

You might be missing out. Here's a valuable service that may save you money on your prescription medicine.

By using the prescriptions-by-mail service, you could save up to 33%* over the cost of a retail pharmacy when you fill your long-term prescriptions.

You may not only save money, you'll save time by ordering a 90-day supply of your prescription medicine. No more driving to the pharmacy and no more waiting for your prescriptions to be filled. And, standard shipping is always free.

Safe and reliable.

As a Horizon Blue Cross Blue Shield of New Jersey Pharmacy program member, you can count on the prescriptions-by-mail service to safely and reliably deliver your medicines directly to your home, or the address of your choice within the United States. Medicine is delivered in plain label packaging to help protect your privacy.

You can order your medicine online, over the phone, or through the mail. You will get a notification through email or over the phone when your order is received and when your prescriptions are mailed.

You can talk by phone to a licensed, U.S.-based pharmacist team, if you have questions about your prescription medicine.
