## Vision Screening Referral Letter

Dear Parent:

Our school district routinely performs vision screenings to identify students who have vision problems or might be at risk for vision problems. The vision of students is vital, especially for classroom learning, so it is important to identify any barrier to learning that can be corrected.

Your child's school vision screening results suggest that he/she should have a complete professional eye exam. It is important to your child's school success to have a professional evaluation. If a problem is found and corrected, it may help your student do better in his/her schoolwork. Just because there are no complaints about vision, you should not assume that your child has perfect vision. Often children do not know they should be able to see better than they do.

If you need help finding a local eye doctor, please contact me at

---

Services may be available for those unable to pay. Call me to discuss if you need help with the cost of the professional eye exam. Enclosed is a referral form to take to your eye doctor. It is important for us to know the outcome of the professional examination, so please return the form to us with the results of the exam.

Sincerely,

School Nurse
