INDEPENDENT AUDITOR'S REPORT

Greeneview Local School District
Greene County
4800 Cottonville Road
Jamestown, Ohio 45335

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Greeneview Local School District, Greene County, Ohio (the School District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Greeneview Local School District, Greene County, Ohio, as of June 30, 2018, and the respective changes in financial position thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 21 to the financial statements, during 2018, the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 3, 2019, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Keith Faber
Auditor of State
Columbus, Ohio

June 3, 2019

Greeneview Local School District
Greene County
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2018
(unaudited)

The discussion and analysis of Greeneview Local School District's (the "School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2018. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2018 are as follows:

In total, the net position of governmental activities increased \$6,024,094, which represents a 120.5 percent increase from 2017 balances as restated and is largely the result of changes in the net pension liability, the net other postemployment benefits liability and related deferred outflows and inflows as well as the proceeds of refunded debt.

General revenues accounted for \$14,808,604 in revenue or 86 percent of all revenues. Program specific revenues in the form of charges for services, operating grants, interest and contributions accounted for \$2,359,623 or 14 percent of total revenues of \$17,168,227.

Total assets of governmental activities decreased by \$42,128 as cash and cash equivalents increased by \$768,963, receivables decreased by \$53,005, and capital assets decreased by \$758,051.

The School District had \$11,144,133 in expenses; only \$2,359,623 of these expenses was offset by program specific charges for services, grants or contributions. General revenues (primarily taxes and entitlements) were \$14,808,604.

The general fund had \$13,990,556 in revenues and \$14,200,593 in expenditures. The general fund's balance decreased \$201,531 from 2017.

Using this Generally Accepted Accounting Principles Report (GAAP)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non major funds presented in total in one column. In the case of Greeneview Local School District, the general fund and the permanent improvement capital projects fund are the most significant funds.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2018?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in that position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are reported including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general fund and the permanent improvement capital projects fund.

Governmental Funds

Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Greeneview Local School District
Greene County
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2018
(unaudited)
(continued)

The largest impact on the District's financial statement in 2018 had absolutely no impact on the District's financial condition; GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27" and GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB)" require the District to recognize a net pension and OPEB liability of \$18,688,262. For reasons discussed below, this liability serves only to distort the true financial position of the District. Users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension/OPEB and the net pension/OPEB liability to the reported net position and subtracting deferred outflows related to pension/OPEB.

Governmental Accounting Standards Board (GASB) standards are national and apply to all governmental financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension and OPEB costs, GASB 27 and GASB 45 focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information in these statements.

Under the standards required by GASB 68 and GASB 75, the pension and OPEB liability equals the District's proportionate share of each plan's collective present value of estimated future pension and OPEB benefits attributable to active and inactive employees' past service, less plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of the pension and OPEB benefit promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension and other postemployment benefit system. In Ohio, there is no legal means to enforce the unfunded liability of the pension and OPEB system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension and OPEB system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the pension and other postemployment benefit liability. As explained above, changes in pension and OPEB, contribution rates, and return on investments affect the balance of the pension and OPEB liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension and OPEB payments, State statute does not assign/identify the responsible party for the unfunded portion.

Greeneview Local School District
Greene County
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2018
(unaudited)
(continued)

Due to the unique nature of how the pension and OPEB liability is satisfied, this liability is separately identified within the long term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the District's statements prepared on an accrual basis of accounting include an annual pension and OPEB expense for their proportionate share of each plan's change in net pension liability and other postemployment benefit liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 75 in 2018, the District is reporting a other postemployment benefit liability and deferred inflows/outflows of resources related to other postemployment benefits on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2017, from \$9,385,483 to \$4,999,402.

Total assets of governmental activities decreased by \$42,128, as cash and cash equivalents increased by \$768,963, receivables decreased by \$53,005 and capital assets decreased by \$758,051. Unrestricted net position, the part of net position that can be used to finance day-to-day activities without constraints established by grants or legal requirements, of the School District increased by \$5,724,945.

Table 2 shows the changes in net position for fiscal years 2018 and 2017. A comparative analysis of district-wide data is being presented, as follows:

Table 2
Changes in Net Position

	2018	2017

Increase in Net Position	<u>\$6,024,094</u>	<u>\$921,066</u>

Governmental Activities

The unique nature of taxes in Ohio creates the need to routinely seek voter approval for the School District operations. Property taxes and income taxes made up 43 percent of revenues for governmental activities for the School District for fiscal year 2018.

Instruction comprises 48 percent of district expenses. Support services expenses make up 38 percent of the expenses.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements. A comparative analysis of district-wide data is being presented, as follows:

Interest and Fiscal Charges	739,804	739,804	509,050	509,050
Total Expenses	<u>\$11,144,133</u>	<u>\$8,784,510</u>	<u>\$15,700,175</u>	<u>\$13,370,412</u>

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and pupil.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to pupils.

Board of education, administration, fiscal and business include expenses associated with administrative and financial supervision of the district.

Operation and maintenance of plant activities involve keeping the school grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Operation of non-instructional services includes the preparation, delivery, and servicing of lunches, snacks and other incidental meals to students and school staff in connection with school activities.

Extracurricular activities includes expense related to student activities provided by the School District which are designed to provide opportunities for pupils to participate in school events, public events, or a combination of these for the purposes of motivation, enjoyment and skill improvement. Interest and fiscal charges involves the transactions associated with the payment of interest and other related charges to debt of the School District.

 Management's Discussion and Analysis
 For the Fiscal Year Ended June 30, 2018
 (unaudited)
 (continued)

The dependence upon tax revenues is apparent. Over 68 percent of instruction activities are supported through taxes and other general revenues; for all activities general revenue support is over 78 percent. The community, as a whole, is the primary support for the School District.

