The National Safety Council has placed Glenville School on the National School Safety Honor Roll for eight consecutive years of exceptional effort in safety.

This year our efforts will be evaluated by a special committee during the Safety Congress to be held in Chicago the second week of October. Should the committee find our school worthy of the award, it will mark the (9th) ninth consecutive year we will have received the award.

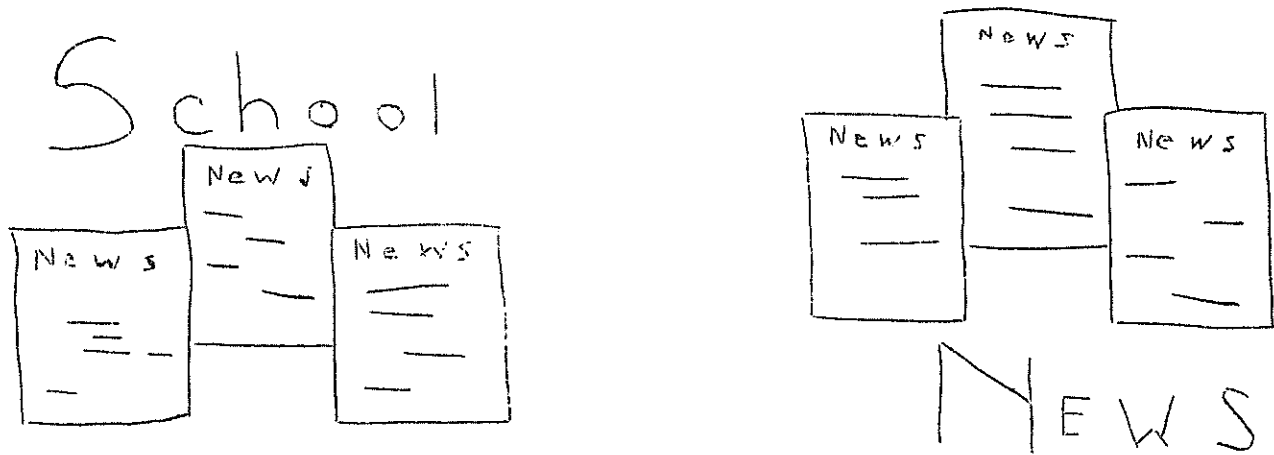

The members of this year's graduating class should be especially proud of our achievement safety-wise, since our first efforts were recognized when they were kindergarten pupils. Their ninth year in Glenville School marks the ninth bid for the award. The pupils of this class should feel especially proud of what has been a continued safety effort on their part during their entire school experience in Glenville School.

I, personally, am very much pleased with the efforts of this fine group of boys and girls. However, the lessons learned must not be forgotten and left behind as part of your elementary school training. If you cannot make safe living a continuous process, then our work has been in vain. I am too much of an optimist to feel that you will forget.

Therefore, I would like to pass on to you these thoughts:

- 1) Plan to use your knowledge in safety for the welfare of yourself and others.
- 2) Help others to observe safety rules.
- 3) Safety through skilful living adds to the joys and adventures of life.
- 4) Safety is the science of skilful living.
- 5) Living safety, means living longer.

Ralph A. Ferdinand,
Principal

FATHER-DAUGHTER DINNER

This year instead of the regular Mother-Daughter Dinner, we had a Father-Daughter Dinner. The dinner was held on February 15. It started at 6:00 P.M. From 6:00 to 6:30 was get-acquainted time. At 6:30 there was dinner, which consisted of meat balls and spaghetti, salad, coffee for the fathers and milk for the daughters.

Mr. and Mrs. Martan Learned were in charge of the dinner.

After the dinner there was a demonstration of the telephone and how it works.

Everyone enjoyed the evening and is looking forward to it again next year.

OUR LINCOLN-WASHINGTON PROGRAM

On February 19th we had an assembly in honor of Abraham Lincoln and George Washington. The program opened with the Flag Salute, singing of the "Star Spangled Banner", and a few remarks by our Principal, Mr. Ralph Ferdinand, on these two great men.

John Muskus, Lynn Duxton, Karen Clark and Patricia Frost told stories about Lincoln and Washington. Doreen James recited the poem, "The Cherry Tree". They are all from Mrs. Vera Scofield's second grade.

Mrs. Hazel Knapp's third grade put on a skit - "Story of Abraham Lincoln".

Then the entire assembly sang "America The Beautiful".

Mrs. Hazel Jacot's third and fourth grades put on a short play - "February's Famous Days".

Mr. Matthew Coyle's eighth grade put on a play - "Thanks To George Washington".

The program ended with the eighth grade singing "Battle Hymn Of The Republic".

SAFETY PROGRAM

On March 15th Glenville School took great pleasure in presenting a safety program. The entire assembly opened the program with the Flag Salute and then the singing of the "Star Spangled Banner".

(Continued on next page)

SCHOOL NEWS - (Continued)

Mr. Ferdinand then said a few words about safety.

Miss Saunders' kindergarten gave a skit - "Safety School", that was very cute and also very good for such small children.

Miss Kemmerer's first grade put on a skit also, called "Safety Court Room". It told about some of the things that we are careless with.

Miss Mucci's first grade recited some poems and sang a song.

Mrs. Scofield's second grade put on an original safety play. They told of things we should not do while at school.

Miss Teresa Jouret's second grade put on a skit "Red Light - Green Light".

Mrs. Knapp's third grade gave a play, "Happy Hearts". It was very good.

Mrs. Jacot's third and fourth grades had a playlet entitled "I Say Safety".

Mr. Jolie's fourth grade put on a play - "Everyone In Safetyland". It was very nice.

Miss May Jouret's fifth grade had a skit entitled "Safety First".

Miss Finneran's sixth grade did not have time to put their play, "Let's Play Safe", on, so they did it the next day.

Mrs. Kowalski's sixth and seventh grades had poems to go with pictures. They were entitled "Safety Rhymes".

The program ended with the entire assembly singing "America The Beautiful".

We all learned something more about safety.

PUPPET SHOW

On March 23rd the Pomer-Martin Puppets presented the story "Kidnapped" by Robert Louis Stevenson.

Dave Balfour is the hero of the play, and the action takes place in Scotland. Dave sets off on his journey to his father's inheritance, but his uncle would not give it to him. He wanted it for himself, so he tried to kill Dave.

Later on, Dave was kidnapped by Captain Haseason and with his friend, Allan Breck they escaped, and were running away from the "Red Coats".

When they were free, Dave got a lawyer and finally got his inheritance.

We all enjoyed the show and hope we can have another.

MOTHER-SON DINNER

April 5th was the Mother-Son Dinner, which was served at 6:00 P.M. The menu consisted of baked ham, baked beans, cole slaw, potato chips, rolls and butter, ice cream, coffee for the mothers and milk for the sons.

The entertainment consisted of a dancing act from Bonnie Bolte's Studio, and Mr. Charles Mohr of the Audubon Center showed slides and talked about "Signs of Spring".

Mr. Jack Kalbfleisch of the Greenwich YMCA and Mr. Anthony Schinto of the Greenwich Boys Club discussed summer programs in our community.

(Continued on next page)

SCHOOL NEWS - (Continued)

There was a piano solo by Roger Edixon, and an accordion solo by Joseph Kontos.

As a special surprise our School Band played several selections with Alex Kahloney conducting. The Band is under the direction of Mr. Ray Harrington.

Mrs. Harold Douglass was the Chairman of the dinner.

Everyone enjoyed the dinner and is looking forward to it next year.

"THE TOREADORS"

On Thursday, May 6th, the sixth, seventh and eighth graders took great pleasure in presenting "The Toreadors" - an operetta directed by Mrs. Hazel Jacot and Mrs. Harriet Usher.

The cast was as follows: Juanita, Betty Wallace; Benita, Carol Marsh; Pablo, George Augustine; Juan, Alex Kahloney; Senor Dictorio, Lenny Falloon; Maria, Diana Dietrich; two beggars - Andy Douglass and Richard Busch; Dolores, Barbara Hank.

The story was about two toreadors, Senor Swateo and Senor Whackeo. Senor Dictorio wanted to marry his daughters to them. Juan and Pablo were in love with his daughters, but Senor Dictorio wanted toreadors as sons-in-law. So Juan and Pablo played a trick on Senor Dictorio by dressing two beggars as toreadors.

At the end Senor Dictorio finds out that Senors Whackeo and Swateo are married, and that the fake toreadors are beggars.

