

Garlic!

There are times when
we walk into a kitchen
or walk by a restaurant
and think, "Wow, that
smells great!"

Close your eyes and
imagine the smell.

Many times,
that smell is
garlic.

● In fictional stories, garlic is known as a protection to keep vampires away!

Fun Facts

● Garlic is originally native to Central Asia, and in 2012, nearly 66% of garlic was grown in China!

● Garlic is commonly used in cooking as a spice; in fact, it is regularly used on every continent except Antarctica!

KEY QUESTIONS FOR TODAY:

What is
garlic?

Why is garlic
good for human
and plant
health?

How does
garlic
grow?

KEY WORDS

ROOT VEGETABLE

(Noun)

A vegetable that comes from plant parts grown underground. Examples of root vegetables include: beets, carrots, garlic, ginger, onions, turnips, and yams.

PUNGENT

(Adjective)

Having an intense odor or flavor.

ALLICIN

(Noun)

A unique compound produced by chopping or crushing raw garlic. Allicin is known to have medicinal properties.

LET'S READ!

While you read...

1) CIRCLE new words that you see and write them in your notebook - later, you can add definitions for these words.

2) UNDERLINE key ideas in the text.

3) Take notes in the margin!

The Parts of a Garlic Plant

Think about what you read...

1) What are some of the key characteristics of garlic? What did you learn about garlic that interests you?

2) What is the compound found in garlic that is good for health?

3) Do you, or anyone that you live with, cook with garlic? If yes, what are some of the recipes that garlic is used in? How would you describe the taste or smell of garlic?

LET'S REFLECT!

LET'S SHARE!

IN SMALL GROUPS OR AS A CLASS,
PLEASE SHARE YOUR RESPONSES FOR
THE REFLECTION QUESTIONS.

Activity Time!

Either by yourself or with a partner,
create a simple song, rhyme, or poem
that can help remember the steps
needed to plant garlic.