The School District's Funds

These funds are accounted for using the modified accrual basis of accounting. The general fund had total revenues of \$13,990,556 and total expenditures of \$14,200,593. The net change in the fund balance for the general fund was a decrease of \$201,531.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of the fiscal year 2018, the School District amended its general fund budget several times. The School District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

For the general fund, the final budget basis revenue and other financing sources estimate was \$13,789,800. The original budgeted estimate was \$13,789,800.

During fiscal year 2018, the School District budgeted and received \$4,477,000 and \$4,404,745, respectively in property and other taxes while it budgeted and received \$6,210,800 and \$6,344,862, respectively, in intergovernmental revenues.

Capital Assets

At the end of the fiscal year 2018, the School District had \$28,539,137 invested in capital assets.

Table 4 shows fiscal year 2018 balances compared to 2017.

Table 4
 Capital Assets (Net of Depreciation) at June 30,

	2018	2017
Land	\$772,053	\$544,748
Land Improvements	1,008,003	1,034,085
Buildings and Improvements	25,440,178	26,312,745
Furniture Fixture and Equipment	537,169	544,208
Vehicles	669,078	695,489
Educational Media	112,656	165,913
Totals	\$28,539,137	\$29,297,188

Greeneview Local School District
Greene County
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2018
(unaudited)
(continued)

Overall capital assets decreased \$758,051 from fiscal year 2017 to fiscal year 2018. This decrease is due to the depreciation expense being greater than capital asset additions.

For more information on capital assets, see Note 9 of the Basic Financial Statements.

Debt Administration

Table 5 shows the School District's outstanding debt at the end of fiscal year 2018 as compared to fiscal year 2017.

Table 5
Outstanding Debt at June 30,

	2018	2017
Energy Conservation Bonds	\$355,000	\$392,000
General Obligation Refunding Bonds	3,705,000	4,155,000
Capital Appreciation Refunding Bonds	250,000	250,000
COPS – Capital Lease	6,030,000	6,195,000
Totals	\$10,340,000	\$10,992,000

At June 30, 2018, the School District's overall legal debt limitation was \$11,479,607 and the unvoted debt margin was \$233,455.

For more information on the School District's debt, see Note 14 of the Basic Financial Statements.

Current Financial Issues and Concerns

The current state of the overall economy is of major concern to the School District. As the economy begins a slow and steady recovery, the School District revenue stream is not keeping up with the increasing expenditures. The School District must search for new funding while at the same time find ways to cut expenses without jeopardizing the overall quality of the education program. Unfunded mandates are an on-going concern to the School District as well as the uncertainties for a state funding model for school districts. Other areas of major concern include the Health Care.

School District personnel continue to make strides in the area of curriculum improvement and remediation. This strategy from the Continuous Improvement Plan is an attempt to increase student performance and enhance curriculum instruction. Both goals will promote student learning.

In conclusion, the Greeneview Local School District has committed itself to financial excellence for many years. Therefore, it will have to address its building and staffing needs to enable it to be viable for years to come. The School District plans to continue its sound fiscal management to meet the challenges of the future.

 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
 IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
 FOR THE FISCAL YEAR ENDED JUNE 30, 2018

Net Change in Fund Balances - Total Governmental Fund		\$344,740
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital Asset Addition:	448,526	
Current Year Depreciation	<u>(1,206,577)</u>	(758,051)
Some revenues that will not be collected for several months after the School District's fiscal year ends are not considered "available" revenues and are deferred in the governmental funds. Unavailable revenues changed by this amount this year.		
Property Taxes	12,301	
Income Taxes:	4,528	
Accounts	2,383	
Intergovernmental	<u>47,746</u>	66,958
Issuance of long-term debt is reported as revenue in governmental funds, but the issuance increases long-term liabilities in the statement of net position. In the current year, these amounts consist of proceeds from refunding bonds.		(3,705,000)
Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net position. In the current year, these amounts consist of bond principal payments.		4,357,000
In the Statement of Activities, interest is accrued on outstanding bonds, whereas in governmental funds, interest is expensed when due		(187,860)
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.		1,052,796
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.		4,467,012
Except for amounts reported as deferred inflows/outflows, changes in the net other post-employment benefits liability are reported as other postemployment benefits in the statement of activities.		482,035
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:		
Accrued Vacation Leave Payable	(7,158)	
Compensated Absences Payable	(40,839)	
Interest Accreted on Capital Appreciation Bonds	(89,700)	
Amortization of Deferred Charge on Refunding	(87,849)	
Amortization of Bond Premium	130,010	
		<u>(95,536)</u>
Change in Net Position of Governmental Activities		<u>\$6,024,094</u>

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Greeneview Local School District (the "School District") is a body politic and corporate for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally-elected five-member Board form of government and provides educational services as authorized by its charter and further mandated by State and/or federal agencies. It is staffed by 78 non-certified employees, 97 certified full time teaching personnel, including eight administrators, who provide services to 1,368 students and other community members. The School District currently operates four instructional/support facilities.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Greeneview Local School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes and there is the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The School District does not have any component units.

The School District is associated with three jointly governed organizations, one insurance purchasing pool and one public entity shared risk pool. These organizations are discussed in Notes 16 and 17 to the basic financial statements. These organizations are:

Jointly Governed Organizations:

- Miami Valley Educational Computer Association (MVECA)
- Southwestern Ohio Educational Purchasing Council (SWEPC)
- Greene County Career Center

Insurance Purchasing Pool:

- Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Program

Public Entity Shared Risk Pool:

- Southwestern Ohio Educational Purchasing Council's Benefit Plan Trust

Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements:

The Statement of Net Position and the Statement of Activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The government-wide statements usually distinguish between those activities that are governmental and those that are business-type. The School District, however, has no activities which are reported as business-type. The government-wide statements also exclude fiduciary funds.

The Statement of Net Position presents the financial condition of the governmental activities of the School District at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements:

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The School District divides its funds into two categories: governmental and fiduciary.

Governmental Funds:

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund - The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Permanent Improvement Capital Projects Fund – The permanent improvement capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure related to the acquiring, constructing, or improving of such permanent improvements as are authorized by Chapter 5705 of the Ohio Revised Code.

