

Parent Kindergartner Information for Transportation

Welcome to 2022 - 2023!

When a student is registered for school, the safest bus stop is automatically assigned to them. If a student needs a bus stop somewhere other than their residential address, a Transportation Request for an alternate stop is necessary. An alternate stop is any address that is not home, but still must be within your school's boundary (childcare, a second parent home, etc). Students going into kindergarten, 6th grade, or 9th grade will not have any alternate stops as part of their record unless a new request is made. If an alternate request is already part of your student's transportation record, an additional request will need to be made to have it reset or removed.

Transportation Requests for the 2022-2023 school year will be now available on Transportation Services website: <https://www.nclack.k12.or.us/transportation/page/transportation-requests> Transportation Requests are only for General Transportation. Special Needs transportation requests need to go through the school's psychologist.

The deadline for submitting alternate stop requests is August 1, 2022, for the 2022-2023 school year. No changes will be made to routes between August 1 and October so that drivers, staff, students, and parents can get used to bus stop times and locations. Bus stop information can be accessed through both Tyler's Versatrans eLink: <https://versatransweb06.tylertech.com/northclackamas/elinkrp/login.aspx> You will need your student's six-digit student ID number and date of birth once all the routing is posted.

Magnet schools (New Urban, Sojourner, El Puente, Riverside Bilingual): On our requests, a "No Bus Needed" option is available so that we may eliminate unused bus stops on our routes and shorten students' ride times.

Kindergarten parents: We know that the beginning of the school year is filled with excitement and anxiety. Please know that our kindergarten students are provided assigned seating in the front of the bus, nearest to the driver. To make the transition easier and make sure an assigned seat is prepared, please have your kindergarten student ride as soon as possible. This minimizes disruptions and allows our drivers to get to know your student. Parents or a designated adult must be at the door of the bus in the afternoon to receive all of our kindergarten students. A responsible older sibling may meet the kindergarten student in lieu of an adult. If someone is receiving your student and they are not listed on the District's emergency contact list for the student, please make sure to fill out the Kindergarten Release Form found on our website under "Forms". This includes older siblings.

Please go over the behavioral expectations outlined in the Student Handbook over the summer and we look forward to seeing you all in September.

Student Handbook:
