SUBJECT: IMMUNIZATION OF STUDENTS

Every child entering or attending a District school must present proof of immunization or proof of immunity by serology (blood test) if applicable unless a New York State licensed physician certifies that such immunization is detrimental to the student's health. The requirement for that immunization is waived until such immunization is no longer detrimental to the child's student's health.

Except for this exemption, the District may not permit a student lacking evidence of immunization to remain in school for more than fourteen (14) days, or thirty (30) days for an out-of-state or out-of-country transferee who can show a good faith effort to obtain the necessary certification or other evidence of immunization.

The PPS Director or his or her designee will notify the local health authority of the name and address of the excluded students and provide the parent or person in parental relation at statement of his or her duty regarding immunization. A parent or person in parental relation who refuses to immunize his or her child and does not inform the District of the intent to homeschool, is creating a situation where that student is not attending school regularly which is considered educational neglect. The District is obligated under New York State Law to report all potential forms of educational neglect.

For homeless children, the enrolling school must immediately refer the parent or person in parental relation to the District's homeless liaison, who must assist them in obtaining the necessary immunization(s), or medical records.

The District will provide an annual summary of compliance with immunization requirements to the Commissioner of Health.

All schools will also post educational information on influenza and the benefits of influenza immunization which will be in plain view and available to parents.

Education Law §§310 and 914
Public Health Law §§ 613 and 2164
8 NYCRR §§ 100.2 and 136.3
10 NYCRR Subpart 66-1
