President and Members of the
Board of Education
Moline-Coal Valley School District No. 40
Moline, Illinois 61265

The Comprehensive Annual Financial Report of Moline-Coal Valley School District No. 40, Moline, Illinois, for the fiscal year ended June 30, 2020 is hereby submitted.

The Superintendent of Schools and the Chief Financial Officer are responsible for all financial transactions of Moline-Coal Valley School District No. 40 and for the contents of this report. We believe the data, as presented, is accurate in all material respects, is presented in a manner designed to present fairly the financial position and results of operations of the District as measured by the financial activity of the various funds, and that all disclosures necessary to enable the reader to gain the maximum understanding of the District's fiscal affairs have been included.

The comprehensive financial report is presented in three sections: introductory, financial and statistical. The introductory section includes this transmittal letter, a list of the members of the Board of Education, a list of principal officials, and the organizational chart. The financial section includes the basic financial statements and schedules, as well as the auditors' report on the financial statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

## History of the District

Moline-Coal Valley School District No. 40, a unit (pre-kindergarten through 12th grade) school district, was established in 1873 in the City of Moline, which is located on the Mississippi River approximately 170 miles west of Chicago in Rock Island County, Illinois. Moline is the headquarters of Deere and Company. As the farm implement manufacturer grew, so did the City and the school district. Enrollment has declined slowly over the past 10 years. District enrollment ranged from 7,423 in the 2010-2011 school year to 7,243 in the 2019-2020 school year.

Washington (Central) School was the first building erected in 1873 at a cost of $\$ 25,000$. Other schools soon followed, including the first Moline High School in 1894. The high school was replaced with a new school in 1915 and later with the current Moline High School in 1958, which now has approximately 2,100 students. In 1928, Wharton Field House was constructed and became part of the high school athletic facilities with Browning Field. John Deere and Calvin Coolidge Junior High Schools were constructed in the early 1930s for grades seven, eight and nine. Woodrow Wilson Junior High School was built in 1962.

In the early 1980s, the District consolidated its facilities to adjust for reduced enrollment to 9,000 students and for operating efficiency, by closing eight of its 20 neighborhood elementary schools and Coolidge Junior High School. Moline High School became a four-year high school and John Deere and Woodrow Wilson schools became two-year (grades seven and eight) middle schools. Jane Addams Elementary School was reopened in 1992. Jefferson Elementary School was reopened in 1996 as Jefferson Early Childhood Center for pre-kindergarten students. Coolidge became the site of the Alternative High School, the Regional Office of Education and the District maintenance and support offices

In 1952, the Village of Coal Valley schools were annexed into Moline-Coal Valley School District No. 40. Bicentennial Elementary School, built in 1976, became the newest of the 13 District elementary schools located in Coal Valley to the south of Moline and across the Rock River. In 2008, the District finished reconstruction and expansion on Bicentennial Elementary School to accommodate the entire K-6 students from both Horace Mann Elementary and Bicentennial Elementary into a new school. In January 2009, the students moved into the new Bicentennial Elementary.

In 2010, the School District engaged in the largest capital project, in terms of bond sales, to renovate the two middle schools to accommodate the move of sixth graders from the elementary schools. In 1931, John Deere Middle School was built with 96,557 square feet for a cost of $\$ 560,000$. In the spring of 2010, construction was started on a new gymnasium, fitness center and ground level cafeteria, geothermal, and renovation to the entire existing building. In all, 11,963 new square feet were added. The total cost of the renovation and new construction was $\$ 15,600,000$. The new total square footage of the building is now 108,520. In 1961, Wilson Middle School was originally built with 103,622 square feet for a cost of $\$ 1,943,625$. In the spring of 2010, construction was started on a new science wing, fitness center, geothermal, and renovation to the entire existing building. In all, 9,388 new square feet were added. The total cost of the renovation and new construction was $\$ 9,700,000$. The new total square footage of the building is now 113,010. Both Middle Schools now provide educational services for sixth, seventh and eighth grade students.

