

Logging into the Summit Learning Platform: How to Access Bridger Grades

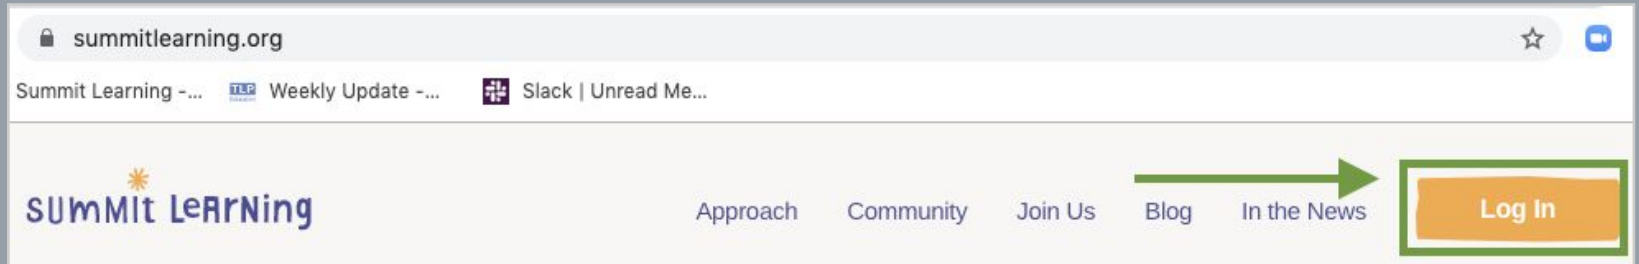

**BRIDGER CHARTER
ACADEMY**

Proficiency-Based Learning Program

Log in to the Summit Learning Platform

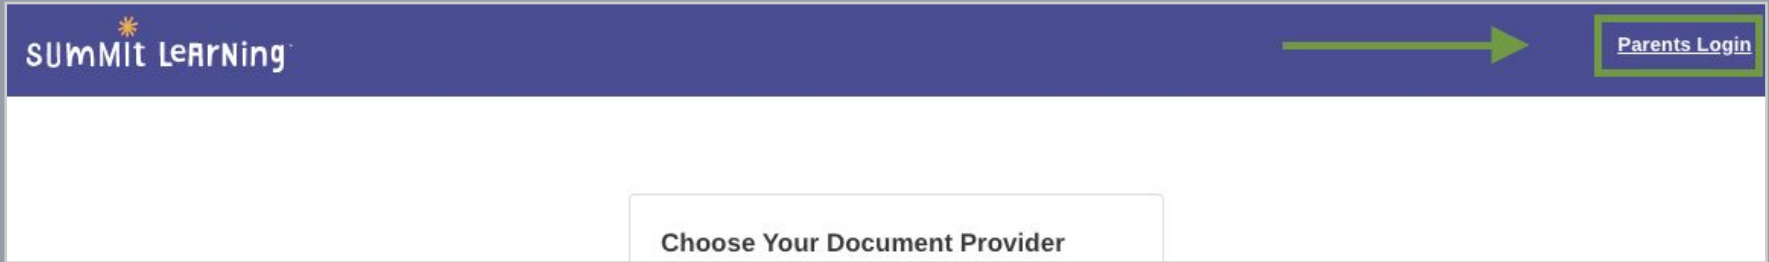

Logging into the Summit Learning Platform as a parent/guardian provides a detailed status of student progress.

