Technology Plan Implementation

The Grenada School District recognizes that technology is a driving force for change in how people communicate and acquire knowledge in a rapidly changing world. Currently, technology is an essential tool that allows our students and staff opportunities to communicate, collaborate and create content as a community of learners to ensure that all students graduate with the knowledge and skills necessary to live, learn and work in the 21st Century. In our vision to support student learning, students, staff, parents, and the community work together to provide the tools and experiences every student needs to create an individual, viable and valued path to lifelong personal success.

Technology Goals

- Teach digital citizenship.
- Integrate technology seamlessly in the teaching and learning process while ensuring that the use of technology adds value to learning.
- Develop a new set of knowledge and skills for the 21st century learner.
- Provide greater access to educational opportunities and differentiated instruction by utilizing access to technology for anytime, anywhere learning.
- Improve communication and widen our sense of community by expanding the way teachers, students, and parents are able to interact with each other.
- Integrate digital tools for students to develop products demonstrating their understanding.
- Provide greater access to digital content in a variety of formats and modes.

Internet Acceptable Use Policy

Grenada School District is pleased to bring access to the Internet to students and teachers. Internet access is coordinated through a complex association of government agencies, and regional and state networks. The smooth operation of the network relies upon the proper conduct of the users, who must adhere to strict guidelines. These guidelines are outlined here so that you are aware of the responsibilities you acquire with usage of the Internet. In general, an Internet user accepts responsibility for efficient, ethical, and legal utilization of all network resources. If a user violates the provisions, Grenada School District will terminate or suspend access to the network and disciplinary action may be taken. Transmission of any material in violation of any United States or state regulation is prohibited. This includes copyrighted material, threatening or obscene material, or material protected by trade secret. Use for product advertisement, commercial activities, illegal action, or political lobbying is prohibited. Appropriate use reflects academic honesty, ethical behavior, and demonstrates consideration of the consumption of shared resources. It shows respect for intellectual property, ownership of data, system security mechanisms, and the rights of others to privacy and to freedom from intimidation, harassment, and unwarranted annoyance.

Use of the Internet is a privilege, not a right, and inappropriate use will result in cancellation of those privileges. The principal or his designee may deny, revoke, or suspend user privilege to any user determined to be using the system in an inappropriate manner and their decision is final.

Users are expected to abide by the generally accepted rules of network etiquette. These include (but are not limited to):

- Be polite. Do not write or send abusive messages to others.
- Use appropriate language. Do not swear, use vulgarities, or any other inappropriate language. Illegal activities are strictly forbidden.
- Do not reveal your personal address or phone number or the address or phone number of students or colleagues.
- Note that electronic mail (email) is not guaranteed to be private. Administrators who operate the system have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities.
- Do not use the network in such a way that you would disrupt the use of the network by other users.
- All communications and information accessible via the network should be assumed to be private property.

Reliability:

- Grenada School District makes no warranties of any kind, whether expressed or implied, for the service it is providing.
- Grenada School District will not be responsible for any damages suffered by the user, including loss of data resulting from delays, non-deliveries, missed deliveries, or service interruptions.
- Use of any information obtained via the Internet is at the risk of the user. Grenada School District denies responsibility for the accuracy or quality of information obtained through Internet services.
- Grenada School District is not responsible for student access to what may be deemed as inappropriate material available on the Internet.

Security:

- Security on any computer system is a high priority, especially when the system involves many users. If a user feels he/she has identified a security problem, the principal must be notified immediately. The problem is not to be demonstrated to any other users.

Vandalism:

- Vandalism will result in cancellation of privilege and disciplinary action in accordance with district policy. Vandalism is defined as any malicious attempt to harm or destroy data to another user, the Internet, or any of the networks that are connected to the GSD Internet backbone. This includes, but is not limited to, the uploading or creation of computer viruses.

- Students will tell their teacher or other school employee about any message they receive that is inappropriate or makes them feel uncomfortable.
- Students are responsible for the use of their individual accounts and should take all reasonable precautions to prevent others from being able to use their account. Under no conditions should a user provide his or her password to another person.

Google Apps for Education Parental Permission

Google Apps for Education (GAFE) is an important tool utilized by teachers and students. GAFE includes Google applications for creating, sharing, and storing documents, assignments, videos, and may include the use of a district student email account. The use of GAFE is at the discretion of the classroom teacher and will only be used when appropriate for the student's learning objectives. GSD encourages all parents to share in the GAFE experience by logging in with your child. School staff will monitor the use of technology while at school. Parents are responsible for monitoring their child's use of technology from home. Students are responsible for their behavior at all times. For students under the age of 18, GSD requires parental permission for the use of Google Apps for Education. Signature required in the Student/Parent/Guardian Technology Agreement.

Access Restriction - Due Process

- Access to Google Apps for Education is considered a privilege accorded at the discretion of Grenada School District. The District maintains the right to immediately withdraw access and use of Apps when there is reason to believe that violations of law or District policies have occurred. In such cases, the alleged violation will be referred to the Principal for further investigation and account restoration, suspension, or termination.
