The **Bike Safety Program for Lockwood Students** will offer students hands-on lessons with instructors who ride with students from their houses to school to teach the route and what they would need to know to stay safe. Completion of this program will meet the bicycle safety training program requirement for those students who wish to participate in the [NSD Bike to School program](#) and meet all other expectations.

Participants should have good judgement when on or near public roads where vehicles are present, and be familiar with basic street safety, such as when to yield to or cross traffic. Adult participation is recommended, but not required for a child's participation in this program.

This course includes bicycling on public roads where traffic is present. Riding near and through traffic patterns can be a dangerous activity involving multiple risks of injury and/or even death. Careful consideration should be given to the risks and dangers associated with this activity before making the decision to participate.

The Lockwood PTA is not responsible or liable for accidents, injuries, or medical expenses that may occur due to participation in this activity. In the event it becomes necessary to obtain emergency care for a participant, 911 may be called. Participants and their families are responsible for all expenses incurred because of an accident, injury, or unforeseen circumstance that may arise due to participation in this activity.

Parent/Guardian Acknowledgement: I am comfortable with my child's judgement and abilities when near and/or on public roads where vehicles are present. I acknowledge that I have read and understand the above information and grant permission for my child's participation in this event. I agree to hold and save harmless the Lockwood PTA and its volunteers for any claims, suite, or damages (including but not limited to defense and indemnification) which might result from my participation or my child's participation in any fashion in this bicycle riding course.
