

Campus Improvement Plan

McGill Elementary 2022-2023

Goal #1: Student Engagement

What McGill Is Doing:

- 1) Teachers utilize a corrective action planning process, individually and in PLCs to analyze data, identify trends in student misconceptions, determine root cause when students have not learned the concept, and create plans to reteach.
- 2) Provide high quality, highly effective, intentional and research based professional learning opportunities aligned to district core commitments in order to increase quality of instruction and student achievement.
- 3) Utilize district assessments to assess needs in order to develop individual learning plans (MAP, NSGRA, mClass, common assessments).
- 4) Campus instructional leaders review disaggregated data to track and monitor the progress (closing the gaps) of all students at all levels, including students with disabilities, English Learners, and all other student groups.