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed, or assigned to a particular purpose.

Fiduciary Fund Types:

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. The School District's only trust fund is a private purpose trust which accounts for various college scholarship programs for students. The agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The student managed activities agency fund accounts for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer and faculty advisor. The tournament agency fund accounts for proceeds and expenditures for OHSAA sponsored tournaments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Measurement Focus

Government-wide Financial Statements:

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the School District are included on the Statement of Net Position. The Statement of Activities accounts for increases (i.e. revenues) and decreases (i.e. expenses) in total net position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The private purpose trust fund is reported using the economic resources measurement focus.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions:

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within 60 days of fiscal year-end.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: income tax, tuition, student fees, interest, grants, charges for services, gifts and donations and rent.

Deferred Outflows/Inflows of Resources:

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenses/expenditure) until then. For the School District, deferred outflows of resources include a deferred amount of pension and other postemployment benefits (OPEB) contributions. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 11 and 12.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources include property taxes, income taxes, and fees. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2018, but which were levied to finance 2019 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes and fees. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension and OPEB plans are reported in the government-wide statement of net position (See Notes 11 and 12).

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Expenses/Expenditures:

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocation of costs, such as depreciation and amortization are not recognized in governmental funds.

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

E. Budgetary Data

All funds, other than the agency fund are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statement reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statement reflect the amounts in the final amended certificate issued during fiscal year 2018.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

F. Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the School District's records. Each fund's interest in the pool is presented as "cash and cash equivalents." During fiscal year 2018, the School District's investments included money market funds, Federal Home Loan Mortgage Notes, Federal National Mortgage Association Notes, U.S. Treasury Bills, Commercial Paper, and negotiable Certificates of Deposit.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2018 amounted to \$110,807, which includes \$27,779 assigned from other funds. Interest revenue was posted to the permanent improvement fund, the food service fund, the classroom facilities project maintenance fund and to the private purpose trust fund in the amounts of \$1,946, \$462, \$4,394, and \$5,602, respectively.

Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

G. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other governments, or imposed by enabling legislation. Restricted assets in the general fund include amounts required by State statute to be set aside for budget stabilization.

H. Capital Assets and Depreciation

The School District's only capital assets are general capital assets. General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$5,000. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except for land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Greeneview Local School District
 Greene County
 Notes to the Basic Financial Statements
 For the Fiscal Year Ended June 30, 2018
 (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Description	Estimated Lives
Land Improvements	20 years
Buildings and Improvements	20-50 years
Furniture, Fixtures, and Equipment	5-20 years
Vehicles	8 years
Educational Media	6-15 years

I. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the governmental funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment in the current fiscal year. The capital lease and the general obligation bond that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

J. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year-end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for employees after five years of current service with the School District.

The entire compensated absences liability is reported on the government-wide financial statements.

On governmental fund financial statements, compensated absences are reported as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "compensated absences payable" in the funds from which the employees will be paid.

L. Interfund Transactions

Transfers within governmental activities are eliminated on the government-wide financial statements.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements.

M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Enabling legislation authorizes the School District to assess, levy, charge or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the School District can be compelled by an external party, such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specific by the legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the School District Board of Education, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints are not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the School District Board of Education or a School District official delegated that authority by resolution or by State Statute.

Unassigned – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District first applies restricted resources when an expenditure is incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

N. Net Position

Net position represents the difference between assets plus deferred outflow of resources and liabilities plus deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Of the restricted net position, none has resulted from enabling legislation.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

O. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 3 - FUND DEFICITS

At June 30, 2018, the lunchroom, IDEA, Part B, Title I, Title IIA, and Title IVA special revenue funds had deficit fund balances of \$28,781, \$34,200, \$29,875, \$17,729, and \$2,355, respectively. The general fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

NOTE 4 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

1. Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 4 - BUDGETARY BASIS OF ACCOUNTING (continued)

3. In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to a restricted, committed or assigned fund balance for that portion of outstanding encumbrances not already recognized as an accounts payable (GAAP basis).
4. Advances - in and advances - out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
5. Unrecorded cash represents amounts received but not included as revenue on the budget basis operating statement. These amounts are included as revenue on the GAAP basis operating statements.
6. One fund is included in the general fund (GAAP basis), but has a separate, legally adopted budget (budget basis).
7. The transfers are operating transactions (budget basis) that are reclassified to other expenses on the operating statement (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statement for the general fund.

<u>Net Change in Fund Balance</u>	
GAAP Basis	(\$201,531)
Net Adjustment for Revenue Accruals	591,628
Net Adjustment for Expenditure Accruals	(243,870)
Advances	(11,502)
Transfers	(79,515)
Adjustment for Encumbrances	(397,069)
Funds Budgeted Elsewhere	<u>(10,796)</u>
Budget Basis	<u><u>(\$352,655)</u></u>

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 5 - DEPOSITS AND INVESTMENTS

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than five years from the date of deposit, or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above;
4. Bonds and other obligations of the State of Ohio or Ohio local governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations;
7. The State Treasurer's investment pool (STAR Ohio); and
8. Commercial paper and bankers acceptances if training requirements have been met.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 5 - DEPOSITS AND INVESTMENTS (continued)

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

Cash on Hand: At fiscal year end, the School District had \$150 in undeposited cash in hand which is included on the balance sheet of the School District as part of “cash and cash equivalents.”

A. Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At fiscal year-end, \$3,797,665 of the School District’s bank balance of \$4,297,665 was exposed to custodial credit. All statutory requirements for the deposit of money had been followed.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured. Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

The School District also had \$4,500,000 in non-negotiable certificates of deposit outstanding at June 30, 2018. These certificates of deposit are a part of cash and cash equivalents on the basic financial statements. These certificates of deposit were fully insured by the FDIC.

