

ATHLETICS

2017 Facility Study

Condition of Current Facilities

- Stadium:

- Stadium built in the mid-70's
- No showers in visiting locker room
- Loss of electrical power during games
- Can't accommodate fans with seating on visitor's side
- Out of ADA compliance
- No hand rails for steps in stands on either side of stadium
- Concession stands not conducive to handle our large crowds
- Limited parking
- Teams complain about having to play at our facility
- Press Box is over-crowded
- No locker room for officials
- Missing marketing opportunities on scoreboard
- Not attracting playoff games

Looking Forward

- Can have a centrally located stadium which both teams consider their home field
- Covered Batting cages at both high schools
- Running hills and sand pit at both high schools
- Turf Baseball and Softball fields at both high schools
- Turf between baseball/softball fields
- Turf junior high football fields
- Annex THS field house to contain lockers for male/female Soccer, Baseball, Softball, Cross Country meeting rooms, storage, and coaches offices.
- Build a Natatorium on the south side of the district
- Build an Indoor Performance Facility at both campuses
