 Instructional Block Class Details		 Activities	
Language Arts	Language Arts standards are taught through a workshop instructional model in both reading and writing. Students have choice and ownership in applying learned skills.	Sports	Soccer, Field Hockey, Volleyball, Baseball, Cross Country, Basketball, Softball, Cheerleading
Math	Our math program is problem-centered and promotes inquiry and exploration of concepts through real world problems. Students collaboratively develop conceptual understanding.	Academic Enrichment	BPA, Math League, Science Olympiad, TSA
Science	Students learn in an experiment-driven environment that supports exploration and investigation. Seventh grade curriculum explores genetics, adaptation, and matter.	The Arts	Beginner and Advanced Band, Choir, Drama
STEM	Our STEM program supports the connections between all content disciplines. Students actively participate in the engineering design process to solve problems and develop products.	Student Leadership & Outreach	Student Government, National Junior Honor Society, Student Ambassadors & Mentors
Social Studies	Students think like historians and analyze historical documents to develop arguments and understanding, learning the importance of being informed citizens.	School Fairs & Competitions	Science and Entrepreneur Fairs, Geography Bee
Related Arts	Technology Art Spanish Gym Drama Wellness Band / Choir Business Education	Field Trips	Museums, Theatres, Science based, Washington D.C., Summer trips to Europe

At MOT, our primary goal is helping each and every child learn and grow through differentiated learning. MOT sets high expectations for all students and we work tirelessly to provide support and instruction that promotes academic growth. Students often work in small groups based on identified goals and instructional needs. Teachers regularly analyze student assessments and data to determine the best instructional methods that instill both a growth mindset and confidence in students.

MOT Charter School culture focuses on the whole child and developing values that extend beyond academics. We help students grow socially and emotionally by cultivating a school environment that emphasizes respect and responsibility. We model the behavior we desire to see in our students and ensure that good character and citizenship are part of daily life at MOT.

We develop trusting relationships with our students and families by engaging in open dialogue and working with families in the best interest of the child.

PTO

The Parent Teacher Organization hosts a variety of student and family events.

Instructional Block Class Details

Language Arts	Our language arts curriculum builds a strong literacy foundation with exposure to complex text, both digitally and in print. Students are actively engaged in collaborative conversations.						
Math	Students begin to “think like mathematicians,” developing number sense, strategies to solve problems, and an understanding of relationships and patterns.						
Science	Students learn in an environment that supports questioning, exploration and investigation. In kindergarten, our curriculum explores weather, trees and energy.						
Social Studies	Students learn the importance of being part of a community with specific jobs, expectations, and rules. Kindergarteners explore the similarities and differences between life now and life in the past.						
Related Arts	<table border="0"> <tr> <td>Spanish</td> <td>Art</td> </tr> <tr> <td>Music</td> <td>Gym</td> </tr> <tr> <td>Technology</td> <td>Wellness</td> </tr> </table>	Spanish	Art	Music	Gym	Technology	Wellness
Spanish	Art						
Music	Gym						
Technology	Wellness						

Activities

Reading Buddies	Fostering early mentorship by pairing students with 4th - 6th graders
Social Centers	Social and emotional learning opportunities through unstructured play and Passion Projects
After School Clubs	Soccer Shots, Girls on the Run, and more as interest allows
Field Trips	Museums, Theatres, Orchards, Aquatic Education, Zoo, Washington D.C.
PTO	The PTO invites you to get involved! Volunteers help us offer fun family events like dances, fun runs, and more!

Assessments

MOT Charter Students consistently meet or exceed State Standards in Math and Reading as measured by the NWEA National Assessment.

Differentiated Learning: At MOT, our primary goal is helping each and every child learn and grow. We work tirelessly to provide support and instruction that promotes academic growth. MOT sets high expectations for our students. Teachers are consistently analyzing student assessments and data to determine the best instructional and curricular decisions. Students are often found working in small groups based on identified goals and instructional needs.

MOT Charter School culture focuses on the whole child and developing values that extend beyond academics. We help students grow socially and emotionally by cultivating a school environment that emphasizes respect and responsibility. We model the behavior we desire to see in our students and ensure that good character and citizenship are part of daily life at MOT. We hold our students to high standards and strive to instill both a growth mindset and confidence. We develop trusting relationships with our students and families by engaging in open dialogue and working with families in the best interest of the child.
