# FAIRGREEN FACULTY PROFILE

## 88

All 88 teachers are university graduates and 28% hold advanced degrees

## 70%

70% of our IBDP teachers are IB examiners

## 10:1

Student: teacher ratio

## MYP

The MYP framework promotes interdisciplinary study to help students make important connections between academic subjects and global contexts. Integrated teaching and learning helps students analyse complex issues and develop the habits of mind they need to participate in our increasingly interconnected world. Rigorous assessment in the Fairgreen MYP will provide IB-validated grades based on a combination of examinations and course work. Fairgreen enters MYP students for external assessments to be certificated by the IBO, including extended assessment projects such as the MYP Personal Project.

## IBCP

For the IBCP, we have carefully chosen our career-related partner, The Sustainability Management School (SUMAS), a Swiss University that aligns with our vision. They provide a high school course in Business & Sustainability taught online with other CP students from around the world. University credits are earned at school and can be transferred to the first year of an undergraduate degree. In addition to SUMAS students must also complete:

- 2-3 IB Subject courses
- the CP Core which consists of
  - Service Learning
  - Reflective Project
  - Language Development
  - Personal & Professional Skills

## IBDP

As a growing school, we continue to increase our subject options in the IBDP as we celebrate our first graduating cohort in 2022.
