Did you know?

» A successful capital projects levy renewal will help meet ongoing and increasing needs, with the funds being used in the following ways:

Safety and security The levy allows the district to maintain and increase safety and security measures and equipment throughout the district.

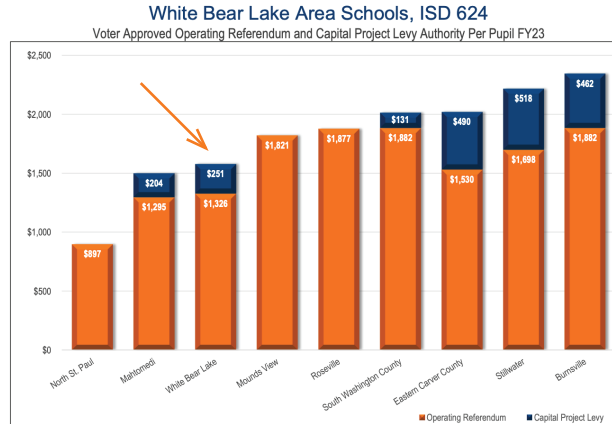

Technology and related services The levy allows the district to provide classroom technology, software and computers for students. Related services include the maintenance of equipment and technology staff.

Textbooks, curriculum materials and equipment, and musical instruments The levy allows the district to purchase textbooks, curriculum materials and equipment, and musical instruments according to our curriculum replacement cycle.

Transportation The levy allows the district to purchase buses and vans to maintain its fleet for student transportation.

» A renewal **will not increase current tax rates**. The Board voted unanimously to ask voters to renew the expiring levy at the same tax rate, as a straight renewal of an existing levy.

» **See how we compare** with neighboring/comparative districts in relation to voter approved operating referendum and capital project levy authority per pupil.
