## COVENTRY BOARD OF EDUCATION

---

---

To: Coventry Town Council  
From: Coventry Board of Education  
Date: February 19, 2020  
Re: Proposed Fiscal Year 2021 Budget

---

The Coventry Board of Education presents its proposed budget for Fiscal Year 2021 for the Coventry Public Schools. Development and management of a budget that serves the education needs and academic achievement of Coventry's students are responsibilities that the Board takes very seriously.

On January 9, 2020, the Superintendent of Schools presented a comprehensive budget proposal to the Board of Education for FY2021. It was the result of goals to balance the education services needed to ensure student success and academic rigor, continued changes in curriculum guidelines from the State Department of Education, increased expectations for education from the community, and maintenance of aging facilities.

Throughout January and February, the Board met to discuss the FY2021 budget. Members reviewed and discussed various components of the Superintendent's proposal.

The recommendations enclosed are dedicated to supporting a budget that keeps to the district's vision, mission, and goals. It honors our contractual obligations, provides facilities maintenance, and supports state and federal mandatory requirements. On February 18, 2020, the Board made and "unanimously" passed the following motion: "To approve the FY2021 budget at \$28,066,606 – a 1.96% increase over the FY2020 budget."

In closing, please know that the submitted proposed Coventry Public Schools FY2021 budget is a blend of proactive and long term strategic planning for educational services for all of Coventry's students and their academic achievement while respecting the economic realities of our times.

The Coventry Board of Education appreciates the feedback and dedication of our community in our shared goals for Coventry's students as we work together to serve our community.

Coventry Public Schools  
1700 Main Street  
Coventry, CT 06238

January 9, 2020

Dear Board of Education Members,

In Coventry, we pride ourselves on maximizing resources and finding creative ways and alternative funding sources to advance the district and improve student achievement results. Despite the challenges associated with conservative budgets, which in most years only allowed current service and resource levels to be maintained, we have made outstanding progress. As highlighted by the State Department of Education, local media, and even national publications such as U.S. News and World Report, our assessment results show we are outperforming numerous districts near Coventry and across the state. Further, Coventry is consistently surpassing districts that have significantly greater resources. As noted in previous budget documents, we have shifted our approach to data decision making at all levels. Using data as the foundation for all decisions is no longer a new concept for Coventry, but part of the fabric that makes us a lighthouse district. This approach has proven to be highly beneficial on many levels and removes the potential for bias coming into play when making decisions about the elimination or modification of a program. Despite our successes, one must be cautious and recognize when resources have been maximized. There is always more that can be done and resources and programs must be continuously evaluated. However, the district must now develop budgets to support our talented staff and maintain the highly effective programs we have put in place. This cannot be accomplished by a budget that significantly reduces resources and would result in the elimination of programs that our students need. A simple review of the district's achievement history validates that sizable reductions to the school budget set the district back greatly and such setbacks take decades from which to recover.

Historically, budgets developed over the past several years have been highly conservative. During these years, the community has seen the district's state assessment results improve greatly. Again this year, we have achieved the following: Ranked 8 out of 35 in English Language Arts and 6 out of 33 in Math in our District Reference Group (DRG) in Grades 3-8 on the Smarter Balanced Assessment Consortium (SBAC). This places Coventry Public Schools in the top 20 percent of all districts in the state in both SBAC Literacy and Math. Our high school has been equally successful with state assessment results having us ranked at number 1 in our Scholastic Aptitude Test (SAT) DRG comparison on Evidenced Based Reading and Writing and ranked 2 in our SAT DRG comparison on Math. To continue to make progress, we must, at a minimum, maintain current resource levels. To this point, I have spent the last three months closely examining all budget lines at all levels. As a result of the hard work of many, I recommend an increase of 1.39% for the Fiscal Year 2021.

### **System Goals**

1. Identify, define, and measure the critical skills and attributes that are required for success and align systems to continuously improve student performance and achievement.
2. Maintain and promote a positive and respectful learning community.
3. Recruit, retain and develop high quality staff at every level.