Senor Dictorio forgives Juan and Pablo by presenting Pablo to Juanita, and Juan to Benita, as birthday presents.

ARBOR DAY PROGRAM

On May 7th, we had our annual Arbor Day program. It consisted of the Flag Salute by the entire assembly, and then we all sang the "Star Spangled Banner".

The proclamation was recited by Alfred Cooper of Grade 6.

"The Origin of Arbor Day" was presented by Grade 6 - Judith Onuska, Donna Swenning, Joseph Knotos and Kenneth Manka.

A poem, "The Tree Stands Straight", by Donna MacKay, Steve Bouza, Barbara Uscted and Cynthia Fox of Miss Teresa Joret's Grade 2 was next.

This was followed by a song, "Joy in Spring" by Grade 3.

Grades 3 and 4 gave a play entitled "A Day for Trees".

Grade 6 presented "A Tree Grows in Greenwich" with Carol Muessel, Florence Sobek, Donna Swenning, Leroy Barnes, Edward Fox, Robert Busch, Willard Gulliver and Douglas Faught participating.

Then we all sang "America The Beautiful".

After that we all went outside and helped with the planting of the linden tree. After the tree was planted, we all sang "America" and returned to our classrooms.

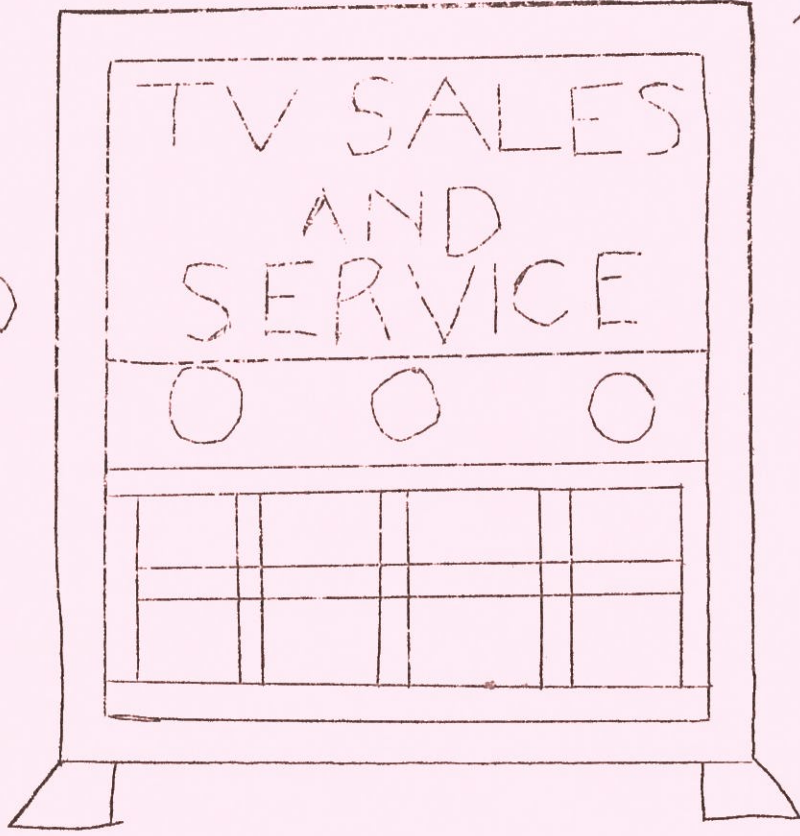

THANKS - P.T.A.

Kindergarten through Eighth Grade says "Thank You P.T.A." for the money you contributed towards our field trips.

We want you to know that we appreciate your kindness.

MRS. HAZEL KNAPP'S GRADE 3

MY EASTER VACATION

On my vacation we went to Rich-
mond, Virginia.

When we were down in Virginia,
it was hard to find a hotel. We
went all over the city. We got
in a hotel. It was the John
Marshall Hotel. We could only
stay one night.

The next day we looked all over
for a hotel, but we could not
find one. So we went back home.

It took us just one day to get
home, and I was glad to get home.

By Lita Manero

Tuesday, May 11th, our class
is going on a trip to the Stam-
ford Museum. We will hear about
the stars to look for in the
spring skies, and will see the
animals in the zoo at the
Museum.

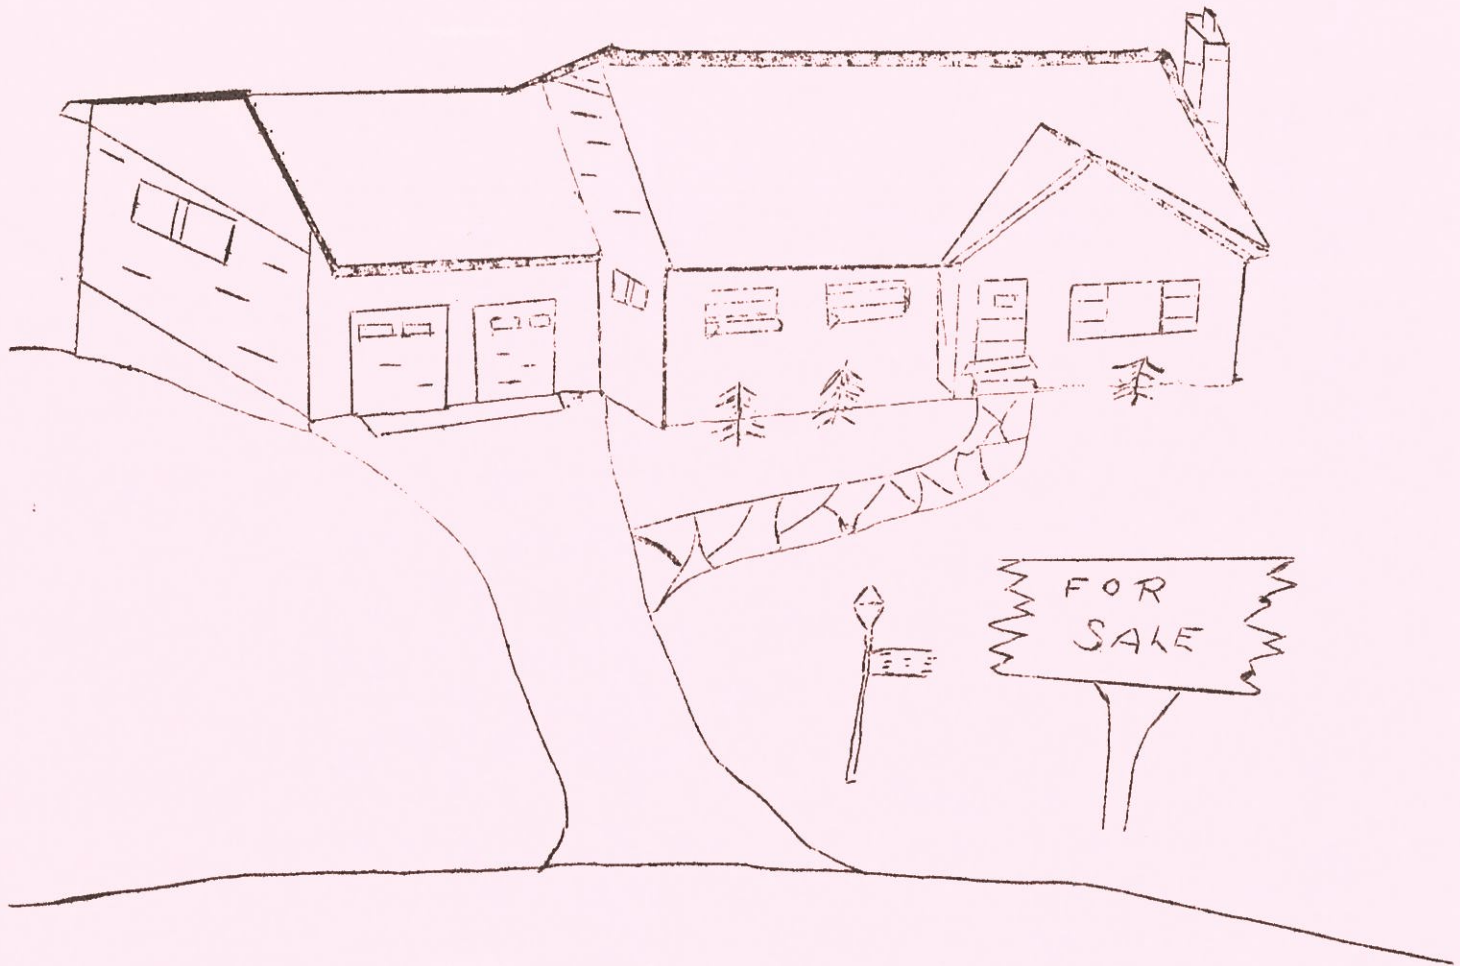

Ten of the boys and girls in
Grade 3 went up to Mrs. Jacot's
room after the Christmas vacation.
Mrs. Jacot now has a 3rd and 4th
grade, and the rest of grade 3
stayed in Mrs. Knapp's room.

