DeansList

Welcome to DeansList!!

Furthermore Dean's List notifies parents with phone calls, email, text messages, sends home absence letters, uniform violations and more. Dean's List will be taking the place of Class Dojo for communication etc.

Parents please register for Dean's List and begin using it.

Chronic Absenteeism

Attendance Matters All Day Every Day!

The State of Michigan had defined students as chronically absent if they missed more than 10 days of school within a given school year. • When students are chronically tardy it impacts their achievement • Being tardy impedes student learning and they miss out on instruction which can negatively impact their grade • Research indicates when students are chronically tardy have lower GPAs, lower scores on standardized assessments, and lower graduation rate.

Primary Chronic absenteeism rate the first month of school is: **40% the goal is to decrease this rate by 15% by the end of October please send students to school daily and on time, when students are tardy they are missing the most important subject which is reading, and when they are absent they are missing all subjects.**

Read & Respond and C3 Homework

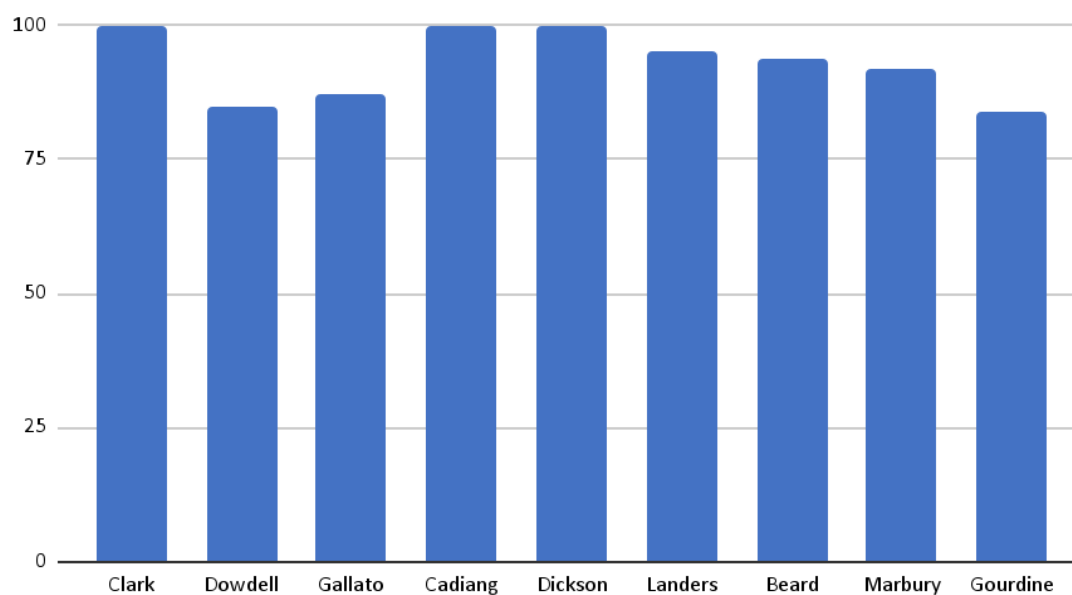

The expectation is for students to complete homework every night and to return every day for teacher feedback. Please make and take the time now to push students on expectations with quality of work and accountability with turning in every day. The goal is for each class to attain a 100% return rate on homework at the end of the week. Here are the results of last week's homework!

A big shout out to those classes below who had 90% or higher:

Five reasons to enroll your Child in Martial Arts:

- 1. Physical Fitness:** Just like with adults, one of the most common reasons for involving a child into a martial arts class is fitness. Children already enjoy some running, and more and more children are spending a lot more time in front of the television, playing video games and using a computer.
- 2. Life Skills:** Another popular reason for enrolling children in the martial arts is to develop "life skills". These skills include discipline, self-control, patience, confidence and courage etc.
- 3. Self Defense:** Self defense is the most obvious reason that should come to mind when considering enrolling a child in the martial arts. The focus of a good children's martial arts class, while still teaching self defense movements, should be on conflict resolution, personal responsibility and healthy avoidance.
- 4. Behavior Issues:** Many parents turn to the martial arts when their children are acting out in school and home. These parents are looking for help improving attention span, respect, obedience and self control. The structure of many martial arts classes can greatly aid in these areas.
- 5. Safe Physical Activity:** Many parents are just seeking a safe, wholesome, useful activity for their child to occupy some of their free time. Martial arts will make them feel and follow through on goals. Whatever reasons you have for enrolling your child in a martial arts class, be sure to discuss your goals with your child, and come to an understanding that will make both of you happy.

Parent Tip

1. Keep distractions to a minimum. Students should find a quiet place to be able to complete their work.
2. Make sure students do their own work. Homework is reinforcement of the skills students are learning in school. Parents should make suggestions and help with directions.

3. Praise their efforts. Celebrate your child's effort and success. Post their grades up within your home.

Important:

- **Masks are required each and everyday for students as it a part of their uniforms**
