

Swiss + Group of International Schools

Who are we? We are a collaborative network of university counsellors based in international schools all over Switzerland. We work together to serve our students better and to facilitate our engagement with universities. Each school has its own unique character and community. We offer qualifications including the International Baccalaureate, The French Baccalaureate, AP, A-Levels, Swiss Matura and US High School Diploma. To find links to our schools please visit <https://www.swissplus.org/about>

Our context: Well-located in the heart of Europe, Switzerland borders with key countries making it an international hub. It hosts a multitude of NGOs, banks, international corporations and international government agencies and in 2020, 25% of the population was reported as foreigners many of whom represent a highly mobile, well-educated and professional population from all over the world. Students at our schools often have more than one passport,

identify as Third-Culture Kids with a global outlook, are multilingual, and have good English. Consequently, they are open to a variety of higher education opportunities around the world.

University Fairs: We collaborate to offer a route of college fairs in ten international schools in September and April. Each venue hosts other local schools and around a hundred universities. [Tour map](#)

Please be aware of holidays as they vary by canton and also from school to school, [here is a link to Swiss national holidays](#)

Travel arrangements: Travelling by train in Switzerland is a great option with connections possible to most schools. The [SBB](#) app is excellent and allows you to link to your credit card with PDF invoices emailed daily. For the latest travel information, please [check the Federal Office of Public Health](#) and also check out [Swiss Info News in English](#)

Weather: [Meteo Swiss](#)