1. Go to <https://www.summitlearning.org> and click Log In in the right corner.

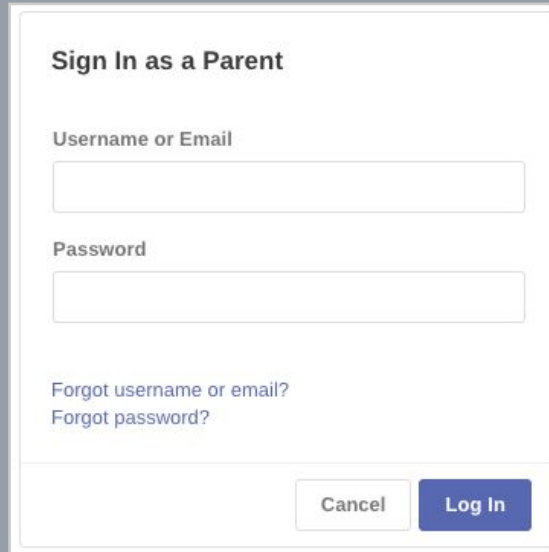

Log in to the Summit Learning Platform

2. On the next screen, click Parent Login in the upper right corner.

Log in to the Summit Learning Platform

3. On the next screen, click Parent Login in the upper right corner.

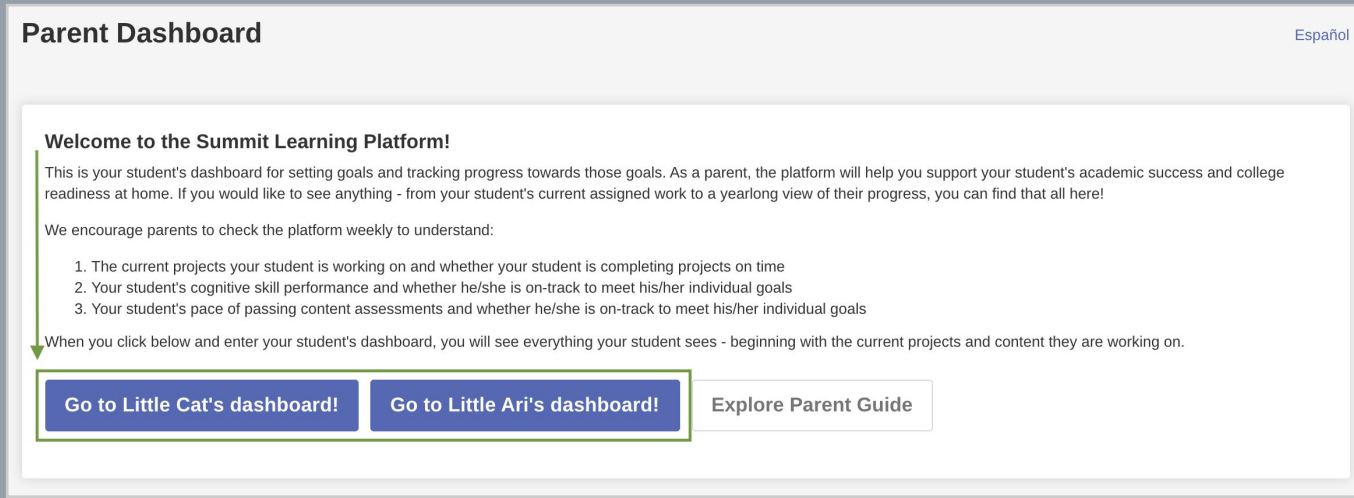

The screenshot shows a white rectangular login form with a thin border. At the top, it is titled "Sign In as a Parent" in bold black text. Below the title are two input fields: "Username or Email" and "Password", each with a light gray border. Underneath the password field are two links: "Forgot username or email?" and "Forgot password?". At the bottom right of the form are two buttons: a white "Cancel" button and a blue "Log In" button.

If you don't have a parent account, please reach out to your student's teacher or principal and provide them with your name and email address for them to create an account for you. They will provide you with a username and password, which you can later update.

Access Grades in the Platform

1. Once you've logged into the Summit Learning Platform, click into your **student's dashboard**.

The screenshot shows the 'Parent Dashboard' interface. At the top left is the title 'Parent Dashboard' and at the top right is a language selector 'Español'. Below the title is a 'Welcome to the Summit Learning Platform!' section. This section contains a paragraph explaining the dashboard's purpose, a list of three items parents should check weekly, and a note about the dashboard's content. At the bottom of the welcome section are three buttons: 'Go to Little Cat's dashboard!', 'Go to Little Ari's dashboard!', and 'Explore Parent Guide'. A green box highlights the first two buttons, and a green arrow points from the text above to this box.

Parent Dashboard Español

Welcome to the Summit Learning Platform!

This is your student's dashboard for setting goals and tracking progress towards those goals. As a parent, the platform will help you support your student's academic success and college readiness at home. If you would like to see anything - from your student's current assigned work to a yearlong view of their progress, you can find that all here!

We encourage parents to check the platform weekly to understand:

1. The current projects your student is working on and whether your student is completing projects on time
2. Your student's cognitive skill performance and whether he/she is on-track to meet his/her individual goals
3. Your student's pace of passing content assessments and whether he/she is on-track to meet his/her individual goals

When you click below and enter your student's dashboard, you will see everything your student sees - beginning with the current projects and content they are working on.

Access Grades in the Platform

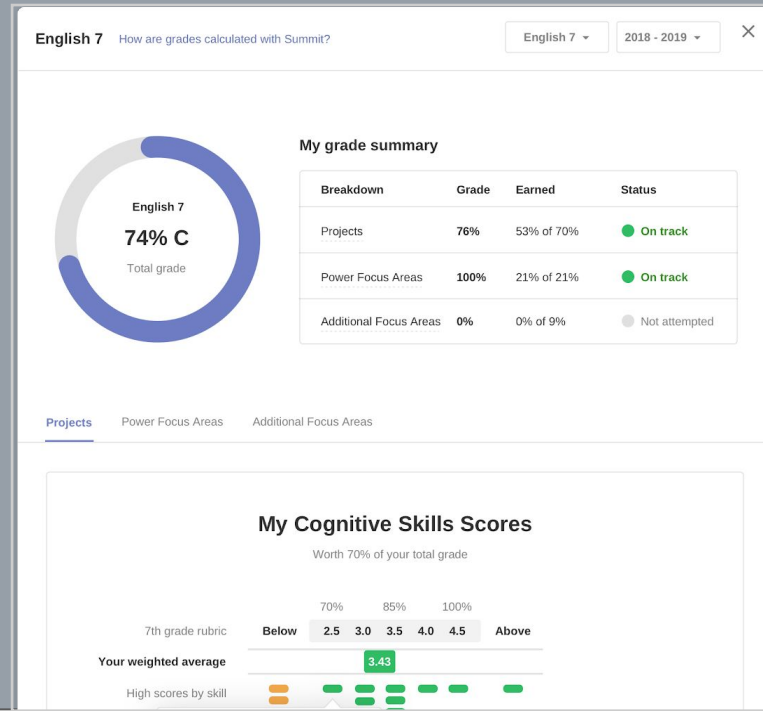

2. The **Progress Page** will be the first page to load. The **Courses** panel on the right side gives the current academics grades. Courses with grades displayed are on track. Courses displaying “Incomplete” need attention.