### **District Refinements**

Guided Reading Library (G. H. Robertson School, Grades 3-5)

- As we shift our instruction and assessment to better align with the Fountas and Pinnell level system of readers, we are working to increase students' reading achievement and reading levels along the A-Z continuum. Currently, teachers are grouping students by reading level, as well as by skill needs. However, to find multiple copies of an appropriately leveled text can be challenging. Each grade level has its own materials, but those are inconsistent from grade to grade and often consist more of chapter books than brief texts for small group instruction. As a result,

teachers are struggling to find appropriately leveled texts in which they can provide short term, intensive instruction. The Guided Reading Library aligns with the Benchmark Assessment System (BAS) and our Leveled Literacy Intervention (LLI). With the purchase, training, and implementation of this guided reading resource, all grade levels would be consistent with our school-wide approach of leveled reading for guided reading instruction. This would mean a coherent system of reading instruction from Tier I through Tier III.

#### Expansion of Chinese Language Program (GHR/CNH/CHS)

- For the past two years, Coventry Public Schools has self-supported the Chinese program with a .8 FTE teacher. This budget proposes an additional .2 FTE (from .8 to 1.0 FTE) for the Chinese teaching position for the ongoing expansion of our Chinese program. Mandarin Chinese will continue to be taught to all 6th graders and is offered as a world language option to students in grades 7 and 8. We have also implemented Chinese I and Chinese II at Coventry High School, and we will be adding Chinese III in 2020-2021. In addition, we will offer lessons in Chinese culture and language to students at the G. H. Robertson School and at Hale Early Education Center. This early exposure will foster student interest in continued study of Chinese, which the United States government has identified as a “critical language.”

#### Enhancement of Social, Emotional, Behavior Support (District-wide)

- The need for behavioral support and expertise continues to increase as more students experience social, emotional, and behavioral challenges. The .4 FTE Board Certified Behavior Analyst (BCBA) currently in district services HEEC, CNH, and CHS working two days per week. BCBAs conduct behavior assessments, analyze data, train others, write and revise behavior-treatment plans, and oversee those treatment plans. The development and revision of behavior-treatment plans is time consuming and requires extensive consultation time with staff. In addition, our specialized programs in district require thorough behavioral documentation to meet entrance criteria. To support the level of behavioral services students need, a full time position is required. This proposal increases this position from a .4 FTE to a 1.0 FTE, so that Coventry has an effective tiered service delivery model Pre-K through grade 12 and provides support to our 18-21 Transition Program.

#### ClassLink (Technology)

- ClassLink will provide single sign-on access to district approved applications, saving time and helping to improve implementation and usage of curricular and business resources. This system works on all devices. With single sign-on, students and staff will have a dashboard that provides quick, one-click access to vetted and approved applications within the district, saving instructional time and streamlining access. This will maximize instructional time for students and teachers in that students will only have to login one time to access all Coventry online curricular resources, which will be especially impactful at the lower grades. This can be coupled with the specific filtering of applications/websites to enhance security through minimizing inadvertent access to unapproved programs. In addition, the included analytics will help show which programs are being used most, helping inform future budgetary decisions.

#### EdPuzzle Premium (Technology)

- The current district-based, free version of EdPuzzle allows us to create and share district resources within the product. It is a tool used currently within the district that allows teachers to integrate questions within videos to enhance engagement and conduct assessments. With the free version, teachers are limited in how many videos they can have and share. EdPuzzle Premium is an enhanced version which will allow us to create shared district resources to ensure an assured curricular experience across classrooms.

#### District Security Specialist (District-wide)

- The need for support of district-wide security has greatly increased due to the district’s aggressive and comprehensive three year plan to improve safety measures. Currently the district does not have a specific person who oversees all district security initiatives. A combination of personnel divide responsibilities to oversee district emergency operation plans, as well as facility infrastructure changes and/or adjustments regarding

security. Due to multiple roles, consistency and efficacy are not always uniform in district security initiatives. A District Security Specialist would be able to coordinate security and safety measures for the entire district.

#### Ecollect

- Ecollect and Ecollect Enrollment Express are programs through PowerSchool that can be used for new and returning student enrollment (to replace PowerSchool Enrollment/InfoSnap). This program will allow us to setup forms for parents to update contact information as needed, ensuring schools have the most up-to-date information. In addition, Ecollect will simplify the transition for new parents to the PowerSchool Parent Portal, as accounts are created at registration time. With Ecollect, the district will have the ability to setup an upload of documents, which will help to streamline the registration process for parents.