B. Investments

At June 30, 2018, the School District had the following investments. All investments are in an internal investment pool.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 5 - DEPOSITS AND INVESTMENTS (continued)

Investment Type (Cost)	Investment Maturities (in years)			Percent of Total Investments
	Fair Value	Less Than One Year	> One Year	
Money Market Funds	\$3,921	\$3,921	\$0	0.15%
Federal Home Loan Mortgage Notes	331,770	331,770	0	12.94%
Federal National Mortgage Association Notes	200,981	0	200,981	7.84%
U.S. Treasury Bills	1,098,947	1,098,947	0	42.86%
Commercial Paper	124,582	124,582	0	4.86%
Negotiable Certificates of Deposit	803,903	674,628	129,275	31.35%
Total Investments	\$2,564,104	\$2,233,848	\$330,256	100.00%

The School District's investments in U.S. Government money market mutual funds are valued using quoted market prices in active markets (Level 1 inputs). The School District's investments in federal agency securities (FFCB, FHLMC, FNMA), commercial paper and negotiable CD's are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

Interest Rate Risk: The School District has no investment policy that addresses interest rate risk. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and that an investment must be purchased with the expectation that it will be held to maturity.

Credit Risk: The School District's investments in federal agency securities were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. U.S. government money market mutual funds were rated AAAM by Standard & Poor's. The negotiable CD's were not rated but are fully insured by the FDIC. The Federal Agency Notes and commercial papers were rated A-1 and P-1 by Standard & Poor's and Moody's Investor Services, respectively. The School District's investment policy limits investments to those authorized by State statute.

Concentration of Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's investment policy does not address investment custodial risk beyond the requirement the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the School District. Real property tax revenue received in calendar 2018 represents collections of calendar year 2017 taxes. Real property taxes received in calendar year 2018 were levied after April 1, 2017, on the assessed value listed as of January 1, 2017, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2018 represents collections of calendar year 2017 taxes. Public utility real and tangible personal property taxes received in calendar year 2018 became a lien December 31, 2016, were levied after April 1, 2017 and are collected in 2018 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Greene, Fayette, and Clinton Counties. The County Auditors periodically advance to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2018, are available to finance fiscal year 2018 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2018 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflow of resources. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2018 taxes were collected are:

	<u>2017 Second - Half Collections</u>		<u>2018 First - Half Collections</u>	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$227,899,000	94%	\$219,621,840	94%
Tangible Public Utility Property	13,774,650	6%	13,832,750	6%
Total Assessed Value	<u>\$241,673,650</u>	<u>100%</u>	<u>\$233,454,590</u>	<u>100%</u>
 Tax rate per \$1,000 of assessed valuation	 \$32.95		 \$32.75

(Continued)

NOTE 7 - INCOME TAX

The School District levies a voted tax of one-half of one percent for general operations on the income of residents and of estates. The tax was effective on January 1, 1991, and is a continuing tax. Effective January 1, 2002, the residents voted an additional one-half of one percent income tax for a five-year period. In November, 2015, voters approved the renewal of this additional .5% income tax. This was effective January, 2017 and will be in effect through December, 2021. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file an annual return. The State makes quarterly distributions to the School District after withholding amounts for administrative fees and estimated refunds. Income tax revenue is credited to the general fund. Income tax revenue credited to the general fund for fiscal year 2018 was \$2,011,926.

NOTE 8 - RECEIVABLES

Receivables at June 30, 2018, consisted of property and income taxes, accrued interest, accounts (rent, billings for user charged services, and student fees), intergovernmental grants and interfund.

A summary of the principal items of intergovernmental receivables follows:

<u>Governmental Activities</u>	<u>Amounts</u>
IDEA, Part B	\$15,978
Title I	29,448
Title IVA	<u>2,320</u>
Total Intergovernmental Receivables	<u><u>\$47,746</u></u>

NOTE 9 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2018, was as follows:

	<u>Assets 6/30/2017</u>	<u>Additions</u>	<u>Deletions</u>	<u>Assets 6/30/2018</u>
Capital Assets, not Being Depreciated				
Land	\$544,748	\$227,305	\$0	\$772,053
Total Capital Assets, not Being Depreciated	<u>544,748</u>	<u>227,305</u>	<u>0</u>	<u>772,053</u>
Capital Assets, Being Depreciated:				
Land Improvements	2,336,575	66,997	0	2,403,572
Buildings and Improvements	36,103,563	0	0	36,103,563
Furniture, Fixtures and Equipment	2,829,337	64,373	0	2,893,710
Vehicles	1,785,832	89,851	0	1,875,683
Educational Media	860,264	0	0	860,264
Total Capital Assets, Being Depreciated	<u>43,915,571</u>	<u>221,221</u>	<u>0</u>	<u>44,136,792</u>
Less Accumulated Depreciation:				
Land Improvements	(1,302,490)	(93,079)	0	(1,395,569)
Buildings and Improvements	(9,790,818)	(872,567)	0	(10,663,385)
Furniture, Fixtures and Equipment	(2,285,129)	(71,412)	0	(2,356,541)
Vehicles	(1,090,343)	(116,262)	0	(1,206,605)
Educational Media	(694,351)	(53,257)	0	(747,608)
Total Accumulated Depreciation	<u>(15,163,131)</u>	<u>(1,206,577)</u>	<u>0</u>	<u>(16,369,708)</u>
Capital Assets, Being Depreciated, Net	<u>28,752,440</u>	<u>(985,356)</u>	<u>0</u>	<u>27,767,084</u>
Governmental Activities Capital Assets, Net	<u>\$29,297,188</u>	<u>(\$758,051)</u>	<u>\$0</u>	<u>\$28,539,137</u>

* Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$1,002,254
Vocational	368
Support Services:	
Instructional Staff	43,310
Administration	536
Operation and Maintenance of Plant	31,468
Pupil Transportation	114,058
Non-Instructional Services	5,915
Extracurricular Activities	8,668
Total Depreciation Expense	<u>\$1,206,577</u>

NOTE 10 - RISK MANAGEMENT

A. Property and Liability

The School District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2018, the School District contracted with Great American Insurance Company for general liability insurance with a \$1,000,000 single occurrence limit and a \$3,000,000 aggregate. Property is also protected by the Selective Insurance Company and holds a \$5,000 deductible.