We had two new pupils enter the
3rd grade in January - Jane
Skorvanek from New Lebanon School
in Byram, and Nick Edwards from
Edison School in Port Chester.

It makes us very happy to have
them here, and we hope they like
us, too.

Some of the boys and girls
brought in different kinds of
seeds, and George Frost and Billy
Elwood brought a flat full of
soil. So now we have two flats
of different seeds growing be-
sides our peanut plant.

We enjoy watching how fast the
different leaves and plants are
growing. We have nasturtium,
lima beans, calendulas, sweet
peas, rhubarb Swiss chard, alyssum
and even two pumpkin plants start-
ed.

CLASS NEWS - (Continued)

MRS. HAZEL JACOT'S GRADES 3 & 4

We are in a new class with Mrs. Hazel Jacot. Ten of us were with Mrs. Hazel Knapp, and ten in the fourth grade with Mrs. Jacot.

Until January, both third and fourth grades had too many children to give us a good chance to work well. Mr. Ferdinand worked hard until he was able to get another teacher. Mr. Roland Jolie took the fourth grade, and Mrs. Jacot has the new class. It is much better. We are happy and can do much better work.

Our class has given two plays since we have been reorganized:- One Safety Play and our Arbor Day Play. We have discovered some outstanding actors and actresses. We have to take our hats off to Ronald Fuller, Duncan Hodge and Tony Marchand. Watch for surprises from these young actors in the future. We have many plans for the future in dramatics.

What activities have been taking place in grades 3 & 4 - 4 and 5? We have been busy as beavers selling seeds, raising plants for our plant sale. We raised money for our annual trip to the Museum of Natural History in New York. We go May 19th. The P.T.A.'s donation also helps to defray our bus fare. THANK YOU for the donation.

Every Thursday Mr. Jolie invites us into his "Story Hour". We enjoy this so much. It is fun having things together. We shall miss him next year. He is always handy and willing to help us with our thermos bottles. Mrs. Jacot hasn't got the knack he has when it comes to that.

We have other work too, and are growing every day. Our report cards show that.

The third graders joined the Audubon Club. Mr. Jolie and Mrs. Jacot's classes are Junior Audubon members.

We meet together every Tuesday and listen to the Stamford Radio Station broadcast a nature program from the Stamford Museum. We see nature films and talk about nature. We are planning nature hikes to study our countryside as to what grows there, etc.

The garden clubs of Greenwich are very interested in Junior Audubon Clubs and are helping to organize clubs in all the schools of Greenwich.

Because our Audubon Club has been organized for many years, Mrs. G. H. Milliken, Jr., presented our class with a beautiful spruce tree. We planted it near our class window on the side hill so we can always see it, and use it for a feeding station for the birds.

We planted it on Arbor Day. Mr. Ferdinand, our Principal, helped us plant it. He explained and showed us how a tree should be planted, and told us how we should care for it from now on.

What fun we have with our new tropical aquarium. We have many baby guppies. The other fish do not seem to breed so fast.

One Saturday each month, the Audubon Center holds meetings for its Junior members. Representatives are sent from each club. The following pupils have represented our Club: Beverly Burroughs, Michael Sherry, Tony Marchand, Ronald Fuller, Eileen Busch. They brought back very interesting reports, and had a very delightful time.

MR. ROLAND JOLIE'S GRADE 4

We have an aquarium and a terrarium in our class. In our terrarium we have a jack-in-the-pulpit, and a toad. In our aquarium we have a tadpole.

William Reynolds and Patricia DeLeo painted a map of Africa that Mr. Jolie made with rock salt, flour and water.

OUR SNAKE

Keith Schubert brought in a garter snake one day. We measured it and it was 18 inches long.

We went to music that day, and when we came back to the classroom, he was crawling out of the

(Continued in next column)

We had a plant sale to raise money for a trip to the Museum of Natural History. We made flower pots for it.

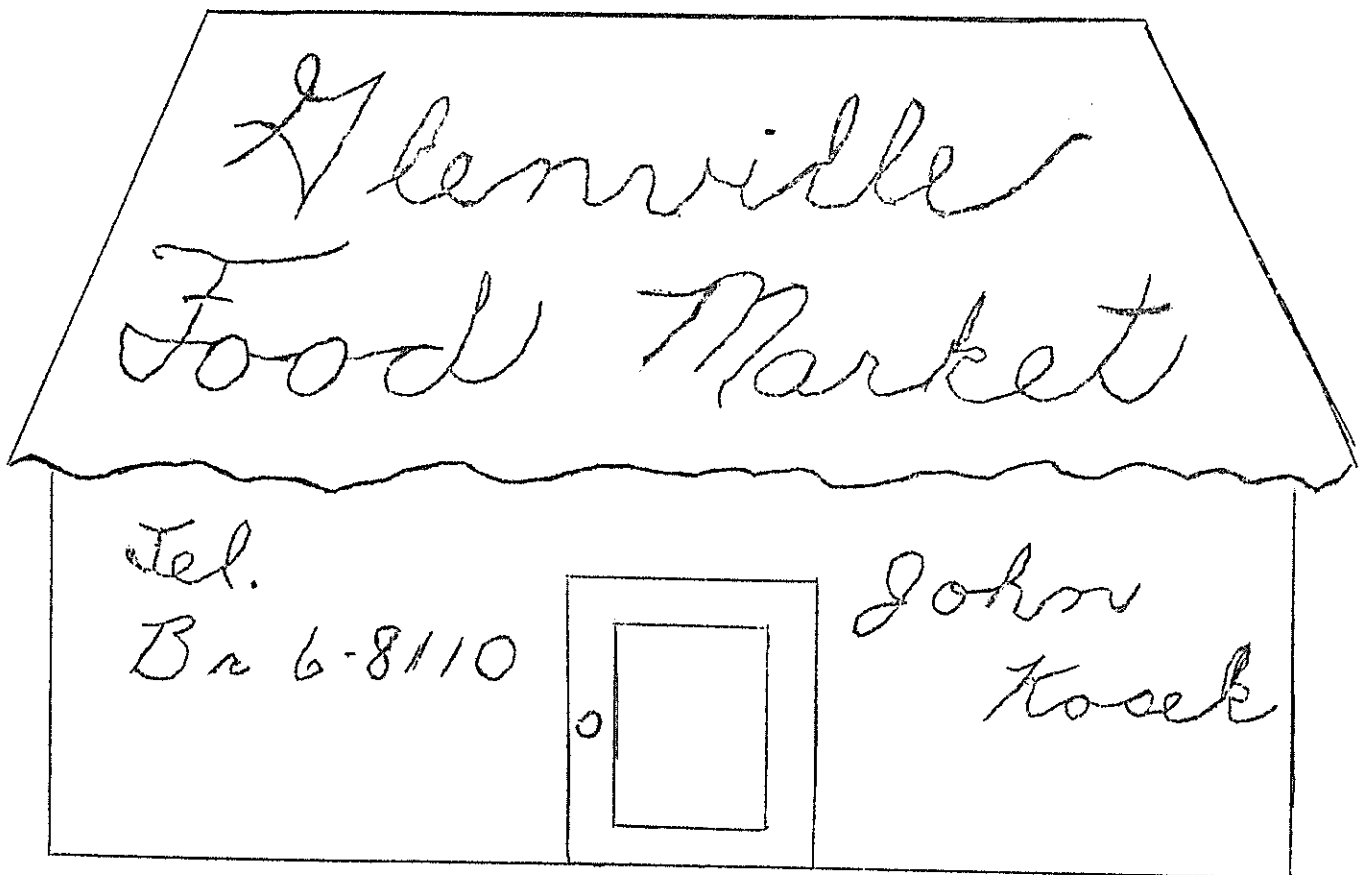

We have a health chart in our classroom, that we use every morning. We have a boy inspector and a girl recorder. The inspector sees if the person is clean, and the recorder writes it down.

OUR SNAKE - (Continued)

door. We put him back in the terrarium.

After school, Keith took it home and let it go.

