

Dear Parent or Guardian,

After June 16, 2022, you will be able to access your child's scores for STAAR EOC at the following website: <https://www.texasassessment.gov/>.

To access the scores you will need your child's date of birth and unique access code.

There are two places you can locate your child's unique access code.

1. On [Texas Assessment](#) , you can select "Find My Access Code". You will need to input your child's first name, SSN or S-number, and birth date.
2. On your child's Home Access Center page. Select the Registration tab at the top of the page. Under Testing Resources you will find your child's Unique Student Portal Code along with a direct link to the Texas Assessment website.

For additional information on STAAR please visit: [Assessment Resources for Students and Parents | Texas Education Agency](#).