The School District's vehicles are covered under a business policy with Great American Insurance Company which carries a \$1,000,000 limit on any accident.

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant change in coverage from prior years.

For fiscal year 2018, the School District participated in the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 17). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund."

This "equity pooling" arrangement ensures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Integrated Comp Incorporated provides administrative, cost control and actuarial services to the GRP.

NOTE 11 – DEFINED BENEFIT PENSION PLANS

A. Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 11 – DEFINED BENEFIT PENSION PLANS (continued)

The net pension liability represents the School District’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District’s obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

B. Plan Description - School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 11 – DEFINED BENEFIT PENSION PLANS (continued)

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2018, the allocation to pension, death benefits, and Medicare B was 13.5 percent. The 0.5 percent of employer contribution rate was allocated to the health care fund.

The School District’s contractually required contribution to SERS was \$285,427 for fiscal year 2018.

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 11 – DEFINED BENEFIT PENSION PLANS (continued)

C. Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2015, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 26 years of service, or 31 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50 or later.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account.

Greeneview Local School District
 Greene County
 Notes to the Basic Financial Statements
 For the Fiscal Year Ended June 30, 2018
 (Continued)

NOTE 11 – DEFINED BENEFIT PENSION PLANS (continued)

STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member’s designated beneficiary is entitled to receive the member’s account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and was increased one percent each year until it reached 14 percent on July 1, 2016. For the fiscal year ended June 30, 2018, plan members were required to contribute 14 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2018 contribution rates were equal to the statutory maximum rates.

The School District’s contractually required contribution to STRS was \$779,489 for fiscal year 2018.

D. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate share of the Net Pension Liability	\$3,863,131	\$11,231,499	\$15,094,630
Proportion of the Net Pension Liability	0.0646573%	0.04728014%	
Pension Expense	\$164,412	\$4,302,600	\$4,467,012

At June 30, 2018, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 11 – DEFINED BENEFIT PENSION PLANS (continued)

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred Outflows of Resources			
Differences between expected and actual experience	\$166,256	\$433,708	\$599,964
Changes in Assumptions	199,765	2,456,452	2,656,217
Difference between School District contributions and proportionate share of contributions	35,403	0	35,403
School district contributions subsequent to the measurement date	<u>285,427</u>	<u>779,489</u>	<u>1,064,916</u>
Total Deferred Outflows of Resources	<u>\$686,851</u>	<u>\$3,669,649</u>	<u>\$4,356,500</u>

Deferred Inflows of Resources

Differences between expected and actual experience	\$0	\$90,521	\$90,521
Changes in proportion and differences between School District contributions and proportionate share of contributions	15,545	306,960	322,505
Net difference between projected and actual earnings on pension plan investments	<u>18,337</u>	<u>370,653</u>	<u>388,990</u>
Total Deferred Inflows of Resources	<u>\$33,882</u>	<u>\$768,134</u>	<u>\$802,016</u>

\$1,064,916 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Deferred Outflows/Inflows

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Fiscal Year Ending June 30:			
2019	\$155,152	\$410,883	\$566,035
2020	235,500	915,097	1,150,597
2021	66,947	650,103	717,050
2022	<u>(90,057)</u>	<u>145,943</u>	<u>55,886</u>

 For the Fiscal Year Ended June 30, 2018
 (Continued)

NOTE 11 – DEFINED BENEFIT PENSION PLANS (continued)

E. Actuarial Assumptions - SERS

SERS’ total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee’s entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2017, are presented below:

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
COLA or Ad Hoc COLA	2.5 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, with 120% of male rates and 110% of female rates used. The RP-2000 Disabled Mortality Table with 90% for male rates and 100% for female rates set back five years is used for the period after disability retirement. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2015.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 11 – DEFINED BENEFIT PENSION PLANS (continued)

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00%	0.50%
US Stocks	22.50%	4.75%
Non-US Stocks	22.50%	7.00%
Fixed Income	19.00%	1.50%
Private Equity	10.00%	8.00%
Real Assets	15.00%	5.00%
Multi-Asset Strategies	10.00%	3.00%
Total	100.00%	

Discount Rate The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 11 – DEFINED BENEFIT PENSION PLANS (continued)

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
School District's proportionate share of the net pension liability	\$5,361,022	\$3,863,131	\$2,608,342

F. Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2017, actuarial valuation, compared with July 1, 2016 are presented below:

	July 1, 2017	July 1, 2016
Inflation	2.50 percent	2.75 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65	12.25 percent at age 20 to 2.75 percent at age 70
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation	7.75 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3.5 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA commences on fifth anniversary of retirement date.

For the July 1, 2017, actuarial valuation, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For the July 1, 2016 actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 11 – DEFINED BENEFIT PENSION PLANS (continued)

Actuarial assumptions used in the July 1 2017, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016. Actuarial assumptions used in the June 30, 2016, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Rate of Return *
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
 Total	 100.00 %	

* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2017. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2017. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2017.

NOTE 11 – DEFINED BENEFIT PENSION PLANS (continued)

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
School District's proportionate share of the net pension liability	\$16,099,971	\$11,231,499	\$7,130,540

Benefit Term Changes Since the Prior Measurement Date Effective July 1, 2017, the Cost of Living Adjustment was reduced to zero.

NOTE 12 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS

A. Net Other Postemployment Benefits (OPEB) Liability

For fiscal year 2018, Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions" was effective. The net OPEB liability has been disclosed below.

OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net OPEB liability represents the School District's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including OPEB.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 12 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS
(continued)

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

B. Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2018, .5 percent of covered payroll was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 12 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS
(continued)

For fiscal year 2018, this amount was \$23,700. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for health care surcharge.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contractually required contribution to SERS was \$15,230 for fiscal year 2018.

C. Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2018, STRS did not allocate any employer contributions to post-employment health care.

D. Net OPEB Liability

The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share:

NOTE 12 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS
(continued)

E. Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2017, are presented below:

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation
Municipal Bond Index Rate:	
Measurement Date	3.56 percent
Prior Measurement Date	2.92 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Measurement Date	3.63 percent
Prior Measurement Date	2.98 percent
Medical Trend Assumption	
Medicare	5.50 to 5.00 percent
Pre-Medicare	7.50 to 5.00 percent

NOTE 12 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS
(continued)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	1.00%	.50%
US Stocks	22.50%	4.75%
Non-US Stocks	22.50%	7.00%
Fixed Income	19.00%	1.50%
Private Equity	10.00%	8.00%
Real Assets	15.00%	5.00%
Multi-Asset Strategies	10.00%	3.00%
Total	<u>100.00%</u>

(Continued)

NOTE 12 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS
(continued)

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2017 was 3.63 percent. The discount rate used to measure total OPEB liability prior to June 30, 2017 was 2.98 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.56 percent, as of June 30, 2017 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.63%) and higher (4.63%) than the current discount rate (3.63%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.5% decreasing to 4.0%) and higher (8.5% decreasing to 6.0%) than the current rate.

	1% Decrease (2.63%)	Current Discount Rate (3.63%)	1% Increase (4.63%)
School District's proportionate share of the net OPEB liability	\$2,112,062	\$1,748,935	\$1,461,246
	1% Decrease (6.5% decreasing to 4.0 percent)	Current Trend Rate (7.5% decreasing to 5.0 percent)	1% Increase (8.5% decreasing to 6.0 percent)
School District's proportionate share of the net OPEB liability	\$1,419,130	\$1,748,935	\$2,185,438

F. Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2017, actuarial valuation are presented below:

Inflation	2.50%
Projected Salary Increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investments expense, including inflation
Payroll Increases	3.00%
Cost of Living Adjustments	0 percent effective July 1, 2017
Blended Discount Rate of Return	4.13%
Health Care Cost Trends	6%-11% initial, 4.50% ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2017, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB *Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 12 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS
(continued)

Also since the prior measurement date, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019. Subsequent to the current measurement date, the date for discontinuing remaining Medicare Part B premium reimbursements was extended to January 2020.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	28.00%	7.35%
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100%	

*10 year annualized geometric nominal returns, which and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actual rate of return, without net value added by management.

NOTE 12 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS
(continued)

Discount Rate The discount rate used to measure the total OPEB liability was 4.13 percent as of June 30, 2017. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was not projected to be sufficient to make all projected future benefit payments of current plan members. The OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2037. Therefore, the long-term expected rate of return on OPEB plan assets was used to determine the present value of the projected benefit payments through the fiscal year ending June 30, 2036 and the Bond Buyer 20-year municipal bond rate of 3.58 percent as of June 30, 2017 (i.e. municipal bond rate), was used to determine the present value of the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The blended discount rate of 4.13 percent, which represents the long-term expected rate of return of 7.45 percent for the funded benefit payments and the Bond Buyer 20-year municipal bond rate of 3.58 percent for the unfunded benefit payments, was used to measure the total OPEB liability as of June 30, 2017. A blended discount rate of 3.26 percent which represents the long term expected rate of return of 7.75 percent for the funded benefit payments and the Bond Buyer 20-year municipal bond rate of 2.85 percent for the unfunded benefit payments was used to measure the total OPEB liability at June 30, 2016.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB liability as of June 30, 2017, calculated using the current period discount rate assumption of 4.13 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (3.13 percent) or one percentage point higher (5.13 percent) than the current assumption. Also shown is the net OPEB liability as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (3.13%)	Current Discount Rate (4.13%)	1% Increase (5.13%)
School District's proportionate share of the net OPEB liability	\$2,476,476	\$1,844,697	\$1,345,385
	1% Decrease (6.5% decreasing to 4.0 percent)	Current Trend Rate (7.5% decreasing to 5.0 percent)	1% Increase (8.5% decreasing to 6.0 percent)
School District's proportionate share of the net OPEB liability	\$1,281,616	\$1,844,697	\$2,585,776

NOTE 13 - OTHER EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is not paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 263 days for all personnel. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit to a maximum of 65.75 days.

B. Health Insurance

The School District provides life insurance and accidental death and dismemberment insurance to most employees through the UNUM Life Insurance Company. The School District has elected to provide employee medical/surgical benefits through United Health Care of Ohio. The employees share the cost of the monthly premium with the Board. The premium varies with employee depending on the terms of the union contract. Dental insurance is provided by the School District to most employees through the Southwestern Ohio Educational Purchasing Council's Benefit Plan Trust. See Note 17.

Total Long-Term Obligations	\$37,545,805	\$3,835,539	(\$10,979,244)	\$30,402,100	\$463,039

2007 Refunding General Obligation Bonds and Capital Appreciation Bonds

On August 22, 2007, the School District issued \$5,295,000 in school improvement refunding general obligation bonds and capital appreciation bonds, with semi-annual payments due on June 1 and December 1 of each year, and interest payable that began December 1, 2007. The \$5,045,000 in serial term bonds will mature on December 1, 2026. These bonds were partially refunded in fiscal year 2018. The capital appreciation bonds were issued at \$250,000 and have maturities of \$130,000 on December 1, 2018 and \$120,000 on December 1, 2019. For fiscal year 2018, the capital appreciation bonds were accreted \$89,700.

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2018
(Continued)

NOTE 14 - LONG-TERM OBLIGATIONS (continued)

2014 House Bill 264 General Obligation Bonds

On June 30, 2014, the School District issued \$495,180 in energy conservation general obligation bonds with semi-annual payments due on February 1 and August 1 of each year with payments beginning on February 1, 2015. The bonds will mature on February 1, 2029.

