

School Improvement Stakeholder Sessions

The Texas Education Agency (TEA) has identified the following campuses under the 2022 State Accountability System for targeted support and improvement or is requiring campuses that exited this identification but are current participants in the BISD TEA 1003 ESF School Improvement Grant to continue intervention activities.

A public meeting is required* to discuss the campus performance, campus performance goals and interventions, and solicit input for the campus Targeted Improvement Plan. These meetings will be held at the campus locations and all interested stakeholders are invited to attend.

Besteiro Middle School (TEA 2022 Targeted School)
