

Supply Chain Alert from Lunchtime Solutions

To our valued student customers, parents, and guardians,

We are currently experiencing supply chain issues that include a national shortage of lettuce. This will impact our ability to offer lettuce as an option on our unlimited fruit and veggie bar, as well as our salad entrees.

Weather conditions including hurricanes and droughts, along with quality issues, are contributing to an extremely low supply of lettuce throughout the United States. Virus and diseased fields have also caused issues for growers, and it has drastically shifted availability. This shortage of lettuce supply will impact all food industries.

The shortage is expected to last for several weeks. We will do our best to supply lettuce as an option, but we fully expect supply shortages that will impact our ability to serve lettuce each day. Once supply is no longer limited and quality is good, we will add the lettuce options back to our menus.

Thank you for your patience and support as we continue to navigate supply chain challenges.