In 2013 the School District started a \$17,300,000 expansion of Hamilton Elementary School to a four-section K-5 elementary attendance center. Beginning with the 2015-2016 school year, new boundaries were drawn to improve the educational process for elementary students throughout the district through more balanced class sizes, increased grade level collaboration, and better alignment of educational resources. The expansion increased the square footage of Hamilton from 17,075 square feet to 85,619 square feet.

Starting with the 2015-2016 school year, Garfield and Ericsson Schools were closed as attendance centers. Ericsson was sold in June 2015. Garfield was sold in June 2016.

In 2018, bonds were sold in the amount of $\$ 22,000,000$ for multiple projects in the District, including an HVAC upgrade at Moline High School, a performing arts center at Moline High School, renovations at Franklin Elementary School, LED lighting, and parking lot resurfacing. The Bartlett Performing Arts Center was completed in 2019 at a total cost of $\$ 12,200,000$. The project was funded by the Bartlett Family Trust (approximately 75\%) and the bond sale (approximately 25\%).

In 2019, bonds were sold in the amount of $\$ 14,000,000$ for a PE Facility at Moline High School. This project is estimated to be completed by the end of the 2020-2021 school year.

District administrative offices are located at Allendale, a 23-room home donated to the District in 1933 by Mr. and Mrs. Frank Allen. Willard Elementary School, constructed in 1899, is the oldest of the District schools. All schools are in compliance with the Life-Safety Code for Illinois schools, as the result of extensive modifications and improvements.

Citizens and businesses of the District provide 49.50\% of district revenues in the form of local property taxes. Referenda were approved by voters of the District in 1992 (operations and maintenance purposes rate change from $\$ 0.54$ to $\$ 0.75$ per $\$ 100$ equalized assessed valuation) and in 1987 (educational purposes rate change from $\$ 2.55$ to $\$ 3.27$ per $\$ 100$ equalized assessed valuation).

Moline-Coal Valley School District No. 40 enjoys strong support from active Parent-Teacher Association/Parent-Teacher Organizations in most of the schools. The Moline Public Schools Foundation raises funds through corporate and personal pledges and other annual fundraising activities to support schools. Recent funds supported upgrades to all the Elementary Computer Labs including student assessment/instructional software, as well as other specific grants to teachers to advance student learning. For 2019-2020, fundraising from all sources and organizations generated $\$ 255,678$ in funds for the schools.

## Reporting Entity

The financial statements include all funds that are controlled by or dependent on the Board of Education of the District. The District does not exercise oversight responsibility over any other entity and thus does not include any other entity or a component unit in this report. Additionally, based on consideration of oversight responsibility, scope of public service and special financing relationships, the District is an independent entity, not included as a component unit of any other reporting entity.

## Economic Condition and Outlook

Moline and Coal Valley, Illinois, are part of the "Quad-Cities" Metropolitan Statistical Area (includes Davenport and Bettendorf, Iowa, and Rock Island and East Moline, Illinois, and other contiguous communities), which has a population of nearly 400,000. Moline-Coal Valley School District No. 40 has a population of 45,079 and includes an area of 27.88 square miles.

After multiple plant closings and layoffs, as a result of the overall decline in the farm economy in the early 1980s, the economic conditions and outlook for the Moline-Coal Valley School District No. 40 remains in line with the national economy. The unemployment rate for Moline has decreased from $9.1 \%$ in 2010 to $4.8 \%$ in 2019. City of Moline building permits totaled $\$ 947,494,390$ in the past 10 years or an average of $\$ 94,749,439$ per year. As a result of this significant construction, the Moline-Coal Valley School District No. 40 assessment base (one-third of market value and excluding \$51,650,841of Tax Increment Finance District assessed value) has increased from $\$ 836,717,373$ in 2010 to $\$ 877,341,626$ in 2019 , or $4.86 \%$; an average of $0.49 \%$ per year.

The City of Moline continues to experience residential and commercial development throughout the community. Previously adopted City Council Goals, including a Strong Local Economy, a Vibrant Downtown, and Expanded Housing Opportunities, reflect the city's interest in maintaining and enhancing local growth in a variety of economic sectors. As previously undeveloped sites become harder to find, much of the community's new development is occurring in the form of infill development, redevelopment, and adaptive reuse projects. Previously successful commercial redevelopment projects have rendered favorable economic impacts on the Moline community. These benefits include generating a higher economic multiplier effect, capitalizing on existing infrastructure, and adding value to existing structures or development sites.