2017 Refunding General Obligation Bonds

On August 24, 2017, the School District issued \$3,705,000 in school improvement refunding general obligation bonds with semi-annual payments due on June 1 and December 1 of each year, and interest payable that began December 1, 2018. The \$3,705,000 in serial term bonds will mature on December 1, 2026. The refunding bonds were issued for the purpose of current refunding \$3,705,000 of the 2007 refunded school improvement bonds. These bonds are considered defeased and the liability for the refunded portion of these bonds has been removed from the financial statements.

Principal and interest requirements to retire general obligation bonds outstanding at June 30, 2018, are as follows:

Fiscal Year Ending June 30,	Principal	Interest	Total
2019	\$197,000	\$83,684	\$280,684
2020	207,000	81,716	288,716
2021	517,000	75,338	592,338
2022	524,000	64,648	588,648
2023	535,000	53,809	588,809
2024-2028	2,300,000	104,080	2,404,080
2029	30,000	960	30,960
Total	\$4,310,000	\$464,235	\$4,774,235

All general obligation debt is supported by the full faith and credit of the School District. The School Improvement Bonds will be paid from the bond retirement fund. Energy Conservation Bonds are paid out of the general fund. Compensated absences will be paid from the fund from which the employees' salaries are paid.

At June 30, 2018, the School District's overall legal debt limitation was \$11,479,607 and the unvoted debt margin was \$233,455.

NOTE 15 – LEASES

Capital Leases

In fiscal year 2015, the School District issued \$6,630,000 in Certificates of Participation (COPS). The COPS were issued to finance construction and improvements at the high school building and elementary building, including equipment, furnishings, landscaping and improving the sites and acquiring land and interests necessary. The COPS have a maturity date of December 1, 2041. These are paid from the permanent improvement fund.

The School District leases buildings under a noncancelable lease. The School District made \$388,187 in principal and interest payments on the lease during the 2018 fiscal year. Future lease payments are as follows:

Fiscal Year Ending June 30,	Total
2019	\$390,250
2020	391,800
2021	388,300
2022	389,525
2023	389,725
2024-2028	1,941,625
2029-2033	1,932,500
2034-2038	1,922,100
2039-2042	1,536,200
Total	9,282,025
Less: Amount Representing Interest	(3,252,025)
Present Value of Net Minimum Lease Payments	\$6,030,000

NOTE 16 - JOINTLY GOVERNED ORGANIZATIONS

Miami Valley Educational Computer Association (MVECA) - The School District is a participant in MVECA, which is a computer consortium. MVECA is an association of public school districts within the geographic area determined by the Ohio Department of Education. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of MVECA consists of two representatives from each of the participating members. The School District paid MVECA \$106,060 for services provided during the year. Financial information can be obtained from MVECA located at 330 Enon Road, Yellow Springs, Ohio 45387.

NOTE 16 - JOINTLY GOVERNED ORGANIZATIONS (continued)

Southwestern Ohio Educational Purchasing Council - The Southwestern Ohio Educational Purchasing Council (SWEPC) is a purchasing cooperative made up of over 126 public school districts in 18 counties. The purpose of the cooperative is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges, or other assessments as established by the SWEPC. Each member district has one voting representative. Title to any and all equipment, furniture and supplies purchased by the SWEPC is held in trust for the member districts. Any district withdrawing from the SWEPC shall forfeit its claim to any and all SWEPC assets. One year prior notice is necessary for withdrawal from the group. During this time, the withdrawing member is liable for all member obligations.

Payments to SWEPC are made from the general fund. During fiscal year 2018, the School District paid \$1,950,590 (which includes insurance premiums) to SWEPC. To obtain financial information, write to the Southwestern Ohio Educational Purchasing Council, Ken Swink, who serves as Director, at 303 Corporate Center Dr., Suite 208, Vandalia, OH 45377.

Greene County Career Center - The Greene County Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the seven participating school districts' elected Boards, which possesses its own budgeting and taxing authority. To obtain financial information, write to the Greene County Career Center, Eva Anderson who serves as Treasurer, at 2960 W. Enon Rd., Xenia, OH 45385. The School District paid \$46 to the Greene County Career Center during the 2018 fiscal year.

NOTE 17 - INSURANCE PURCHASING POOL/PUBLIC ENTITY SHARED RISK POOL

A. Insurance Purchasing Pool

Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Program - The School District participates in the Southwestern Ohio Educational Purchasing Council's Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by an 11 member Board of directors. The Executive Director of the GRP, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

B. Public Entity Shared Risk Pool

Southwestern Ohio Educational Purchasing Council's Benefit Plan Trust – The Southwestern Ohio Educational Purchasing Council Benefit Plan Trust (Trust) is a public entity shared risk pool consisting of 55 school districts. The Trust is organized as a Voluntary Employee Benefit Association under Section 501(c)(9) of the Internal Revenue Code and provides medical, dental and vision insurance benefits to the employees of the participants. The Trust is governed by the Southwestern Ohio Educational Purchasing Cooperative and its participating members. Each participant decides which plans offered by the Trust will be extended to its employees. Participation in the Trust is by written application subject to acceptance by the Trust and payment of the monthly premiums. Financial information may be obtained from the Southwestern Ohio Educational Purchasing Council, 303 Corporate Center Drive, Suite 208, Vandalia, Ohio 45377.