By Richard King

CLASS NEWS-(Continued)

MISS MAY JOURET'S GRADE 5

OUR SCIENCE PROJECT

Our science project for this year was the planting of seeds, both vegetable and flower.

We set up a large table in our room. We brought in flats and boxes. We brought soil from home to fill our flats and boxes.

After the flats and boxes were prepared, we planted the seeds. We have tomatoes, peppers, corn flowers, lettuce, petunias, asters, Shasta daisies, parsley, Cosmos, Portulaca and Marigolds.

When they are large enough, we will transplant them and then take them hom to plant outside.

We hope to enter some of the flowers and vegetables, which we planted, in the flower and vegetable show at the P.T.A. Fair in the Fall.

Jimmy Falloon was Chairman of our project and did a very good job.

We held a plant sale in the Auditorium on April 14th. We will use the money to help finance our trip to the Museum of National History.

We brought in slips and rooted them in water, and then planted them in cans which the boys painted.

Many children gave them to their Mothers for Easter.

MEXICAN MARKET PLACE

Our grade has been studying about Mexico in our Social Studies class. In connection with this, we drew and painted pictures and made a Mexican market place.

The figures were made of pipe cleaners, cloth, crepe paper and wool. The baskets and booths were made of cardboard and paper.

Jay Purcell painted a mural of a Mexican town which we used as a background.

CLASS NEWS -(Continued)

WE VISITED THE SS UNITED STATES

Our second class trip took place on March 22nd. Thirty-three pupils accompanied by our teacher, Miss Finneran, and our principal, Mr. Ferdinand, boarded a bus about nine o'clock. We went to New York City via the Albany Post Road, which took us past Fordham University and Yankee Stadium. We continued on to West 39th Street to the CBS Studios, where we saw the television show, STRIKE IT RICH. We saw Ralph Paul and Warren Hull in person. We enjoyed this very much.

Our bus was waiting and it took us to Pier 84 on 46th Street, where we had tickets to tour the Ocean Liner, SS UNITED STATES. This is the world's fastest and most modern liner.

Many of us had never been on a big boat before. We were impressed by the comfort, roominess and
(Continued in next column)

SS UNITED STATES -(Continued)

extraordinary beauty afforded the passengers, who are fortunate enough to get passage on this ship.

When we again boarded our bus for the return trip, we felt that we had a most enjoyable day and that we had learned so many facts about ships.

By Gail Kyle

Each member of the class made a picture for the cover of the program for the operetta, "The Toreadors".

Mary Agnes Skorvanek's design was selected. She cut the stencil with the help of Barbara Sobek.

Members of our class put the programs together.

By Leona Annicelli

CLASS NEWS - (Continued)

MRS. STELLA KOWALSKI'S GRADES 6 & 7

OUR TRIP TO ARNOLD'S BAKERY

On March 11th grade seven went to Arnold's Bakery. The first thing we saw was the bread dough being put into a machine that makes the dough into a round ball. Then it is put into an overhead machine that allows it to rise a little bit. After that the dough is put into bread pans and put into a steam box to rise. There the dough rises and when it has risen enough, it is put into a traveling oven, and it stays in there for 39 minutes.

When it comes out it is put into large cooling rooms and put under ultra-violet lights to kill any bacteria that might be on it.

Next the bread goes through a slicing machine, and from there it gets wrapped and sealed. Then it gets shipped away.

Our guide told us that the bread gets shipped as far west as Chicago and as far south as Florida.

From the bread department we went to the stuffing department. There the stale bread that is brought back from the stores is cut up into small cubes and mixed with certain spices. It is then baked and put into a machine that fills cellophane bags with stuffing, and men put it into a machine that seals the bags.

From there we went to the roll department and saw how rolls were made. One kind is made on a revolving table. People have strips of dough and the dough gets tied into knots. After that they are sprayed with an egg and water mixture to give them a shiny appearance when they are baked.

We also saw several operations that we read about in geography, such as assembly lines, mass production and traveling ovens.

Everyone thought that the trip was interesting and enjoyed it.

By Paul Krueger

OUR TRIP TO THE U.N.

Our class went on a trip to the U.N. May 10th. When we got there our guide took us to a room where a model of the U.N. Building stood. After we discussed that, she took us to see a gift from Japan. The bell was uncovered because it had not been dedicated.

After, we went to the Security Council. Its job is to see that disputes between nations are settled peacefully. Then we went to the Trusteeship Council. Its job is to look after the welfare of people in trust territories.

After that we went to the Economic and Social Council. Its job is to provide aid for war-stricken countries. We also went to the Secretariat Building. And then the last one we went to was the General Assembly. The General Assembly's job is to discuss any subject in the Charter.

To reach the General Assembly, we used an escalator. Each room's furnishings were given by different countries.

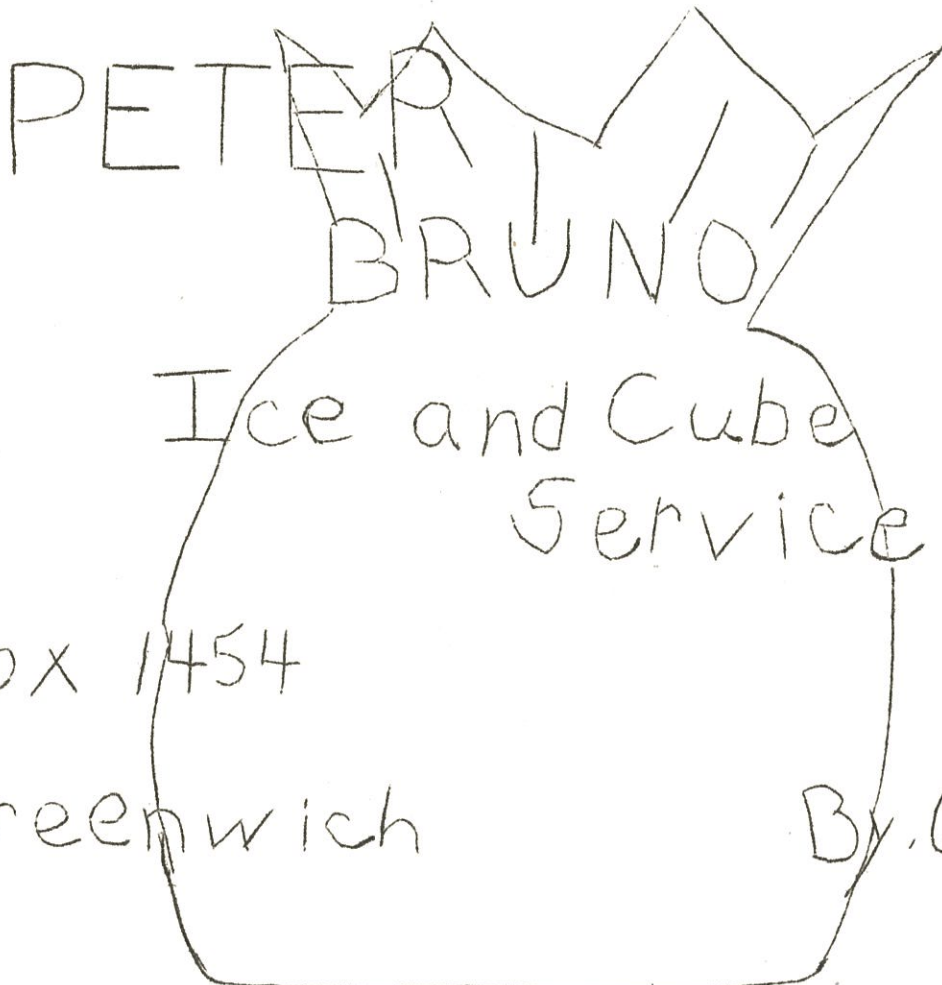

After our guide told us about each Council, and we asked her questions.

Just before we left the U.N. Building, the guide showed us a large painting. It expresses the struggle for peace.

We also saw an exhibit of children who had diseases, and what the UNICEF does for them.

Our U.N. does a great deal to help other countries. It was interesting to know about it, and we had a very good time.

By Eileen Muskus

CLASS NEWS - (Continued)

OUR RADIO SCIENCE PROGRAM

Mrs. Kowalski's class has been listening every Tuesday afternoon from 1:30 to 1:45 to a radio science program on the radio in our room. These programs are very interesting and educational.

The program is broadcast from the Stamford Museum in Stamford, Connecticut.

Every week the program is on a different subject. There are two young ladies who bring us this science. They are Elli and Joy.

The program on May 4th was about birds. They told of the oriole's nest and the way it hangs.

