Policies, protocols, procedures and plans already in place

Provide hyperlinks to any documents or other resources currently utilized in your school/district. Consider adding a brief description about how each is used within your school.

Additional documents reference here:

SECTION 1. Clarifying Roles and Responsibilities

Identifying roles central to communicable disease management. Clarifying responsibilities related to communicable disease response is a first step in keeping communities healthy and safe. In general, decisions of school health and safety reside with school and district officials. Together with local public health officials, school/district administrators should consult a variety of individuals when making decisions about health and safety in school.

Table 2. Roles and Responsibilities

| School planning team members | Responsibilities: | Primary Contact (Name/Title): | Alternative Contact: |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Building Lead / Administrator | <ul style="list-style-type: none"> Educates staff, families, and students on policies regarding visitors and volunteers, ensuring health and safety are being maintained. In consultation with district leadership and LPHA staff, determines the level and type of response that is required/necessary. Acts as key spokesperson to communicate health-related matters within school community members, health partners, and other local partners. | Brad Linn, CWA Director Email: linnb@nclack.k12.or.us Phone: (503) 659-4664 | Zoe Booth, CWA Assistant Principal Email: boothz@nclack.k12.or.us Phone: (503) 659-4664 |

Section 2. Equity and Mental Health

Preparing a plan that centers equity and supports mental health

Preparing a school to manage COVID-19 requires an inclusive and holistic approach to protect access to in-person learning for all students. In this section suggested resources are offered to help prepare for COVID-19 management while centering an equitable and caring response.

Centering Equity

Identify existing district or school plans and tools that can be utilized when centering equity in prevention, response, and recovery from incidents of COVID-19 (e.g., district or school equity plans/stances/lenses/decision tools, Equity Committee or Team protocols, district or school systems for including student voice, existing agreements or community engagement or consultation models, Tribal Consultation¹, etc.)

- [North Clackamas - CWA Equity Lenses](#)
- [North Clackamas - CWA Equity Lens Guidance](#)
- [North Clackamas - CWA Equity Stance](#)

Suggested Resources:

1. [Equity Decision Tools](#) for School Leaders
2. [Oregon Data for Decisions Guide](#)
3. [Oregon's COVID-19 Data Dashboards](#) by Oregon Health Authority COVID-19
4. [Data for Decisions Dashboard](#)
5. [Community Engagement Toolkit](#)
6. [Tribal Consultation Toolkit](#)

¹ Tribal Consultation is a separate process from stakeholder engagement; consultation recognizes and affirms tribal rights of self-government and tribal sovereignty, and mandates state government to work with American Indian nations on a [government-to-government](#) basis.

Table 3.

Centering Equity

| OHA/ODE Recommendation(s) | Response: |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Describe how you identify those in your school setting that are disproportionately impacted by COVID-19 and which students and families may need differentiated or additional support. | Covid 19 positive rates are tracked centrally. Schools are alerted to any positive rate anomalies. |
| Describe the process by which the school will implement a differentiated plan for those that are disproportionately impacted, historically underserved or at higher risk of negative impacts or complications related to COVID-19. | Should any significant disproportionality in positive rates be evident, CWA will utilize district resources including the Student and Family Support Department, Wichita Center for Children and Families, and/or the engagement team to provide information and resources. Strategies could include access and Multi-Lingual information about Covid 19 prevention, testing, vaccinations, and treatment options. Social services, including food, housing support aid, access to community mental aid and physical health resources can be provided. Every student in North Clackamas School District-CWA has access to the Student Based Health Center. This school student support team regularly reviews academic and other data to determine what academic, social, or behavioral services will best meet a students' needs culturally and linguistically specific. Community Liaisons and Outreach Facilitators are available to assist school teams with this work. |
| What support, training or logistics need to be in place to ensure that the named strategies are understood, implemented, and monitored successfully. | The student support team is a long-standing model for reviewing student needs. The standing training and logistics related to this team will be used to determine and address students' needs. |

Mental Health Supports

Schools are encouraged to continue to prioritize cultivating care, connection, and community to support the mental, emotional, and social health and well-being of students, families, staff, and administrators.

