JOB SUMMARY

The Saul and Carole Zabar Nursery School at the MMJCC Manhattan is a Reggio-inspired, Jewish-values-based, child-centered school where students are respected as citizens with powerful ideas and voices. Teachers facilitate learning by working collaboratively with children as researchers, guiding and following the interests of the group. The JCC is an inclusive school that celebrates the developmental differences of each child. Teachers support each child's learning, their connections with one another, their achievements, and their points of view by making their work visible through many forms of documentation. Teachers partner with families to build a strong classroom and schoolwide community. Our teachers are learners and leaders, whose voices and ideas shape the school around them.

We are looking for a part-time Floating Teacher who shares our belief in school community and progressive pedagogy.