One week they told about geology. Geology is the study of the earth's surface.

Elli and Joy tell of many interesting subjects and our class enjoys them very much.

By Jeffrey Rasi

P.T.A. BANNER

We, in Mrs. Kowalski's class, are very proud because we have kept the P.T.A. Banner all year, except for one month.

I think, though, that we should not take all the credit, for it was really our parents who won the Banner for us because they attended every meeting faithfully.

A new P.T.A. Banner is ready to go to the next class with the most parents attending the P.T.A. meeting, and we're all hoping it will be our class who will again have the P.T.A. Banner to display.

By Betty Ralson

SEVENTH GRADE SALES

We had three sales during the year, a white elephant and two cake sales, which netted us \$22.02. The money helped us with a trip to the U.N. in New York.

By Paul Krueger

OUR CLASS MEETINGS

The seventh grade has class meetings twice a month. The purpose of having class meetings is to discuss things that we want to do. For example, we wanted to take a class trip, and we also wanted to go to the beach, so we had a class meeting and found out we needed more money to do these things.

We also have class meetings to appoint committees for sales and for bulletin board displays.

The class meetings are very helpful in helping us to do things by planning ahead and deciding what to do.

By Diane Caldwell

The sixth and seventh grade has made three bulletin board displays.

The first was on "Safety at School", showing do's and don'ts of safety.

Our second bulletin board was on "The Father of Our Country". We had pictures of Washington's home in Mount Vernon and a statue of Washington, a picture of his grave and the Washington Monument at Valley Forge.

Easter was our third display. We had a rabbit pushing a cart full of Easter eggs. Spring flowers were spread around.

We enjoyed planning and making these bulletin board displays.

By Caroleah Kotch

FUTURE TRIPS

We are planning to take a trip to the Greenwich Time plant to see how a newspaper is printed.

(Continued in next column)

FUTURE TRIPS-(Continued)

We know it will be far different and on a much larger scale than our printing of the school newspaper.

We also would like to take a trip through the American Felt Company's mill.

MR. MATTHEW COYLE'S GRADE 8

The eighth grade designed, in honor of Memorial Day, a bulletin board consisting of the tomb of the Unknown Soldier, and the words "Known but to God", which are inscribed on the tomb.

The bulletin board for Spring was done by the eighth grade. A lion was used to represent the coming of March, and a lamb was used to show the end of March. The saying, "In like a lion, and out like a lamb was used as the theme.

SAFETY

Kite flying is enjoyment,
All through the bright cool day.
But make sure when you fly it,
The wires are out of its way.

By Jeff Rasi - Grade 6

Running down the stairs could be a harmful thing,
You could fall and have an arm in a sling.
See what you did-you broke an arm
You ran downstairs like a fire alarm.
By Pat Campbell-Gr.7
(Continued in next column)

SAFETY

Have a light when you ride at night.
Blow your horn when people are in sight.
Check your brakes - make sure they stop.
Be sure the condition of your bike is tip-top.
By Joyce Bruno - Grade 6
We also would like to take a trip through the American Felt Company's mill.

KITES

Kites go high up in the sky,
Sometimes they go down.
We like it when they fly up high,
They look pretty in the sky.

Original Poem by Grade 1

THE SQUIRREL

I'm a little squirrel sitting on
the tree,
I know my numbers: one, two,
three.
I like to teach my babies small,
They really think they know it
all.
And sometimes, when I'm teaching,
They just fall.

Heather Mason - Grade 2

A SPRING POEM

Spring is very, very happy, as
you say.
Tulips are out, pretty and gay.
Take all your sadness and
troubles away.
Be happy, not sad,
It is so wonderful today.

Cynthia Fox - Grade 2

THE BIRDIE

I'm a little birdie - tweet,
tweet, tweet,
Nice juicy worms I have to eat.
I like to teach my babies how to
fly,
So then can fly up in the sky.

Heather Mason - Grade 2

JUMPING ROPE

When I jump, I jump so high,
I almost touch the big, blue sky.
When I come down,
I land on the ground.
And I go up and down again.

Heather Mason - Grade 2

SIGNS OF SPRING

The birds sing.
Leaves are on the trees.
The birds make their nests.
They look for string and ribbon.
Flowers come out.
The sun gets warm.
The grass grows up and up.
The birds come back from the
south.
The woodpecker pecks on the trees.

SPRING POEM

We are not happy,
When skies are gray.
But spring is wonderful -
And brings a nice day.

Elizabeth Anderson - Grade 2

THE CIRCUS

One day Dick was walking down the street. He saw a circus come up the street. Then he went home and told his mother, and then they both went to the circus.

Laura Zawatski - Grade 2

SAFETY

If you have a kite,
You'd better fly it right.
If the wind makes it go higher,
Keep it away from the telephone wire.
Caroleah Kotch-Grade 7

WE WENT FISHING

Sunday I went fishing with my cousin. I caught a lot of fish, but they got away. My cousin caught two fish, but one was too little, so he threw it away. The other one he kept. He gave it to my uncle.

James Sinnott - Grade 2

APPLES

One day Dick was walking down the street. He saw a horse and wagon and a man. He was saying something. He man was selling apples. He said, "Apples for sale - Apples for sale".

Elizabeth Anderson - Grade 2

SAFETY

While standing in line,
With a nickle, penny or dime,
Just keep in mind to stay in line,
And everything will be just fine.
Linda Purcell - Grade 7

ANIMALS AND WILD FLOWERS

One day Jeffrey and David went out in the woods in back of Jeffrey's house. They took their lunch because they wanted to eat in the woods.

As they walked along they saw a purple trillium or wake robin. It is a wild flower. It gets its name from the fact that it has its parts arranged in threes -- three leaves, three petals, three sepals and three parted stigma. This flower has an odor like spoiled meat.

Under a tree they saw a jack-in-the-pulpit. The "jack" is the club-shaped extension of the stem upon which the petal-less flower grows. David said, "In some states the jack-in-the-pulpit is quite rare and is protected by law.

They walked on and they came to a small lake. They looked at the lack. At the far side of the lake they could see some mallard ducks. The male duck had a bright green head and a green and white tail. The male's feathers are very, very colorful. The female is brownish color all over except for one part of her wing. That wing is either purple or blue. The male and female have it.

The ducks lay eight to twelve eggs.

The boys saw a stump of a tree. "We will sit here and eat our lunch", they said. They sat very still and ate their lunch and wated and listened. At a distance they could see a weasel. The weasel is a very timid animal and is scared of any person. When the weasel saw the boys, it ran out of sight.

After their lunch was finished, they continued their hike. They saw quartz, mica, robins, a blue-jay, a tree sparrow, a song sparrow and a chipping sparrow.

After two hours more hiking, they were tired. They had seen wild flowers of all kinds, many birds, insects and many other things of nature. So they decided to go home.

At 4:30 they reached home and believe me, they had a lot to tell their fathers and mothers.

By Beverly Burroughs - Grade 3

NOODLE

One day I was working with my father, when our little Dachshund, Noodle, had caught a rat. He was playing with it and having a lot of fun. The next day, he caught a bigger rat. It was dead, so he dug a little hole and buried it.

A week had passed, and on Saturday he caught a frog, and it was alive. He put his paw on the frog's back so the frog could not get away. I called Noodle so the frog could get away. My father wanted the frog to go into the garden.

That night Noodle went fast to sleep, and so did I.

By Arthur Slothower - Grade 5

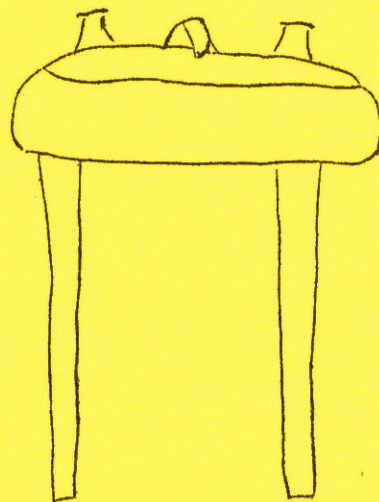

THE BLACK-and-WHITE ANIMAL

One day my dog and I went for a walk in the woods. We saw something black-and-white run into the bushes. When my dog returned, he was barking, and he smelled awful. Then I knew what the black-and-white animal was -- it was a skunk!

THE EASTER BUNNY

Once there was a bunny. He wasn't good at all. One day his mother said, "Why are you naughty?" "You ought to be good, because if you are bad, you can't be a good Easter Bunny". "Oh", said Bunny, "I am going to be an Easter Bunny" and he was good so they picked him the head bunny.

