement!!!