#### Securly Premium

- Securly Premium features provide enhanced security through Google Docs and Gmail monitoring, including images with real time human intervention and consultation with schools as necessary. Schools can set “custom confidence scores” for initiating alerts. In addition, enhanced features also allow parents to modify filtering for home use. This package also includes ChromeTools, which allows teachers to quickly push URLs to students, develop site collections, and initiate screen locks during instruction to keep students’ attention.

#### **Conclusion**

As has been the case with previous budgets prepared during my tenure, this proposal provides the necessary services and resources to ensure we prepare all students to be college and career ready when they graduate. It is my hope this budget remains, at a minimum, as presented to make certain we give the children of Coventry the needed skills and resources to be successful as they take on the next level of challenge when they leave our district.

Sincerely,

David J. Petrone, Ed.D.  
Superintendent of Schools

## **FY2020-2021 BUDGET DEVELOPMENT ASSUMPTIONS**

1. Contract percentages for each union:
  - Custodians – 2.0% GWI plus step
  - Nurses – 3.0% Placeholder
  - Teachers – 1.15% GWI, ½ step. If at Max step, 2%
  - Administrators – 2.25% GWI plus step
  - Secretaries – 3.0% Placeholder
  - Para Educators – 3.0% Placeholder
2. Health Insurance – medical includes a 5% premium increase, dental no increase, all employee Union shares increase
3. Workman's Compensation – No increase over current premium
4. Legal & Audit – Auditing fees increased for biannual OPEB revaluation
5. Utilities
  - Gasoline/Diesel – budgeted at \$2.09/gal for 40,000 gals
  - Electricity – Supply cost per \$0.077/KwH
  - Heat Energy – budgeted at \$2.09/gal for 35,000 gals and \$105,422 for Natural Gas.
6. Property & Liability – 3.0% increase over current premium plus \$2,500 for new vehicles
7. Special Education, Excess Cost – Reflects a 3.0% increase in NCEP and State funding at 73.0%

**G.H. Robertson Intermediate School**  
**Proposed Budget for 2020-2021 School Year**

The proposed 2020-2021 budget for the G.H. Robertson school will continue to move us forward as we embrace our state, district, and school initiatives, with slight reallocations of funds among series based on a thorough budget review of last year's budget.

Beginning with our 400 series, this budget supports the ongoing use of integral parts of our instruction and assessment system, including PowerSchool, REFLEX math, and ALEKS math. REFLEX math is used by all GHR students to support their fact fluency in addition, subtraction, multiplication and division and can be utilized both at school and at home. ALEKS math is a comprehensive math program that serves as an intervention resource and to accelerate students with a math curriculum, which is customized and adapts to each student based on their progress. These programs have truly enhanced the personalized math approach that we are able to provide to students, as they remediate any existing gaps in math skills and concepts while concurrently pre-teaching skills for the classroom.

The majority of the budget falls within the 600 series, Instructional Supplies. Over the past few years, our instructional focus areas, and thus our budget focus areas, have resulted in shifts due to the new standards. As a result, funds within the 600 series have been shifted to support content area literacy, Eureka math, Social Emotional Learning, and Next Generation Science Standards (NGSS). Our on-going implementation of Eureka Math requires the use of workbooks, printed materials and manipulatives. We are also implementing Project Lead the Way for all Grade 4 students, which requires an annual site license and consumable materials. The implementation of NGSS in all grade levels has necessitated additional materials, including consumables, and content-based informational text to support the building of content knowledge while addressing the standards. Finally, in collaboration with colleagues, we continue to seek quality print and digital resources to properly promote continuous improvement in teaching and learning.

Additionally, due to our implementation of a revised reading curriculum and new resources in Grade 3, we are looking to support Guided Reading with the Guided Reading Collection. These short, leveled texts with multiple copies will help support small group instruction with skill development at differentiated reading levels and are aligned with our Leveled Literacy Intervention and Benchmark Assessment System.

All of our initiatives continue to warrant professional development. Coventry is fortunate to have talented professionals to facilitate professional learning throughout the year in the form of coaching days, team times, intervention teaming, and other structures that promote collaboration and professional development. This is vital to continue our success and refine our practices.

