## Advanced Placement Program

QSI International School of Dushanbe online AP courses as needed. We do not have a set limit on the number of AP classes that students can take.

## Grading

Mastery of each essential unit is evaluated with an A or B (mastery grades). B denotes mastery of learning outcomes at a high level of understanding. A represents mastery where the student demonstrates higher order thinking skills. Mediocre or poor work, resulting in Cs and Ds, is not acceptable, and students will re-engage until they demonstrate mastery. Students who master a unit with a B evaluation may attempt to demonstrate a higher level of mastery at a later time, within that current school year, to change the evaluation to an A. Time periods (quarters, semesters, and terms) are not evaluated. Assessment is continuous and student performance is assessed on learning outcomes and units of study.
