

Columbus Tustin Magnet Program

PRE-PATHWAY TO INTERNATIONAL BACCALAUREATE DIPLOMA PROGRAM

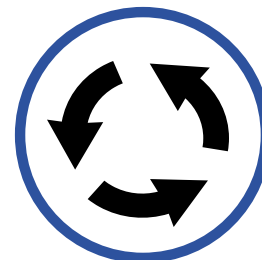

SCHOOL WITHIN A SCHOOL

CT Pre-IB Magnet students attend classes on a comprehensive middle school campus, however their classes are self contained courses comprising small cohorts of learning.

SERVICE TO OTHERS

Through the Pre-IB Pathway, students increase their understanding of the world by exploring globally and locally significant ideas and issues. As a culminating activity, all students complete a community service/passion project each year.

PROJECT BASED LEARNING

With PBL, students acquire deeper knowledge through active exploration of real-world challenges and problems. PBL is student centered, inter-disciplinary learning, which takes place over multiple days/weeks.

SUBJECT AREAS

CT Pre-IB Magnet students will be exposed to eight different subject areas all three years of the magnet program. The subjects include language acquisition, language and literature, individuals and society, sciences, mathematics, arts, physical and health education, and design.

HOLISTIC CONNECTIONS

Interdisciplinary connections are made between content areas. Students learn by doing and experiencing. Students connect what they are learning in class to the real world through learning excursions in the community.

DEPTH & COMPLEXITY

Pre-IB Units of study, taught by GATE Certified teachers, promote opportunities for study in greater depth and complexity, development of advanced skills through research and technology, growth in creativity and curiosity, and an appreciation for learning.