**COVENTRY GRAMMAR SCHOOL**  
**Proposed Budget for the 2020-2021 School Year**

Coventry Grammar School's proposed budget aligns with the District Strategic Plan and the Superintendent's Goals. It is the result of work within the school and at the district level. Leadership from Grade Level Leaders and District Committee Members assisted with the establishment and prioritization of goals. All budget decisions are rooted in what is in the best interest of students and student growth and achievement.

The Coventry Public Schools embrace the most relevant and forward thinking practices. At Coventry Grammar School this translates to the following budget items:

- ❖ Additional Benchmark Assessment System kits.
- ❖ Increase quality text in classroom libraries.
- ❖ Revise learning spaces to adapt to Portrait of the Graduate competencies, such as collaboration and communication.
- ❖ Participate in professional development to address the achievement gap between students in general education and those with special needs.
- ❖ Additional secretarial hours to improve service and communication to parents, students and staff.

This list highlights the items that are in the forefront of the 2020-2021 budget. The work of meeting the needs of all students is accomplished by means of Instructional Rounds, Faculty Meetings, Early Release and Full Release Professional Development Days, Literacy and Mathematics Coaching Days and more. We continue to support staff seeking expertise through attendance at state and national level conferences and workshops.

Ronda Carrie, Principal

Capt. Nathan Hale Middle School  
Proposed Budget for the 2020-2021 School Year

The proposed Capt. Nathan Hale Middle School (CNH) Fiscal Year 2021 budget was developed based on our continued commitment to providing Coventry students and families with exceptional middle school academic programming. In keeping alignment with district goals, CNH's budget represents our belief in fostering student engagement, and supporting students' growth for success in high school, college and future career paths. Critical thinking and problem solving, developing personal responsibility, encouraging collaboration and effective communication, as well as developing students' creativity and adaptability skills are all necessary competencies for our middle school students. We provide our students with a standards-based curriculum that encourages STEM (science, technology, math and engineering) connections across all other disciplines. It is necessary to provide our teaching staff with ongoing and differentiated professional learning opportunities that support effective classroom instruction, assessment and student achievement.

As we continue to prepare our middle school students for high school and future positions in the workforce we must focus our goals on the necessary resources, and learning and development that are needed for our students to demonstrate global competence in an increasingly innovative and information rich society. The integration of digital technology, which includes various computer science applications in our STEM and technology education classes are ways we are increasing students' technological and intellectual advancement, and is a critical component of our middle level program. The FY2021 budget was careful to focus on maintaining services with consideration given to reallocating funding where appropriate with the goal to align all programming with our current standards, 21<sup>st</sup> Century skills, and our vision for Coventry's Portrait of the Graduate.

Staff development in the area of utilizing digital resources and increasing students' college and career readiness skills will continue through teacher training on use of 1:1 student technology, Google Apps for Education, and through incorporating the use of common 21<sup>st</sup> Century standards-based learning rubrics. Included as part of CNH processes that are integral to supporting student and staff achievement: ongoing curriculum revisions, teacher evaluation data and support, and encouraging individual professional growth for teachers as well as building based initiatives.

It is the goal of CNH to uphold the mission of the Coventry Public Schools in preparing every student for life, learning and work in the 21<sup>st</sup> Century. This budget allows for the continuation of supporting student achievement in a digitally progressive environment as well as providing teachers the necessary access to continue their professional growth as 21<sup>st</sup> Century educators.

## Budget Narrative Coventry High School FY2021

The Coventry High School budget for the fiscal year 2021 has been designed to align with the district and school mission of preparing every student for life, learning and work in the 21<sup>st</sup> Century. We continue to support initiatives that align our teaching and learning to the Connecticut Core Standards, support students to be college and career ready, and provide a safe and positive school environment. In order to support this mission, our budget priorities are focused on 21<sup>st</sup> Century skill development, preparing students for the SAT, the transition to the Next Generation Science Standards, and the continued support of our extra-curricular activities

We continue to support the district efforts to foster 21<sup>st</sup> Century Skill development in all of our students through expanding our use of technology to support student learning. In the 2020-21 school year, Chromebooks will continue to be provided to all of our students in grades 9-12. In support of this investment, we have budgeted for online textbooks and continued professional development for our teachers in effective use of technology, Apps for education and the Google Suite to enhance learning.