The screenshot shows a user interface for a progress page. On the left is a blue sidebar with a navigation menu containing icons and labels for 'Week', 'Year', 'Progress', 'College', and 'Resources'. The 'Progress' item is highlighted. A green arrow points from the 'Progress' label in the sidebar to the main content area. The main content area has a white background and is titled 'Progress'. It features a header with 'Activity' on the left and 'Courses' on the right. Below the header, there is a section for 'September 30 - October 4' with the text 'Finished 0 of 0 goals due this week'. To the right of this section, there is a table with a single row showing the number '1'. A green arrow points from the 'All Courses' dropdown menu to the 'Courses' label.

Activity	Courses
September 30 - October 4 Finished 0 of 0 goals due this week	1

Access Grades in the Platform

3. If you click on a specific course on the right side, you can see a **detailed grading breakdown** for all focus areas and projects/math units associated to that course.

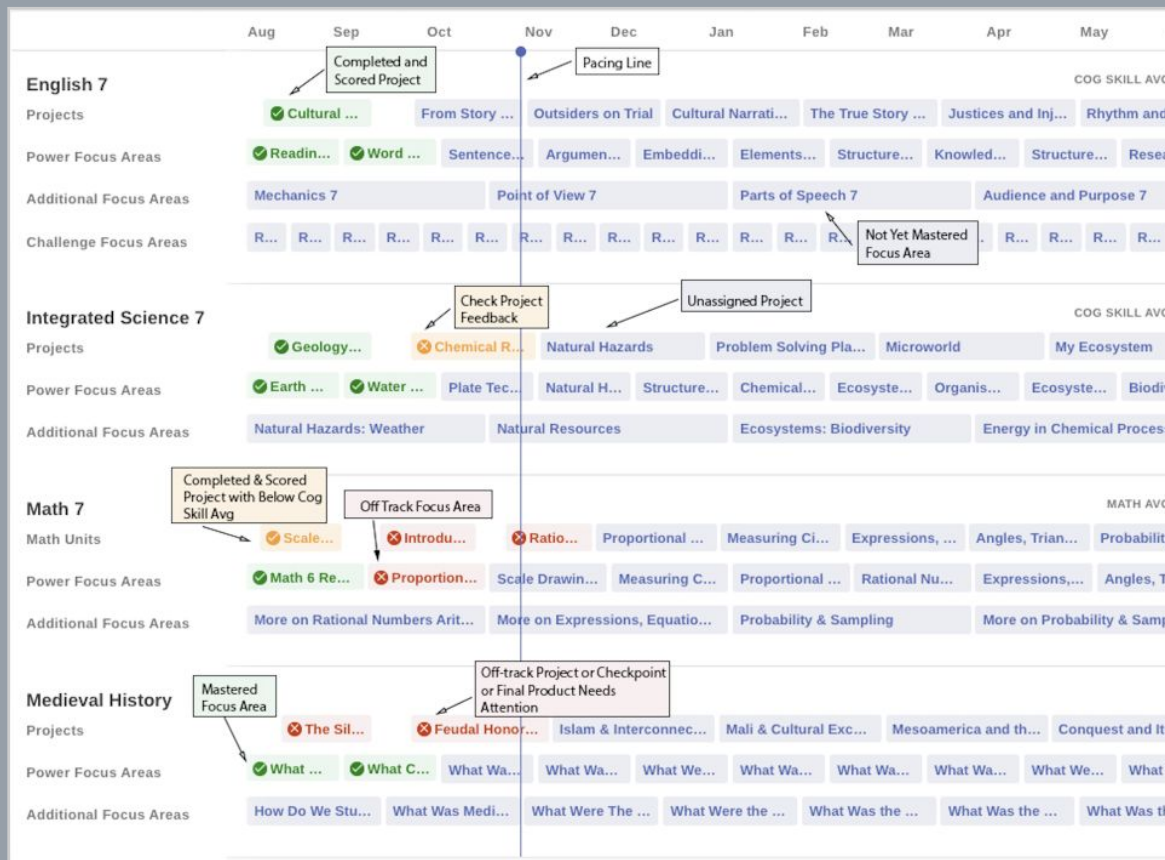

Access Grades in the Platform

4. To see your student's pacing as it relates to all projects, focus areas, and math units, hover over the left hand panel and click **Year**.

Access Grades in the Platform

5. The **Year** page displays your student's progress across all courses for the entire school year.

Check in with Your Child

Regularly checking in with your child is a great way to support their success. Here are a few questions you can ask to get the conversation started:

- What Cognitive Skills are you working to improve?
- What have you learned from your Focus Areas?
- What are some of your learning goals this week?