Identify existing district or school plans and tools that can be utilized in supporting student and staff wellbeing and mental health during prevention, response, and recovery from incidents of COVID-19 (e.g., counseling services; partnerships with community mental and behavioral health providers; school district suicide prevention, intervention, and postvention plan; School Based Health Center resources; tribal resources, etc.)

- *School Based Mental Health Therapy is provided by the following organizations: LifeStance, Trillium, Clackamas County*
- *Substance Use/Abuse Counseling is provided by LifeStance*
- *District Social Workers provided direct support to students and families, as well as link them to community resources*
- *District Counselors & Social Workers are trained in and provide suicide assessment/screening to any students with suicidal thoughts, gestures, and/or ideation and link them to district and community interventions for support*
- *The Food Pantry is available for any student and their family that is facing food insecurities (hygiene items are also available)*
- *Emergency housing assistance is available as well and McKinney-Vento services (this has been a needed intervention for some families that have lost work due to the COVID pandemic, and faced financial hardship)*
- [North Clackamas School District Nursing Team](#)

Suggested Resources:

1. ODE [Mental Health Toolkit](#)
2. [Care and Connection](#) Program
3. Statewide [interactive map of Care and Connection examples](#)
4. [Care and Connection District Examples](#)
5. Oregon Health Authority [Youth Suicide Prevention](#)

Table 4. Mental Health Supports

| OHA/ODE Recommendation(s) | Response: |
|----------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Describe how you will devote time for students and staff to connect and build relationships. | CWA students are encouraged to attend weekly grade level cohort meetings. During these sessions, students can access their teachers and counselors for academic and emotional support. Students can also participate in team building activities, forecasting, and goal setting activities. Cohort meetings are hosted on our school campus and via Google Meets. |

| OHA/ODE Recommendation(s) | Response: |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Describe how you will ensure class time, and individual time if needed, for creative opportunities that allow students and staff to explore and process their experiences.</p> | <p>Every student at CWA is assigned an academic advisor. Advisors are faculty members and they play an integral part in a student's educational journey. Advisors act as a teacher, coach, mentor and advocate as they help students attain their educational goals.</p> <p>The CWA advisor is required to meet with their assigned student(s) and family member(s) once every two weeks. These meetings are scheduled at our school site or via Google Meets.</p> <p>The advisor can also be reached daily via mobile phone, email, and text messaging to answer any questions their assigned families might have about school.</p> |
| <p>Describe how you will link staff, students and families with culturally relevant health and mental health services and supports.</p> | <p>During the 2022-23 school year, CWA is partnering up with Life Stance Health as it allows all students in our school an opportunity to meet with a clinician if they are suffering from trauma and / or anxiety.</p> <p>As stated above, each CWA student is assigned an academic advisor and is encouraged to participate in a weekly cohort meeting.</p> <p>The advisor can also be reached daily via mobile phone, email, and text messaging to answer any questions their assigned families might have about school.</p> |
| <p>Describe how you will foster peer/student lead initiatives on well-being and mental health.</p> | <p>CWA's student leadership has organized themed activities to build and foster positive relationships for all students.</p> <p>Student-led organizations are also offered. These groups empower our students to share their voice and address any mental health and well-being concerns.</p> |

Section 3. COVID-19 Outbreak Prevention, Response & Recovery:

Implementing mitigation activities, responding to periods of increased transmission, resuming baseline level mitigation, and debriefing actions to improve the process

Planning for and implementing proactive health and safety mitigation measures assists schools in reducing COVID-19 transmission within the school environment for students, staff, and community members. COVID-19 will continue to circulate in our communities and our schools for the indefinite future. Schools will utilize different mitigation measures based on COVID-19 transmission within their facilities and communities. In the following section, teams will document their school's approach to the CDC, OHA and ODE advised health and safety measures at baseline, during increased COVID-19 transmission, and as they roll back the increased mitigating measures, incorporating lessons learned.

