

5th Grade Snow/Remote Learning Plan

Practice and work on each of the following:

- Read for 30 minutes (book or chapter book of your choice)- make sure to record on your reading log
- Practice vocabulary words- use each one in a sentence that makes sense with what the definition says
- Multiplication Facts
- Division Facts
- Read over/study social studies &/or science study guides

Optional Practice

- Write a poem about your snow day.
- Create a story (3-5 paragraphs) about a snow day adventure (can be fiction or nonfiction).
- Read the attached text and find all the adjectives (there are 17). Then create a new story including all those adjectives.
- Come up with a multiplication word problem that includes the number of canned good items in your household.
- Create a division problem that includes how many people you could feed with the amount of soup you have at your house (chicken noodle soup, vegetable soup, tomato soup, whatever you have.)
- Look at the attached math sheet and work the division problems.

- IXL Math: C.1-24; D. 1-22
- IXL Social Studies: K.1-7; L.1-11; N.1-3
- IXL Science: N.1-5; M.1-3; S.1-5

Finding adjectives

Grade 3 Adjectives Worksheet

Circle the adjectives in the story.

Nathan's family went to the beach last summer. His mother packed their

big suitcases with several bathing suits, large beach towels as well as many summer outfits. They placed the blue suitcases in the back of their vehicle and took their places. Nathan's dad drove from their house to the nice cottage they rented on the beach. They parked the car and brought their bags into the cottage. Nathan picked a cozy room with bunk beds. His sister chose the pink room. Their parents took the largest room. There was a tiny kitchen in the cottage and an equally small living room. Soon, they were ready for their first afternoon at the beach. Carrying their light beach bags, wearing flip flops, they walked on the sandy beach near the sea. The kids played in the gentle waves while their parents looked at them from the beach. They had a wonderful time and plan to return next summer.

Hint:
Adjectives are words that describe nouns.

Name

Date

DIVISION – 4 DIGITS BY 2 DIGITS SHEET 1 (NO REMAINDERS)

Divide these 4-digit numbers by a 2-digit number with no remainders.

$$1) 15 \overline{) 4215} \quad 2) 24 \overline{) 3168} \quad 3) 43 \overline{) 1333}$$

$$4) 26 \overline{) 6214} \quad 5) 35 \overline{) 1715} \quad 6) 14 \overline{) 8218}$$

$$7) 41 \overline{) 2665} \quad 8) 37 \overline{) 5550} \quad 9) 24 \overline{) 7224}$$
