

Summer at NMH is about
discovery, connection, fun —
and really good food.

3- or 5-weeks from July 1, 2023

Join students from across the country and around the globe for a learning experience that will reward your curiosity, deepen your compassion, and strengthen your abilities – in the classroom, in your community, and in yourself.

Spend three or five weeks this summer taking engaging classes and participating in hands-on learning and enrichment activities. Live and learn on our beautiful campus, with top-notch facilities and indoor and outdoor spaces that inspire creativity and connection.

Have fun and meet new friends as you get ready to excel in the school year ahead!

Join us for one of our three- or five-week programs, starting on July 1.

College Prep

For students entering grades 10-12

Choose one subject and dig in deeply, with inspiring teachers and motivated peers in small classes. Most courses cover a full academic year of content, creating opportunities for you to earn credit, prepare to move to the next level, or fill academic gaps.

Rising Scholars

For students entering grades 7-9

Hone your academic skills and confidence in exciting courses that most middle schools don't offer, in small groups where you'll get individual attention from experienced and supportive teachers.

English for Speakers of Other Languages (ESOL)

For students entering grades 7-12

Online option available

If you're an international student who wants to improve your English skills in order to enroll at an American high school or university, this is the program for you. There are classes for all levels, from beginners to advanced speakers.

Additional programs include college counseling, Maker Space Design Lab, and SAT/SSAT test prep.

Virtual Learning Program

Can't come to campus? We have you covered!

We offer math credit, ESOL, journalism, and SAT/SSAT test prep classes online, along with opportunities to join advisory and workshops focused on social and emotional growth.