Continued development within Moline Centre includes the completion of several loft conversion projects. The City's 5th Avenue redevelopment and streetscape project has been a highly successful project that has brought needed parking back to the City's Main Street and has created interest in additional retail, commercial, and office users to locate in Moline Centre. Phase III of the Bass Street Landing Project is a completed $\$ 45,000,000$ project. It includes KONE Centre which is a 10-story mixed use building that houses the North American Operational Headquarters of KONE, additional office, retail space, and luxury condominiums occupy the first and several of the upper floors. Gorman \& Company invested over \$12,000,000 in a mixed-use, mixed-income, 69-unit "live-work" development at 19th Street and River Drive, which was completed in April 2012 and continues to be $100 \%$ occupied. The former KONE campus property was sold to Heritage Church who has started to develop a master plan to renovate the office and warehouse spaces to be used for corporate offices and a 600-seat worship center, collaboration and leasable office space for other non-profits. The $\$ 10,000,000$ TIGER II and $\$ 177,000,000$ High Speed Rail (HSR) funding for new passenger rail service between Chicago and the Quad Cities continues to move forward. Western Illinois University Quad Cities campus continues to impact Moline and the Quad Cities. It includes a $\$ 15,800,000$ renovation and construction of Building 1 that was completed in January 2012 and $\$ 42,000,000$ for phase II that was completed in time for fall 2014 classes. The University recently completed planning designs for a phase III project as enrollment continues to be stable.

The $\$ 65,000,000$ multi-year widening and rebuilding of John Deer Roadway (JDR) from the I-74 interchange through the 70th Street intersection is completed. This stretch of JDR carries the most vehicular traffic of any roadway in the entire Illinois Quad Cities. The road is now three lanes in each direction with new dedicated turning lanes at all intersections, greatly enhancing the vehicular movements. A local developer assembled several properties at John Deere Road and 38th Street. This development includes a strip center with 3 national tenants including Popeye's Chicken, US Cellular and a Cost Cutters salon. The former Menards store at the west end of Moline on John Deere Expressway has been substantially redeveloped into 4 retail stores including Hobby Lobby, Ross' Dress for Less, Pet Smart, and Moline Family Dental. A local developer purchased the former Mill's Chevrolet site at John Deere Road and 16th Street. The dealership closed in 2016 and relocated to Davenport. The car dealership and parking lots has begun the transformation into a major retail destination with up to 10 new tenants, ranging from office, retail, and restaurant.

The City sold the 15 acre property formerly known as One Moline Place Phase II. This project, renamed Overlook Village, is a $\$ 51,000,000$ development by S.J. Russell Corporation and the Dial Corporation and is a continuum of care senior development. Construction of infrastructure improvements for phase III of One Moline Place, now known as Hawk Hollow, has been completed. Site improvements include a new roadway, sanitary sewer service, water service, and storm water facilities.

The State of Illinois passed local property tax limitation legislation in recent years. Counties may elect to limit property tax growth to the lesser of the consumer price increase for the prior year or $5 \%$. Rock Island County and, therefore, the District are not currently limited by this legislation. The District property tax revenue remained relatively flat, increased by $0.19 \%$ during the last year. State revenue increased by $5.70 \%$. Federal revenue decreased by $1.66 \%$. Total revenues decreased 10.53\% during fiscal year 2019-2020. District operating expenditures per pupil, $\$ 10,721.12$, remain below the state average for unit districts. The state average has been below the national average per pupil expenditure.

## Current Operational Plan Instructional Priorities

The district's Operational Plan is based upon the acronym PACE and reflects the categories of People; Achievement; Community; and Environment. Each category of PACE has three supporting goals and were written with an equity focus.

People (P):

1. Recruit and retain highly qualified professionals annually, at a rate of $95 \%$ or greater, with specific emphasis on:

- Recruiting diverse staff through the development of a Moline High School Education Career Pathway, "Grow Your Own" program, and by implementing equity-based recruitment strategies.
- Retaining hires not native to Quad Cities region.

