

Mission

To develop empowered learners, critical thinkers, and problem solvers who succeed in and positively impact their community and the world.

Vision

To know our students, prioritize their engagement and connectedness and to model self efficacy so that all learners will thrive.

Core Values

To Nurture and Grow Elmbrook Scholars

Community

We believe social emotional health is a vital component of health and wellbeing. We create a caring, compassionate culture for students, staff, and our larger school community.

Belonging

We believe each student and staff member's experience and perspective is unique. Every individual is valued and embraced in our school community.

Efficacy

We believe all students can achieve academic excellence and are committed to helping them see that in themselves. We believe that our work with and for students leads to increased student achievement and wellbeing.

Growth

We believe that continuous improvement can be achieved through resilience and a growth mindset approach with a focus on creating a rigorous and supportive academic environment for all students.

Collaboration

We believe that working toward common goals through teamwork and shared responsibility supports each other's learning and achievement. Our collaboration multiplies our successes in meeting the academic, behavioral, and social-emotional needs of our students.

Inquiry

We believe that involving students in the learning process through inquiry will increase student engagement and curiosity, and will develop their communication, collaboration, and study skills.
