

## BYOD – Connect to Avon Wi-Fi – Directions for Windows PC

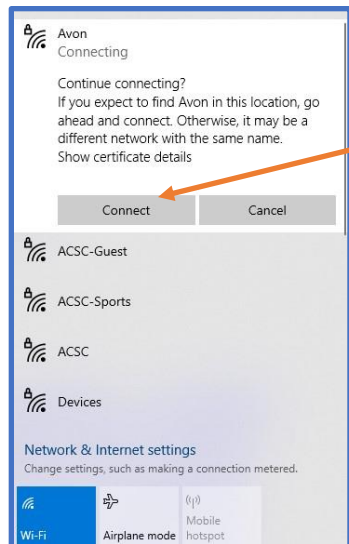

Click the globe or Wi-Fi icon to display available networks.

Select '**Avon**' from the list of available Wi-Fi networks and click **Connect**.

Enter your student ID (or staff username) and network account password (same credentials you use to log on to a school computer).

*If you have never signed into a school computer (e.g., New Student, please sign into a school owned device before trying to connect.*

When asked if you want to continue connecting, click **Connect**.

You should now be connected to the Avon network with 'Connected, Secured' below the name.