2. Launch a multi-year Equity Plan, including a staff professional development initiative focused on Educational Equity and Cultural Competence.
3. At a rate of $80 \%$ or higher, teachers and staff report they agree or strongly agree that they feel valued and respected, as indicated on an annual district Climate and Culture Survey.

## Achievement (A):

1. Increase the percentage of ALL students meeting their spring MAP (Measure of Academic Progress) growth targets by a minimum of $2 \%$.
2. Increase the percentage of students in accelerated programs, to be more reflective of overall district enrollment, by revising the district's Accelerated Learning System and implementing a Talent Development Program in grades 3-5:

- African American students from $5 \%$ to $10 \%$.
- Hispanic students from $14 \%$ to $28 \%$.

3. Design a multiyear plan to align and implement a comprehensive Career Pathways Program with Year 1 goals of pathway identification, course alignment, and implementation design.

## Community (C):

1. Collaboratively renew the District Mission and Vision Statements by collecting stakeholder input from staff, students, parents, and community members.
2. Increase stakeholder communication across multiple platforms and languages, including district-wide texting, community conversations, and through updating branding and district promotional materials.
3. Strengthen parent partnerships by offering augmented Parent University digital programming, to increase engagement and reduce barriers to participation, and by expanding the Parent Mentoring Program.

## Environment (E):

1. Increase targeted and intentional social-emotional services and supports, across all grades, by implementing a district wide universal social emotional learning screener.
2. Pilot Year 1 of the ASPIRE program (Alternative Student Programs for Individualized and Remote Education) at Moline High School/Coolidge Campus and acknowledge diverse pathways to diploma attainment.
3. Review and revise the 10-year Strategic Facilities plan, administrative procedures, and school handbooks, where student equity can be improved.

## Internal Controls

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Tests are made by the District's independent auditors to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations. The results of the tests for the fiscal year ended June 30, 2020, provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

## Budgetary Controls

Budgetary control is maintained at line item levels and built up into program and/or cost centers before being combined to form totals by fund. All actual activity compared to budget is reported to the District's management on a monthly basis. Reports of actual activity to budget are reported to the Board of Education monthly. Full disclosures are made if extraordinary variances appear during the year.

## Cash Management

The District invests up to $100 \%$ of available cash, timing investment maturities to actual cash needs. In addition, all checking accounts are of interest bearing types. Investments are made in compliance with restrictions established by the Illinois statutes. The District maintains an investment relationship with the lllinois Funds, a state-wide investment pool, established by statute and managed by the Treasurer of the State of Illinois.

The school treasurer is appointed by the Board of Education and authorizes all investments and cash transactions. Investment strategies are structured to obtain the best yield for all invested funds while maintaining minimum risks. The District, accordingly, balances investments primarily in the Illinois Funds secured by direct U.S. Treasury obligations. The District earned interest revenue totaling $\$ 1,645,641$ on all investments for all governmental fund types for the year ended June 30, 2020.

## Risk Management

The District completed its annual review of all insurance coverages to minimize the risk of a major loss at reasonable premium costs. The District Group Insurance Fund (an internal service fund) was established in 1994 to account for and finance uninsured risk of loss. This insurance provides stop loss coverage for up to a maximum of $\$ 200,000$ for each participant covered by the health benefit plan. The District purchases commercial insurance for claims in excess of coverage provided by the Fund and for all other risks of loss. Settled claims have not exceeded this commercial coverage in any of the past four fiscal years.

## Independent Audit

The Illinois School Code and the District's policy require an annual audit of the books of accounts, financial records and transactions of all funds of the District. The audit is performed by independent certified public accountants selected by the District's Board of Education. The auditors' opinion has been included in this report.

## Acknowledgments

We wish to thank the members of the Board of Education for their interest and support in planning and conducting the financial operations of the District in a responsible and progressive manner. We also wish to thank the efficient and dedicated central office staff for their assistance in the timely preparation of this report.