Suggested Resources:

1. [CDC Guidance for COVID-19 Prevention in K-12 Schools](#)
2. [Communicable Disease Guidance for Schools](#) which includes information regarding
 - Symptom-Based Exclusion Guidelines (pages 8-12)
 - Transmission Routes (pages 29-32)
 - Prevention or Mitigation Measures (pages 5-6)
 - School Attendance Restrictions and Reporting (page 33)
3. [COVID-19 Investigative Guidelines](#)
4. [Planning for COVID-19 Scenarios in School](#)
5. [CDC COVID-19 Community Levels](#)
6. [Supports for Continuity of Services](#)

Table 5.

COVID-19 Mitigating Measures

| <p>OHA/ODE Recommendation(s) Layered Health and Safety Measures</p> | <p>BASELINE MEASURES: describe what mitigating measures will the school implement all of the time, each and every day of the school year to reduce the spread of COVID-19 and protect in-person instruction?</p> |
|--------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>COVID-19 Vaccination</p> | <p>The District-CWA will continue to share out to our school community locations of local vaccination clinics.</p> |
| <p>Face Coverings</p> | <p>The District-CWA will continue to make face coverings available to all students and staff that wish to wear them. Face Coverings will not be required except when in the below locations as per OAR 333-019-1011:</p> <ul style="list-style-type: none"> *School health rooms *Isolation rooms *Counseling offices where mental health services are delivered. |
| <p>Isolation</p> | <p>A space will be made available to isolate sick children from injured children that need assistance per OAR 581-022-2220. Staff that manage the isolation room of ill children will be trained on Personal Protective Equipment (PPE) requirements and the administration of BinaxNOW Rapid tests.</p> |
| <p>Symptom Screening</p> | <p>Symptoms poster will remain at the front entrance of all District buildings to discourage those that are ill from entering.</p> |
| <p>COVID-19 Testing</p> | <p>Students and staff who exhibit symptoms of COVID-19 while at school have an option to be tested on-site prior to being sent home. District-CWA is currently offering enhanced exposure testing consistent with OHA/ODE direction. NCSd will continue to offer this diagnostic testing by participating in the OHA program, COVID-19 Testing in Oregon’s K-12 Schools. All staff that oversee the administration of BinaxNOW Rapid tests will continue to be trained on the requirements and expectations of the COVID-19 Testing in Oregon’s K-12 Schools program.</p> |
| <p>Airflow and Circulation</p> | <p>Ventilation and proper cleaning protocols are effective methods to reduce viral spread indoors and promote a healthy learning environment. Clackamas Web Academy is committed to maintaining appropriate indoor air quality and routine cleaning of its school. In summary, CWA will work closely with NCSd and Doug Bean & Associates to ensure the following strategies:</p> <ul style="list-style-type: none"> *Increasing the amount of fresh outside air that is introduced into the HVAC system *Exhausting air from indoors to the outdoors (air exchanges) and *Cleaning the air that is recirculated indoors with effective filtration methods to remove virus-containing particles from the air. |
| <p>Cohorting</p> | <p>Classes and student gatherings will return to standard pre-COVID setup.</p> |