"You are nice, Mother, and you were right - I'm head Easter Bunny now."

By Virginia Onuska - Grade 3

A-FISHING WE WILL GO

Last week I started to go fishing. All week long I only caught nine fish, one was a large mouth bass and six blue-gills, and one sunny and a sucker, and I almost fell in when I was looking at an airplane.

I put the fish I caught in my pond. Then in five or ten years there will be lots of fish in there, and I can go fishing in my own pond, and I can go trapping. Then when I am finished, I will make a new pond. I will put fish into it too. I will make as many ponds as I can, but before I start to dig a hole, I must get big and small rocks, and I will need sand to fill up the cracks, if they don't fit.

But, if you want to go fishing and you want a rod, just take a stick and string and get a hook.

THE BOAT THAT CROSSED THE SEA

A big boat was crossing the rough old sea,
When suddenly an ugly storm came up.
It rained and rained, the waters beat
the shores hard.

They said to Joe, "We'd better leave this boat".
"No! No!", said Joe, "It's not safe to go!"

But two men left in a small, wee boat.
They towed and rowed, and soon were tired.
They looked down, nothing there but
lashing waves - all hope was gone.

On went the big boat across the mad lashing waves,
At last they reached the mainland shores,
And happy were they, you see.

This is the story as the crow told it to me.

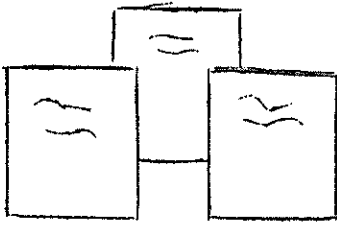

By Tony Marchand - Grade 4

A CUTE LITTLE KITTEN

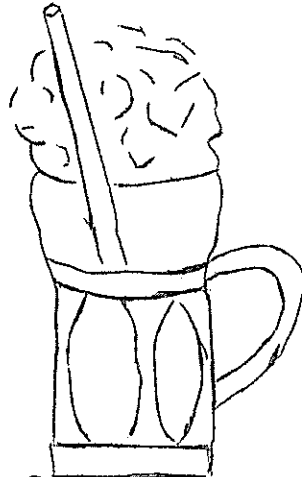

I am going to get a little kitten, Friday night. My sister and I are trying to find a name for it. We are going to teach it how to drink milk out of a saucer. We are going to have lots of fun with our new kitten.

HOW SPRING STARTS AND ENDS WITH A ROBIN

Robin Redbreast is ten inches long and everybody knows him. He's a member of the thrush family. When he comes back from the south, right away the male robin looks for a place to build a nest. Sometimes the male will fight another robin to get that place. If he wins, mother robin finds straw and string and other materials. She finds fibers from plants and puts them around the nest to keep it together. The male robin gathers mud to line the nest with, then the female will turn around and around until she makes it the shape she wants it. She stops her work and goes to get something to eat.

After she finishes, she flies back to the nest and begins to lay four or five skyblue eggs. It takes at least five to six weeks until four or five cute little birdies hatch out. They start pecking at the egg shell, and one by one four hungry little birdies, that are wet, start to cry. They seem to say, "Mommy! Mommy! Food! Food!"

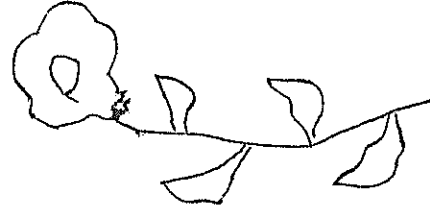

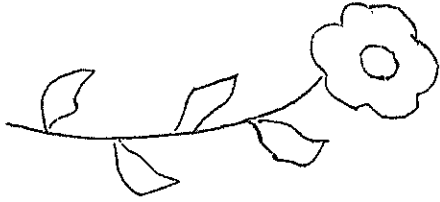

The mother robin sits on them for a while so they keep warm and get dry. Then she hops off them and flies away to get food for them day after day, week after week.

They have a spotted breast, so you can recognize them easily. Baby robins grow fast, so soon they have to neglect the nest. Junior robin is going to try to fly. "Wow, it's shaky here," said Junior. Whoops! down goes Junior, but he's not hurt. He starts to cry for his parents, "Mommy! Daddy!" They come right away. In a few days he can fly.

Cut flowers Greenwich Conn.

HOW SPRING STARTS AND ENDS WITH A ROBIN - (Continued)

They've already lost their spots and Junior's brothers and sisters are waiting for him. Soon they will be on their own, and find their own food too. Mother and father leave and are going to start a new family.

Fall is coming and flocks of robins are going south. So now we have to say goodbye to the robins till next spring.

By Carol Slothower - Grade 4

THE DUCK FROM OUTER SPACE

One morning I went out to find my friend. He was helping his father fill in a big mud puddle in front of his driveway. It had rained hard the night before. There were streams of rain water pouring down the streets. I started to help them.

It began to rain again. It rained and rained. We went into his house until the shower was over.

We went out to work, but before we could get to the puddle, something came flying out of the air and smack into the puddle. My friend said, "It's a duck". I said, "It was a duck from outer space". We went over to look at the duck. He didn't see us. We caught him and tamed him. We named him "Outer Space Duck".

By James Wilson - Grade 4

FLOWERS

The violets are purple, the roses
are red,
They look so nice in their flower
bed.

They are all arranged in a nice
neat row,
Sun flowers are tall, and pansies
are low.

But no matter what they may be,
It makes no difference, no, not
to me.

By Linda Iversen - Grade 5

FLOWERS OF SPRING

The flowers in the springtime,
Are of colors bright and gay.
And they look so lovely,
As they move with the gentle
breeze of May.

The sunshine gives them life,
And so do gentle showers.
That's why I like, best of all,
the beautiful springtime
flowers.

By Eileen Muskus - Grade 6

MY PICTURE WINDOW

Every morning before going to school, I look through my picture window and see many wonderful sights. We are surrounded by apple-trees and in the apple-tree in front of my window, the robins have built their nest.

We have a tame wild rabbit that built its home in the woodpile. My father brought it to the city where I used to live when it was a baby, and my mother bottle-fed it. We kept the rabbit for two years, and then my father brought it back to our property in the country to roam free again. The rabbit is still with us and comes out every morning to feed. It would be out all day, but our dog is not friendly and the rabbit knows it.

There are many squirrels and all kinds of birds, such as red-winged black birds, blue birds, robins, crows, blue-jays, wild canaries and many more.

By Bettina Bouza - Grade 5

THE CLUELESS ROBBERS-

Jewels from many houses had been stolen. The sheriff was in a rage. He had not found one clue. He said to his good friend, Frank, "Let's go to the Wilson's, where the last robbery has been".

They both went down to the Wilson's in the jeep. The Wilson's had been waiting for them. Mr. Wilson said, "Did you hear the good news"? "What good news?" "We found a clue - there were finger prints on the old trunk." "We'll take a look at it." Sure enough, there were finger prints on it. They carefully brought it to the laboratory.

Tests showed that Pete, the Wilson's handyman's finger prints were on the trunk.

When Pete was questioned, he said, "I did it because I did not get enough pay". "I intended to sell the jewels for money."

The sheriff took him to jail. He told the sheriff where the jewels were. The sheriff found them. Pete returned the jewels to the Wilsons and promised never to do it again.

By Gay Wise - Grade 5

THUNDER JET 13

On April 3, 1953, Lt. Frank Miller and his buddy, Jack, were flying in the sky in their Thunder Jets, when they saw three Mig planes flying toward them. So they let open fire and got two of them. They saw the other one sneaking around. It soon let open fire on Frank's plane, and it set on fire. But he bailed out just in time before it blew up. Jack got the third Mig.

When Frank bailed out, he landed in Korean territory and saw a Mig plane at an airport nearby. So he sneaked around it and jumped into it and took-off. He soon reached there safely and soon was given a medal for bravery.

By Steve Sandor - Grade 5

LEFT HAND HOOK

Once there was a boy named Jack. He lived in a white house with blue shutters. In back of the house was an apple orchard. One day as Jack was walking along he saw the ugliest man. He had a very, bory long beard. He wore old clothes and instead of a real hand, on the left hand was a hook.

Jack was just ready to run away, but the man stopped him, and asked what his name was. "My name is Jack", said he.

Then the man said, "Does your family own an apple orchard?" "Yes", said Jack. "Then I'll tell you something." "In the middle of the night, at twelve o'clock, you go outside in the apple orchard, and in the second tree in the middle row you will find something, and keep it."