David T. McDermott
Chief Financial Officer

Moline-Coal Valley School District No. 40

## Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Moline-Coal Valley School District No. 40 (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Moline-Coal Valley School District No. 40 as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis; Illinois Municipal Retirement Fund Schedule of Changes in the Net Pension Liability and Related Ratios and Schedule of Employer Contributions; Teachers' Retirement System of the State of Illinois' Schedule of the Employer's Proportionate Share of the Net Pension Liability and Schedule of Employer Contributions; Teacher Health Insurance Security Fund Schedule of the District's Proportionate Share of the Collective Net OPEB Liability and Schedule of District Contributions; the Schedule of changes in the District's Total OPEB Liability and related ratios; and the budgetary comparison schedule-General Fund, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, statistical section, the combining and individual General Fund, the nonmajor governmental fund financial statements, the combining statement of changes in assets and liabilities-Agency Fund and capital asset schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual General Fund, the nonmajor governmental fund financial statements, the combining statement of changes in assets and liabilities-Agency Fund and capital asset schedules are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

## Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 12, 2020, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

# Moline-Coal Valley School District No. 40 

Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020

## Introduction

Our discussion and analysis of Moline-Coal Valley School District No. 40's financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2020. The intent of this management's discussion and analysis is to look at Moline-Coal Valley School District No. 40's financial performance as a whole; readers should also review the transmittal letter, financial statements and notes to basic financial statements to enhance their understanding of Moline-Coal Valley School District No. 40's financial performance.

The reporting model is a combination of both government-wide financial statements and fund financial statements. The basic financial statements contain three components:

1. Government-wide financial statements including the statement of net position and the statement of activities which provide a broad, long-term overview of Moline-Coal Valley School District No. 40's finances.
2. Fund financial statements including the balance sheets and statement of revenues, expenditures and changes in fund balance that provide a greater level of detail of revenues and expenditures and focus on how well Moline-Coal Valley School District No. 40 has performed in the short term in the most significant funds.
3. Notes to basic financial statements.

## Overall Analysis

Moline-Coal Valley School District No. 40 serves 7,243 students with a 2019-2020 total governmental fund budget of $\$ 122,136,943$. In general, the financial operations of Moline-Coal Valley School District No. 40 continued to perform well even during uncertain financial times. Expenditures for instructional programs and for regular maintenance continue to increase as Moline-Coal Valley School District No. 40 continues to monitor overall costs in these difficult economic times. For the year ended June 30, 2020, the District operated with 32 more full-time equivalent positions from the prior year.

In summary, Moline-Coal Valley School District No. 40's overall financial position remains strong, stable and consistent even in a challenging financial economy.

## Financial Highlights

Key financial highlights for 2020 are as follows:
Total governmental fund revenues for the fiscal year ended June 30, 2020 of \$94,558,524 were comprised of General Fund revenues in the amount of $\$ 80,509,253$, Capital Project Fund revenues of $\$ 4,480,132$, Debt Service Fund revenues of $\$ 3,696,627$ and other governmental funds revenues totaling $\$ 5,872,512$. Total governmental funds revenues decreased $\$ 2,183,739$ or $2 \%$ from the previous year.

Total governmental funds expenditures for the fiscal year ended June 30, 2020 of \$113,062,189 were comprised of General Fund expenditures of $\$ 77,806,313$, Capital Project Fund expenditures of $\$ 15,763,848$, Debt Service Fund expenditures of $\$ 13,559,412$ and other governmental funds expenditures of $\$ 5,932,616$. Total governmental funds expenditures increased $\$ 17,085,798$ or $18 \%$ from the previous year.

As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of $\$ 88,275,930$, an increase of $\$ 2,918,318$ in comparison with the ending fund balance of $\$ 85,357,612$ from the prior year. Of the total combined fund balance, $\$ 36,247,214$ represents unassigned fund balance.

## Moline-Coal Valley School District No. 40

Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020

As of June 30, 2020, unassigned fund balance for the General Fund was $\$ 36,247,214$ or $47 \%$ of total General Fund expenditures.