NOTE 18 – FUND BALANCE

Fund balance is classified as nonspendable, restricted, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The constraints placed on fund balance for the major governmental fund and all other governmental funds are presented below:

	General	Permanent Improvement	Other Governmental Funds	Total Governmental
Restricted for:				
Debt Retirement	\$0	\$0	\$453,694	\$453,694
Permanent Improvements	0	1,584,151	0	1,584,151
Building Projects	0	0	1,278	1,278
Food Service	0	0	35	35
Ohio School Facilities Maintenance	0	0	315,604	315,604
Extracurricular Activities	0	0	27,957	27,957
Total Restricted	<u>0</u>	<u>1,584,151</u>	<u>798,568</u>	<u>2,382,719</u>
Assigned for:				
Public School Support	122,043	0	0	122,043
Educational Activities	858,241	0	0	858,241
Total Assigned	<u>980,284</u>	<u>0</u>	<u>0</u>	<u>980,284</u>
Unassigned	<u>6,341,224</u>	<u>0</u>	<u>(112,940)</u>	<u>6,228,284</u>
Total Fund Balance	<u><u>\$7,321,508</u></u>	<u><u>\$1,584,151</u></u>	<u><u>\$685,628</u></u>	<u><u>\$9,591,287</u></u>

Greeneview Local School District
Greene County
Notes to the Basic Financial Statements

(Continued)

NOTE 19 - SET-ASIDE CALCULATIONS

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by year end or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year-end set-aside amounts for capital acquisition. Disclosure of this information is required by State statute.

	Capital Improvements
Set-Aside Balance as of June 30, 2017	\$0
Current Year Set-Aside Requirement	239,553
Carryover from Prior Year	0
Qualifying Disbursements	(513,638)
Current Year Offsets	(536,672)
Set-Aside Balance as of June 30, 2018	(\$810,757)
Set-Aside Balance Carried Forward to Future Fiscal Years	\$0

The School District had qualifying disbursements during the fiscal year that reduced the capital acquisitions amounts below zero. For the capital improvements reserve, qualifying expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

NOTE 20 - INTERFUND ASSETS/LIABILITIES, TRANSFERS

	Interfund Receivable	Interfund Payable
Major Fund:		
General Fund	\$11,502	\$0
Nonmajor Funds:		
Title IIA	0	9,182
Title IVA		2,320
Total All Funds	\$11,502	\$11,502

General fund advances are made to move unrestricted balances to support programs and projects accounted for in other funds. Restricted monies are used to reimburse the general fund for advancing monies to other funds due to timing differences in the receiving of monies. When the monies are finally received, the other fund reimburses the general fund for the initial advance.

 (Continued)

NOTE 21 – CHANGE IN ACCOUNTING PRINCIPLE AND RESTATEMENT OF NET POSITION

For fiscal year 2018, the District implemented the Governmental Accounting Standards Board (GASB) Statement No. 75, “Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.” GASB 75 established standards for measuring and recognizing other postemployment benefit liabilities, deferred outflows of resources deferred inflows of resources and expense/expenditure. The implementation of this pronouncement had the following effect on net position as reported June 30, 2017:

	Net Position of Governmental Activities
Net Position at June 30, 2017	\$9,385,483
Adjustments:	
Net Other Postemployment Benefits Liability	(4,386,081)
Restated Net Position June 30, 2017	\$4,999,402

NOTE 22 – CONTINGENCIES

A. Grants

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2018, if applicable, cannot be determined at this time.

B. Foundation Funding

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year-end. The FTE review resulted in the School District receiving an additional \$28,837 from the State during fiscal year 2019.

Net OPEB Liability

Changes in Assumptions – SERS

Amounts reported for fiscal year 2018 incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

Municipal Bond Index	
Rate:	
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Fiscal year 2018	3.63 percent
Fiscal year 2017	2.98 percent

Changes in Assumptions – STRS

For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB *Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

Also for fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019.

Jamestown, Ohio 45335

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Greeneview Local School District, Greene County, (the School District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated June 3, 2019 wherein we noted that the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Therefore, unidentified material weaknesses or significant deficiencies may exist. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings that we consider a material weakness. We consider finding 2018-001 to be a material weakness.

Compliance and Other Matters

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

School District's Response to Finding

The School District's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not subject the School District's response to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

**SCHEDULE OF FINDINGS
JUNE 30, 2018**

FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS
--

FINDING NUMBER 2018-001

Material Weakness – Accuracy of Financial Reporting

In our audit engagement letter, as required by AU-C Section 210, *Terms of Engagement*, paragraph .06, management acknowledged its responsibility for the preparation and fair presentation of their financial statements; this responsibility includes designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements free from material misstatement, whether due to fraud or error as discussed in AU-C Section 210 paragraphs .A14 & .A16. Governmental Accounting Standards Board (GASB) Cod. 1100 paragraph .101 states a governmental accounting system must make it possible both: (a) to present fairly and with full disclosure the funds and activities of the governmental unit in conformity with generally accepted accounting principles, and (b) to determine and demonstrate compliance with finance-related legal and contractual provisions.

The School District prepared its annual financial statements in accordance with Generally Accepted Accounting Principles (GAAP). Due to lack of appropriate controls over financial statement compilation process, the School District's fiscal year 2018 financial statements contained the following errors related to net pension liability accounts which were determined to be material and required an audit adjustment to properly present the accompanying financial statements:

1. The balance of deferred outflows of resources - pension was overstated by \$2,125,671 on the statement of net position.
2. The balance of deferred inflows of resources - pension was overstated by \$3,423,782 on the statement of net position
3. The above noted variances resulted in the pension expense being overstated by \$1,298,111 on the statement of activities. The breakdown of pension expense into various expense categories reported on the statement of activities has been reported to the management and those charged with governance in summary of identified misstatements.

Additionally, deferred inflow - pension and deferred outflow - pension amounts reported on the statement of net position did not agree to the accompanying notes to the financial statements.

The School District should establish and implement procedures to verify the accuracy of amounts reported in the financial statements in accordance with applicable accounting standards. A review system should also be in place to identify and correct any significant errors that occur during the financial statement compilation process. Failure to do so could result in material misstatements going unnoticed and users of financial statements using incorrect amounts to make decisions about the School District's finances.

Official's Response: The School District will be addressing the pension misstatement from Fiscal Year 2018's GAAP statement found on the Summary of Identified Misstatements by making the recommending posted entries in WebGAAP. This should correct this issue for the Fiscal Year 2019 statements.
