

Safeguarding Personal Identifying Information

The Board is committed to protecting the confidentiality of personal identifying information (PII) obtained, created and/or maintained by the district. The Board directs district staff to safeguard PII in accordance with this policy, other Board policies concerning the creation, use, storage or destruction of PII, and applicable law.

The district must implement and maintain reasonable security procedures appropriate to the nature of the PII to protect against unauthorized access, use, modification, disclosure or destruction. The district must require third parties that create, maintain and/or obtain PII to also maintain reasonable security procedures appropriate to the nature of the PII designed to protect against unauthorized access, use, modification, disclosure or destruction.

The district must ensure that records containing PII are appropriately destroyed when no longer needed and in such a manner as to make the PII unreadable or indecipherable, unless such record is required to be retained by applicable law. In the event of a security breach, as that term is defined by state law, the district must conduct a prompt investigation to determine the likelihood that personal information has been or will be misused and notify those Colorado residents affected by the breach, the Colorado Attorney General's office and consumer reporting agencies, in accordance with the notification and timeline requirements of state law.

Adopted: November 18, 2020