| OHA/ODE Recommendation(s) Layered Health and Safety Measures | BASELINE MEASURES: describe what mitigating measures will the school implement all of the time, each and every day of the school year to reduce the spread of COVID-19 and protect in-person instruction? |
|-----------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Physical Distancing | <p>Classroom configurations return to standard pre-COVID classroom setup with emphasis on striving for at least 3 feet physical distancing between student desks to the extent possible.</p> <p>Staff and students will maintain as much distance as possible which helps mitigate transmission of COVID-19.</p> <p>We will minimize students standing in lines as much as possible.</p> |
| Hand Washing | <p>Staff and students will be trained on the importance of hand and respiratory hygiene.</p> <p>Hand sanitizer will be available for use upon entering CWA's building, in classrooms and other areas where hand washing may be needed, but handwashing sinks are not immediately available.</p> |
| Cleaning and Disinfection | <p>North Clackamas Schools will be using Waxie Solsta 730 HP Disinfectant, a one-step hydrogen peroxide-based product for disinfection, cleaning, and deodorizing. PurTabs to clean, sanitize, and disinfect all its facilities for COVID-19.</p> <p>730 HP Disinfectant Cleaner and PurTabs have been tested and proven to kill SARS-CoV2 the virus responsible for COVID-19, 730 in one minute, and PurTabs in 4 minutes at a dilution rate of 1, 3.3g tablet per 1 quart of water. The 730 HP Disinfectant cleaner will be provided for all staff to use in spray bottles.</p> <p>NCS D Ventilation and Cleaning Protocols</p> <p>Employees will be recommended to frequently clean their workspaces.</p> |
| Training and Public Health Education | <p>Staff will receive an updated COVID-19 training outlining safety measures and mitigation strategies to prevent the spread of COVID-19.</p> |

Table 6.

COVID-19 Mitigating Measures

| OHA/ODE Recommendation(s) Layered Health and Safety Measures | MEASURES DURING PERIODS OF HIGH TRANSMISSION*: describe what mitigating measures the school will implement during periods of high transmission to reduce the spread of COVID-19 and protect in-person learning? *Within the community, high transmission is defined at the county level through CDC COVID-19 Community Levels . Within a school, high transmission may be defined as high absenteeism or unusual spread within a cohort (e.g., a large outbreak in a classroom). |
|------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| COVID-19 Vaccination | The District will continue to share out to our school community locations of local vaccination clinics. |
| Face Coverings | Face Mask will continue be required in the below locations as per OAR 333-019-1011: *School health rooms *Isolation rooms *Counseling offices where mental health services are delivered. |
| Isolation | A space will be made available to isolate sick children from injured children that need assistance per OAR 581-022-2220. Staff that manage the isolation room of ill children will be trained on Personal Protective Equipment (PPE) requirements and the administration of BinaxNOW Rapid tests. |
| Symptom Screening | A symptoms poster will remain at the front entrance of the Clackamas Web Academy to discourage those that are ill from entering. All District staff will be trained and periodically reminded of COVID-19 symptoms. Staff managing the isolation room where ill children are sent will receive additional training on the signs and symptoms of COVID-19. |
| COVID-19 Testing | NCS-D-CWA will continue to offer diagnostic testing by participating in the OHA program, COVID-19 Testing in Oregon's K-12 Schools. All staff that oversee the administration of BinaxNOW Rapid tests will continue to be trained on the requirements and expectations of the COVID-19 Testing in Oregon's K-12 Schools program. |
| Airflow and Circulation | Ventilation and proper cleaning protocols are effective methods to reduce viral spread indoors and promote a healthy learning environment. Clackamas Web Academy is committed to maintaining appropriate indoor air quality and routine cleaning of its school. In summary, CWA will work closely with NCS-D and Doug Bean & Associates to ensure the following strategies: *Increasing the amount of fresh outside air that is introduced into the HVAC system *Exhausting air from indoors to the outdoors (air exchanges) and *Cleaning the air that is recirculated indoors with effective filtration methods to remove virus-containing particles from the air. |

