

Academic Achievement

It is the responsibility of the Board of Education to focus its attention and energy on the quality of education provided in the district and on the achievement of our students. The Board is accountable to and is the representative of the entire community in setting academic priorities to ensure the best use of funds made available to the district.

The Board's goal is to improve student achievement by setting clear academic expectations for students through content standards. It is the Board's belief that all students can learn given appropriate time and instruction.

All students are expected to meet or exceed the district's academic content standards before they transition from level to level and before they are eligible to graduate, or complete the requirements and goals as listed in their Individualized Education Program (IEP), which may include modified academic standards.

The school staff and students are directly responsible for student learning. The Board expects each student to study and learn to the best of his/her ability, and each staff member to help in developing and maintaining a climate that encourages and supports academic achievement and high standards of behavior. The district content standards are to be the focal point of classroom instruction.

To fulfill this expectation, all students will be provided challenging instructional programs. Student learning and performance will be continuously monitored against the standards through the use of valid and reliable measures.