When the next night came, Jack hoped he would not fall asleep, and he didn't. Twelve o'clock came and he stole down the stairs and outside. When he came to the tree he heard a funny noise. He was just ready to run away, but he remembered his mother's saying that when he heard a noise he should count to ten, and if he heard the noise after, it must have been something. So he counted to ten, then the noise stopped. Jack put his hand in the tree (a hole in the tree), and pulled out an envelope. Inside was a lot of money.

He returned home and went up to bed feeling very happy. The next day his uncle came in and asked him if he had an adventure last night. Jack said, "Yes". "That old man you saw was me - the man with the hook on the left hand, and the money is for your college education.

By Carol Anderson - Grade 5

SILVER WOLF

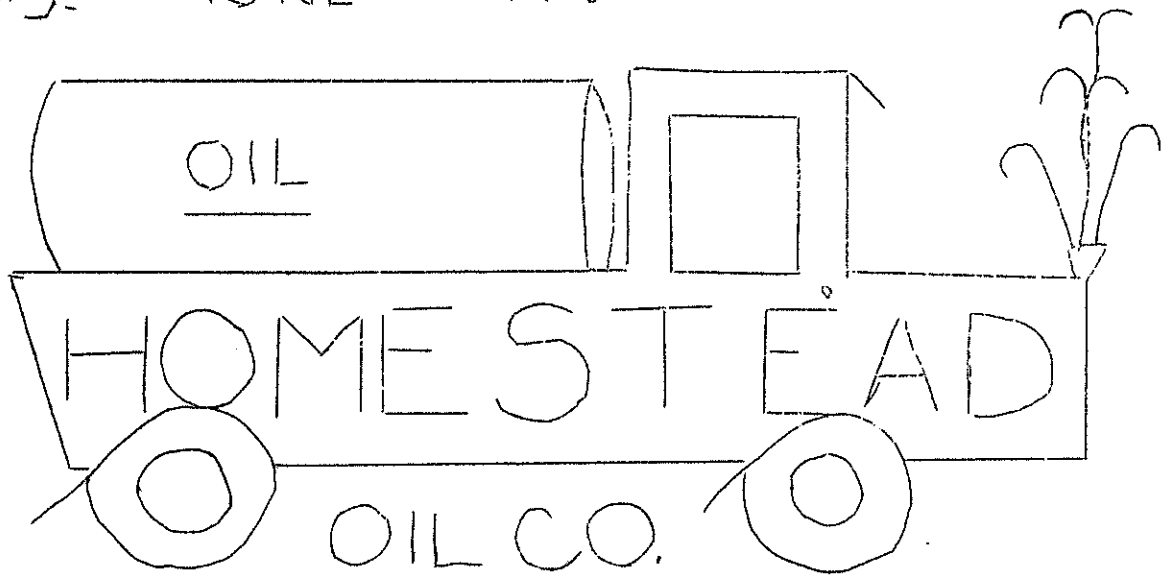

Early one spring morning in the den of a female wolf, six baby wolves appeared. But one of the wolves was not like his brothers or sisters. He was a pure white one, so he was considered an out-cast by his family. His mother took him four miles away and left him to die.

But along came a man who captured animals for zoos and circuses. He caught the silver wolf and brought him to a zoo in Maine.

The zoo raised the silver wolf and when he was two years old, he escaped and went to Canada, where he found a mate and raised a family.

BOYS SPORTS

Glenville had a very good basketball team this year. We had the best team in three years. The team this year won four games and lost two. We beat Julian Curtiss, Cos Cob, Old Greenwich and Byram. We lost to Riverside and Hamilton Avenue. The one we lost to Riverside was very close. We were tied up when time ran out. We had to play "sudden death". They got the first point and won.

The players on the team this year were: Lenny Falloon, Dick Whalley, Mac Krost, George Augustine, Philip Fairfield, Tom Obrig, Bob Ross and Bruno Klingol.

The first team has had an all-around good team. So far we have eleven games out of fourteen. We won both football games against Byram; three out of four in soccer, dropping one to Byram. We got four out of six in basketball.

The 1954 baseball season opened with a bang. The first team won three to one. A good start, I'd say - wouldn't you?

I am sorry to report that the second team had a poor year. They won one and lost five. They beat Riverside, and lost to Julian Curtiss, Cos Cob, Hamilton Avenue, Old Greenwich and Byram.

Both teams at Glenville School wish to thank our coaches - Mr. Elwood Washburn and Mr. Vincent Cherico - for coaching us in one of our best years of sports.

GIRLS SPORTS

On November 2nd we had a Hockey Play Day. The schools participating were the seventh and eighth grades of Glenville, New Lebanon, Byram and Hamilton Avenue. The girls from our school who were in it were: Carol Maslanka, Diane Caldwell, Barbara Bunk, Pat Campbell, Judy Nolan, Barbara Hank, Joan Stoeckle and Diana Dietrich.

Our Basketball Play Day was held in Greenwich High School. Many of us participated in that. The sixth graders also had a Basketball Play Day. It was held at Hamilton Avenue School. We all enjoyed playing the games.

We will have our Softball Play Day on June 9th at the High School. The schools that are going to play are Glenville, High School, Byram, New Lebanon and Hamilton Avenue.

(Continued on Alumni News sheet)

Graduates

Link of Friendship

GEORGE AUGUSTINE - "Augy"

George has been with us since kindergarten. He has been playing trombone in the School Band for four years, and has gone to Summer Band Camp at Julian Curtiss School for three years. He has been on the baseball, basketball, football and soccer teams. He has one of the lead roles in "The Toreadors", Glenville School operetta. He plans to attend a Catholic high school and take the College Course. His future plans are undecided.

FRANK AUGUSTYN - "Bunny"

Frank came to Glenville in the first grade. He has one hobby - and that is collecting stamps. He belongs to Boy Scout Troop 16 of Glenville. Frank is going to a Catholic high school in Greenwich and will take the Commercial Course.

BARBARA BUNK - "Bunky"

Barbara has been in the Glenville School since the first grade. She has been a cadet in the sixth, seventh and eighth grades. Barbara belongs to the Blue-Jean Teens, and the Dramatic Association. Her hobbies are collecting stamps and records. She likes to play volley ball. Barbara has been in three operettas. She plans to take the Commercial Course in high school, and plans to be a secretary.

RICHARD ALLEN BUSCH - "Butch"

Richard came to Glenville from Byram School in the sixth grade. He belonged to the Safety Patrol in the seventh grade. His favorite hobbies are stamp collecting and cars. He had an important part in the operetta, "The Toreadors". His favorite sports are swimming, basketball, baseball, soccer and volley ball. He plans to take the Comprehensive Course in the Greenwich High School. His future is undecided.

NANCY CHOJNOWSKI - "Nanni"

Nancy has attended Glenville School since kindergarten. She is interested in all sports, but especially likes basketball and baseball. Nancy has been a member of the Blue-Jean Teens for one year, and the Girl Scouts for two years, and has been on the Safety Patrol for three years. She plans to take the Commercial Course and wants to be a secretary.

DIANA DIETRICH - "Dee Dee"

Diana has been in the Glenville School since kindergarten. She

(Continued on next page)

GRADUATES - (Continued)

has been active in hockey, softball, basketball, volley ball and other sports. Diana was president of her seventh grade class. She had a part in the Christmas play, "Mimi Light The Candle" and, also, had a part in the operetta, "The Toreadors". Diana was president of the Blue-Jean Teens and the Y-Teens. She also belongs to the Dramatic Association. Diana's favorite outside activity is swimming. She plans to take the College Course in high school and hopes to go on to the Katherine Gibbs Secretarial School.

LENNY FALLOON - "Red"

Lenny has attended Glenville since kindergarten. He has participated in all sports, including football, soccer, basketball and baseball. He has been a member of the Safety Patrol for four years, and was Captain in the eighth grade. He had a leading part in the operetta, "The Toreadors". His hobbies are collecting sports magazines and records of various sports. He plans to take the College Course in high school and in the future plans to be connected in some way with sports.

BARBARA HANK - "Babs"

Barbara came from Longfellow Junior High School, Yonkers, N.Y., to Glenville School in the seventh grade. In the seventh grade she won First Prize for her poster in the St. Patrick's Day Card Party Contest. In the eighth grade she won First Prize in the Fire Prevention Poster Contest. She likes to play volley ball, basketball, hockey and baseball. Her favorite sport is baseball. She belongs to the Blue-Jean Teens and the Dramatic Association. She was on the Safety Patrol in the eighth grade. Her hobbies are collecting postage stamps, records and baseball pictures. She also has had a part in two operettas. She is planning to take the College Course in high school and wants to be either a commercial artist or a private secretary.

