

Addressing Threatening Social Media Content

Discovering social media content that contains potential threats to NCS D students, staff, or facilities--what to do?

1

Gather Information:

screenshots, identity of the original poster, time, date, and social media site

2

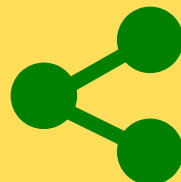

Share Information:

school principal, trusted adult, law enforcement, SafeOregon tipline, or NCS D supervisor

Please Refrain From:

Alerting media

Sharing on social media

Forwarding images to friends

These actions don't help NCS D and law enforcement investigate potential threats and respond appropriately to keep students safe. They often complicate matters by spreading misinformation, inducing panic, emboldening those making threats, and inspiring copycats. Visit www.nclack.k12.or.us/schoolthreats to review NCS D's school threat protocol. Thank you for your cooperation.