| OHA/ODE Recommendation(s) Layered Health and Safety Measures | MEASURES DURING PERIODS OF HIGH TRANSMISSION*: describe what mitigating measures the school will implement during periods of high transmission to reduce the spread of COVID-19 and protect in-person learning? *Within the community, high transmission is defined at the county level through CDC COVID-19 Community Levels . Within a school, high transmission may be defined as high absenteeism or unusual spread within a cohort (e.g., a large outbreak in a classroom). |
|------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Cohorting ² | Schools should notify their LPHA about unusual respiratory disease activity if the following absence thresholds are met and at least some students are known to have influenza or COVID-like symptoms: <ol style="list-style-type: none"> 1. At the school level: ≥ 30% absenteeism, with at least 10 students and staff absent 2. At the cohort level: ≥ 20% absenteeism, with at least 3 students and staff absent |
| Physical Distancing | Classroom configurations return to standard pre-COVID classroom setup with emphasis on striving for at least 3 feet physical distancing between student desks to the extent possible. Staff and students will maintain as much distance as possible which helps mitigate transmission of COVID-19 We will minimize students standing in lines as much as possible. |
| Hand Washing | Staff and students will be trained on the importance of hand and respiratory hygiene. Hand sanitizer will be available for use upon entering CWA, in classrooms and other areas where hand washing may be needed, but handwashing sinks are not immediately available. |
| Cleaning and Disinfection | North Clackamas Schools will be using Waxie Solsta 730 HP Disinfectant, a one-step hydrogen peroxide-based product for disinfection, cleaning, and deodorizing. PurTabs to clean, sanitize, and disinfect all its facilities for COVID-19. 730 HP Disinfectant Cleaner and PurTabs have been tested and proven to kill SARS-CoV2 the virus responsible for COVID-19, 730 in one minute, and PurTabs in 4 minutes at a dilution rate of 1, 3.3g tablet per 1 quart of water. The 730 HP Disinfectant cleaner will be provided for all staff to use in spray bottles. NCSD Ventilation and Cleaning Protocols Employees will be recommended to frequently clean their workspaces. Custodial cleaning protocols include wiping down surfaces such as door handles, light switches, copiers, countertops, water fountain buttons once every 24 hours. |

² Cohorting refers to establishing a consistent group of students that stay together for a significant portion of the school day. Examples include stable mealtime cohorts, classrooms, table groups, lunch bunches, and other group situations. Cohorts should be as small as feasible to minimize exposure.

| Physical Distancing | <p>Classroom configurations return to standard pre-COVID classroom setup with emphasis on striving for at least 3 feet physical distancing between student desks to the extent possible.</p> <p>Staff and students will maintain as much distance as possible which helps mitigate transmission of COVID-19.</p> <p>We will minimize students standing in lines as much as possible.</p> |
| Hand Washing | <p>Staff and students will continue to be educated on the importance of hand and respiratory hygiene.</p> <p>Hand sanitizer will be available for use upon entering CWA’s building, in classrooms and other areas where hand washing may be needed, but handwashing sinks are not immediately available.</p> <p>Students will be encouraged to wash their hands throughout the day including but not limited to after recess, before and after eating lunch and after using the restroom.</p> |
| Cleaning and Disinfection | <p>North Clackamas Schools will be using Waxie Solsta 730 HP Disinfectant, a one-step hydrogen peroxide-based product for disinfection, cleaning, and deodorizing. PurTabs to clean, sanitize, and disinfect all its facilities for COVID-19.</p> <p>730 HP Disinfectant Cleaner and PurTabs have been tested and proven to kill SARS-CoV2 the virus responsible for COVID-19, 730 in one minute, and PurTabs in 4 minutes at a dilution rate of 1, 3.3g tablet per 1 quart of water. The 730 HP Disinfectant cleaner will be provided for all staff to use in spray bottles.</p> <p>NCS D Ventilation and Cleaning Protocols</p> <p>Employees will be recommended to frequently clean their workspaces.</p> |
| Training and Public Health Education | Staff will continue to receive COVID-19 training outlining safety measures and mitigation strategies to prevent the spread of COVID-19. |

PRACTICING PLAN TO IMPROVE PROCESS

Training exercises are essential to preparedness ensuring individuals understand their role in a communicable disease event. Exercises can also help identify gaps in the planning, thereby building upon and strengthening the plan over time. Schools, districts, and ESDs should schedule to exercise this plan annually and when any revisions are made to update the plan. The plan, or component(s) of the plan, can be tested through conversations, practice exercises, or other activities.