Preparing students for the SAT continues to be a budget priority for the 2020-21 school year. School and district personnel are using data from the PSAT and other assessments to identify needs for both school wide and individual student growth. Both Mathematics and English curriculum are continuing the revision process to align with both Connecticut Core Standards and the skills assessed in the SAT. We have budgeted for online textbooks, professional development through the College Board, and continued support for our SAT Prep courses.

As additional support for students, we are continuing our implementation and professional learning for the Next Generation Science Standards. We have budgeted for professional development, instructional materials, and equipment for our continued transition to the inquiry and engineering design process, which is at the heart of the NGSS.

After review of our equipment for our athletics, we will continue our schedule of replacement of equipment, supplies, and uniforms to support the athletic development and safety of our student athletes.

The proposed 2020-2021 budget for the Pupil and Staff Support Services (PSSS) Department supports the individual learning needs of our students as well as ensures the maintenance, enhancement and evaluation of our high quality programs and district initiatives to ensure we are supporting all of our students for life, learning, and work in the 21<sup>st</sup> century.

In the (300 series), Coventry Public Schools has become known by surrounding districts as having an excellent elementary ABA program. Continued funding for programing, training and consultation with EASTCONN is essential to further enrich this program. Due to an increase in need, additional funding has also been proposed for specialized counseling at the high school. With Coventry's changing needs, the PSSS budget proposes the allocation of funds in the 100 series for a Board Certified Assistant Behavior Analyst.

With the realigning of the Coventry Academy and the Transition Programs, it is necessary to increase the contracted services (400 series) for web-based curriculum materials and special education licensing.

Coventry's special education transportation (510) contract will be open for bid this winter. The presented budget proposes a minor increase per day per vehicle. Outplacement tuition and transportation reflects changes due to graduating students, students that have relocated and others that have transitioned to public magnet schools.

Instructional supplies (611, 690) increases are due to supplies for both Coventry Academy and the Transition Program at Patriots Park. There is also a decrease in this line due to a one-time facilities expense that was budgeted for in the 19-20 budget.

The proposed PSSS budget allows us to provide a continuum of services in a fiscally responsible way to our 245 students as their needs are becoming more diversified.

Respectfully submitted,

Beth Giller  
Director of Pupil and Staff Support Services

## **Physical Plant and Facilities**

### **Proposed Budget for 2020 - 2021**

When developing the 2020 - 2021 Warehouse budget the focus was to look at the district needs in the coming year.

The majority of the increases for the Warehouse budget come under the 500 and 600 series. In the 520 account Property and Liability had an increase of 3.8 % due to contract increases. Under the 620 account, heat and energy, there is an increase of 10.74% based on the increased cost of heating fuels. Also, the 613 account Maintenance supplies has an increase of 2.15%. This increase is due to increased in-house work and aging buildings.

The 430 account, contracted services, has an increase of 3.13% due to additional services such as tree service, water testing, and increases in contracts. Overall the 400 account has a small decrease of .07%. This offset is from savings in Utilities and Disposal services.

The Warehouse budget has a 2.5% increase over last year, however I feel this will help insure that the District needs are met for a safe and comfortable learning environment for both students and staff.

Central Office  
Proposed Budget for FY2020-2021

Dear Board of Education Members,

The Central Office budget includes adjustments from current funding levels in certain accounts that are forecasted to have surpluses/deficits in FY2020. USI, our Health Insurance broker, has suggested a 5% in our Health Insurance premium rates, final renewal premiums will be negotiated in the spring of 2020. The Boards' contribution into the Coventry Pension Plan has been increased to the actuaries recommended contribution level. Unemployment Compensation has been decreased as reduced claims are anticipated. Workers' Compensation includes no increase over the current year's premium. Legal & Audit has been increased due to the biannual OPEB revaluation. The request for Student Transportation includes a 3.95% contractual increase. The Diesel Fuel request has been adjusted to allow for the purchase of 40,000 gallons at \$2.09 per gallon.

Robert Carroll,  
Director of Finance & Operations
