PESTICIDE APPLICATION

Attention Students, Parents and Staff

APM Mosquito Control will be spraying in the Village of North Branch specifically targeting the athletic field areas of North Branch Area Schools. The spraying will take place after dusk on September 16, 2020 weather permitting.

APM uses low ultra-volume truck mounted sprayers. Delivery rate is 1-2 oz. of product per acre. The product that will be used is Bio-Mist 4+4 (EPA #8329-35). Label and SDS Sheets are available in the Village office, School office or at the web site listed below.
