

Lawton Networks, Inc.

10/10/22

MANAGED SERVICE PROVIDOR

PROPOSAL\AGREEMENT

(Monthly BTM Services Addendum to current Agreement)

*Replacement of Current Desktop Antivirus*

California Montessori Project (CMP)

This proposal\Agreement has been prepared with great care to show the best value for services and support as your trusted advisors.

Lawton Networks, Inc. has prepared as requested to change to the current Desktop Antivirus Protection of Webroot to our other available option of Sophos with Intercept X protection to meet the request of the Director of Technology. Sophos Endpoint AV will help protect against virus, Malware, and additionally with help from Sophos Intercept X add-on that is built with the protection from Ransomware causing data encryptions like Crypto Lockers, and other encrypting virus attacks.

LNI has taken into consideration of removing costs of existing version and the increased cost of the new services that will be added. The Servers are already currently installed with Sophos, so no increase for the servers.

Fee-\$1860.00