ALEXANDER KAHLONEY - "Moany"

Alex has attended Glenville School since kindergarten. He was a cadet in the sixth, seventh and eighth grades. He is in the Glenville School Band. He conducted the Band on the night of the Mother-Son Dinner. He has a leading part in the operetta, "The Toreadors". He likes to play baseball, football and soccer. Mr. Cherico has already signed him up for the Greenwich High School football team. He is planning to take the Comprehensive Course. He plans to have a band of his own sometime in the future.

JUDITH KALINSKI - "Judy"

Judy has been in Glenville School since kindergarten. She has been a member of the Safety Patrol for three years, the Girl Scouts for two years, the Blue-Jean Teens for three years, the Y-Toens for one year and the Dramatic Association for one year. Her favorite sports are ice skating and baseball. In high school Judy will take the College Course and then go on to nursing.

BRUNO KLINGEL - "Prune Head"

Bruno was born in Germany. After the war he went to Switzerland. There he first went to the French School, then he moved to Biel, also in Switzerland, where he went to the German School. After two

(Continued on next page)

GRADUATES - (Continued)

years he moved to Philadelphia. Some four weeks later he moved to Long Island and went to P.S.154. About two years later he went to P.S.93, also in Long Island. Then in about five months he came to Glenville School. Here in the eighth grade he is Vice-President of the class. Here he also won some awards. He likes to play soccer and basketball. His hobby is fishing. He is taking the Comprehensive Course in high school. After high school, he plans to go to trade school.

LEE KROST - "Shorty"

Lee came to Glenville in sixth grade. He was a cadet in the seventh and eighth grades. He likes to play football, basketball, baseball and soccer. His hobby is fishing. He plans to take the College Course and his future is undecided.

OWEN MAGEE - "Mic"

Owen came to Glenville School in the first grade from Byram. He belonged to the Safety Patrol for two years. He likes gardening and fishing. His hobby is building model airplanes.

CAROL MARSH - "Marshie"

Carol has attended Glenville School since kindergarten. She has been on the Safety Patrol in the sixth and seventh grades. Carol has won third prize for her Fire Prevention posters. She belonged to the Blue-Jean Teens, and the Dramatic Association. Carol had a part in this year's operetta, "The Toreadors". Carol plans to take the College Course in high school, and from there on her future is undecided.

CAROL MASLANKA - "Cookie"

Carol was transferred to Glenville School from a Stamford school in the second grade. She was a member of the Girl Scouts, Dramatic Association, and was Treasurer of the Blue-Jean Teens, Y-Teens and seventh grade class. She still belongs to the Y-Teens. Her hobbies and outside activities are listening to records, collecting dog statues, baseball, volley ball and basketball. She is taking the College Course in high school and later hopes to become a nurse.

SHIRLEY MUESSEL - "Maie"

Shirley came to Glenville in kindergarten. She has been a member of Blue-Jean Teens and Dramatic Association. She also has been a member of the Safety Patrol for three years. Her favorite hobbies are reading and music. Shirley won the United Nations Essay Contest in Glenville School, and placed third in the town-wide contest. She also had a part in the Christmas play "Mimi Lights The Candle". She plans to take the College Course and eventually become a teacher.

JUDITH NOLAN - "Judy"

Judy came to Glenville School in the fifth grade. She was transferred from Colonial School in Pelham, New York. She has been on the Safety Patrol in the sixth and seventh grades. Judy is a member of the Dramatic Association, and the Blue-Jean Teens. She plays basketball, hockey and baseball. She is planning on taking the College Course in high school. Eventually she would like to go on to college.

(Continued on next page)

GRADUATES - (Continued)

TOM OBRIG - "Gordo"

Tom entered the Glenville School in the third grade. He had been in P.S.152 in Brooklyn before he came here. He was on the Safety Patrol for three years in succession and was class treasurer in the eighth grade. Tom went out for all sports, but his favorite was soccer. He has three hobbies - stamps - radio - riflery. "Gordo" has plans to take the College Course and be a Chemical Engineer in later years.

ROBERT ROSS - "Bobby"

Bob has been in this school since kindergarten. He is planning to take a College Course in Greenwich High. His favorite sports are baseball and soccer.

JOAN STOECKLE - "Joanie"

Joan entered Glenville School in the first grade after being transferred from P.S.15 in Long Island. She has belonged to the Camera Club for two years, and the Blue-Jean Teens for two years, and the Y-Teens for two years. She has also belonged to the Dramatic Association, and had minor parts in two Christmas plays, and in the operetta "Sun Bonnet Sue". She was also a member of the Girl Scouts. She was president of the seventh grade class, and a member of the Safety Patrol for two years. Her favorite hobbies and outside activities are basketball, field hockey, volley ball and baseball. She plans to take the College Course in high school and her future is undecided.

ELIZABETH WALLACE - "Lizzie"

"Lizzie" has been in this school since kindergarten. She is interested in all kinds of sports, especially basketball and baseball. "Lizzie" belongs to Y-Teens, Dramatic Association, Camera Club and Blue-Jean Teens. She was a member of the Safety Patrol in the seventh grade. This year she has received a part in the operetta, "The Toreadors". She is going to take the Commercial Course in high school. She shopes in the future to be a secretary.

RICHARD WHALLEY - "Dick"

Richard started in Glenville School in kindergarten. He was a member of the baseball team for five years, and the basketball, football and soccer teams for four years. He was a member of the Safety Patrol in the seventh and eighth grades, and also vice-president of his seventh grade class. His favorite pastimes are playing records and photography. He plans to take the College Course. His ambition is to become a doctor.

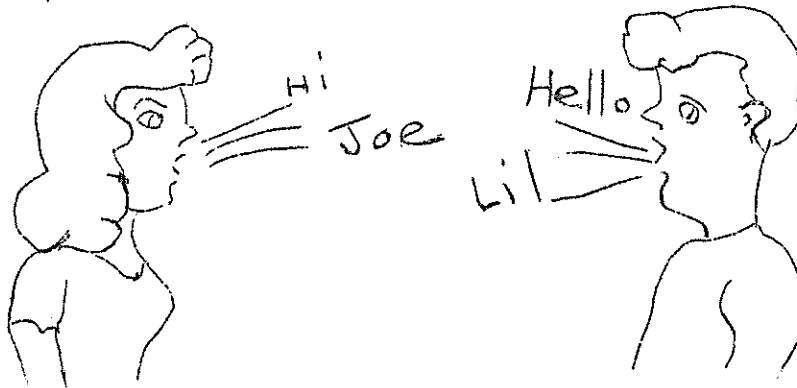

BARBARA WOYDEN - "Bobbie"

Barbara has attended Glenville School since kindergarten. She belonged to the Camera Club and the Blue-Jean Teens. Her favorite sport is basketball, and her favorite outside activity is reading. Barbara is taking the Commercial Course and plans to enter some phase of business.

Alumni News

Agnes Stevenson, a senior, has won an honor with the Daughters of the American Revolution. She recently was awarded a scholarship to Wells College. Another top honor she achieved was membership in the National Honor Society.

Jean Zygmunt has been accepted at New Britain State Teachers College. She also was awarded membership in the National Honor Society.

Marie Maslanka was accepted for membership in the National Honor Society.

Joan Pottgen has been accepted at Washington Preparatory School.

Suzanne Sullivan, a sophomore, participated in both the Chorus and Orchestra in the recent Music Festival presented at the High School.

Kathleen Daniels was selected "Queen" of the Junior Prom held April 3rd.

Anita Joy, a junior, has recently been admitted to the cheerleaders squad.

GIRLS SPORTS - (Continued)

This year for the first time we had archery in gym. We all have fun learning how to shoot and trying to hit the target!

Our Field Day this year will be on June 16th, and the physical education teachers have lined up a variety of competitive games. Parents are invited to come and witness this event.

HIGH SCHOOL GRADUATES

In June, 1950, the following students graduated from Glenville School: Peter Daleen, Karl Fox, Barbara Franus, Marie Maslanka, Martha McCauley, Joan Pottgen, Elaine Slothower, Agnes Stevenson, and Jean Zygmunt. They have finished four years of secondary schooling and are now graduating from High School. WE WISH THEM THE BEST OF LUCK AND SUCCESS IN THEIR CHOSEN FIELDS OF ENDEAVOR.
