

HOLDERNESS

Director of Snowmaking and Plumber

The Position

Holderness School is seeking a full-time member of the Facilities Team to serve seasonally as the Director of Snowmaking in support of the school's Nordic Program. During the balance of the year, this position will serve as the school's plumber. This position will have primary responsibility for the school's plumbing needs both in the operation of the school's campus building infrastructure. We will consider a part-time seasonal Director of Snowmaking in lieu of the combined position.

The Facilities Department is a team focused department working to provide a safe, healthy, and comfortable physical environment for Holderness School students and employees by ensuring the proper function of the campus infrastructure and building systems. The successful applicant will be a motivated problem solver, be able to communicate well, and work with a diverse group of people. Safety and a positive attitude are a must. Working on tasks outside of one's primary skill set is also a must (i.e., snow removal on campus is an all-hands-on-deck activity that the entire department participates in).

Overview

Holderness School is a vibrant and caring boarding school community dedicated to our vision of developing people the world needs most. Educating grades 9-12, our school is home to learners, adventurers, artists, advocates, and athletes surrounded by New Hampshire's lakes and White Mountains. From epic outdoor experiences and serving the community to exploring intellectual passions, we are committed to fostering the growth and success of our students - each of whom is respected, known, and challenged.

Diversity Mission Statement

Holderness School is a community that celebrates and supports diversity in its many forms. We value the multiple perspectives and experiences that diversity brings to our community. At all times, Holderness strives to create opportunities to collaborate, to broaden the educational experience of all students and adults, and to enrich the lives of all community members.

Primary Responsibilities

As Seasonal Director of Snowmaking:

- Maintain new snowmaking system, including equipment, pumphouse, and valve houses
- Recruit and train seasonal staff for snowmaking in early-winter
- Coordinate with Nordic Program Director and trail grooming personnel to ensure optimal conditions of the newly homologated Nordic course.

As School's Plumber:

HOLDERNESS