Moline-Coal Valley School District No. 40's total long-term debt including compensated absences increased by $\$ 8,597,985$ or $24 \%$ during the fiscal year ended June 30,2020 . The increase was primarily due the issuance of the 2019A and 2020A General Obligation bonds offset by scheduled principal payments. The 2020A General Obligations bonds current refunded \$4,200,000 of the 2010B General Obligation bonds and \$2,535,000 of the 2010C General Obligation Bonds.

## Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Moline-Coal Valley School District No. 40's basic financial statements. The District's basic financial statements are comprised of 1) government-wide financial statements, 2) fund financial statements and 3) notes to basic financial statements. In addition, other supplementary information to the basic financial statements is provided.

## Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business. The statement of net position and the statement of activities provide information about the activities of the District as a whole, presenting both an aggregate and long-term view of the finances. These statements include all assets and liabilities using the accrual basis of accounting.

The statement of net position presents information on all of Moline-Coal Valley School District No. 40's assets plus deferred outflows less liabilities plus deferred inflows of resources, with the difference between these reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the fiscal year. All changes in the net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but not used vacation leave).

Both of the government-wide financial statements distinguish functions of Moline-Coal Valley School District No. 40 that are principally supported by taxes and intergovernmental revenues (governmental activities). The District does not currently have any activities that are considered business-type activities. The governmental activities of the District include instruction, support services, tuition paid to other districts and debt service interest.

The government-wide financial statements include only Moline-Coal Valley School District No. 40. There are no other organizations or agencies whose financial statements should be combined and presented with the financial statements of the District.

The government-wide financial statements can be found on pages 14-16 of this report.

## Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over specific sources of funding and spending on particular programs. Moline-Coal Valley School District No. 40, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

## Moline-Coal Valley School District No. 40

Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020

Governmental funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Moline-Coal Valley School District No. 40 maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the other seven governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual appropriated budget for its General Fund. A budgetary comparison schedule has been provided for the General Fund to demonstrate compliance with this budget on page 73 .

The basic governmental fund financial statements can be found on pages 17-20 of this report.
Proprietary funds: The District maintains an Internal Service Fund to account for the premium and claim payments for the self-insured health insurance plan for District employees and retirees. Internal Service Funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. Because the service provided by the District predominately benefits governmental, rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

The Internal Service Fund is presented in a separate presentation.
The basic proprietary funds fund financial statements can be found on pages $21-23$ of this report.
Fiduciary funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support Moline-Coal Valley School District No. 40's own programs. The fiduciary fund of the District is an Agency Fund. Agency funds are custodial in nature and do not involve measurement of results of operation.

The basic fiduciary fund financial statements can be found on page 24 of this report.
Notes to basic financial statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to basic financial statements can be found on pages 25-58 of this report.

## Moline-Coal Valley School District No. 40

## Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2020

Other information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Moline-Coal Valley School District No. 40's progress in funding its obligation to provide pension and other postemployment benefits to its employees and budgetary comparison schedules. Required supplementary information can be found on pages 59-74 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information.

## Government-Wide Financial Analysis

By far the largest portion of the District's total assets reflects its investment in capital assets. The District uses these capital assets to provide educational services; therefore, these assets are not available for future spending. The District's net position net investment in capital assets was $\$ 82,499,879$. Although the District's investment in its capital assets is reported net of related debt, it should be noted the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

Table 1 - Condensed Statement of Net Position

|  | Governmental Activities |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 2020 |  | 2019 |  |
| Assets |  |  |  |  |
| Current and other assets | \$ | 149,944,178 |  | 142,937,349 |
| Capital assets |  | 113,092,509 |  | 99,125,303 |
| Total assets |  | 263,036,687 |  | 242,062,652 |
| Deferred outflows of resources, pension related deferred outflows |  |  |  |  |
| Pension related |  | 2,120,141 |  | 6,605,604 |
| OPEB related |  | 2,341,839 |  | 1,855,342 |
| Total deferred outflows of resources |  | 4,461,980 |  | 8,460,946 |
| Liabilities |  |  |  |  |
| Long-term liabilities |  | 112,102,265 |  | 106,197,172 |
| Other liabilities |  | 20,094,766 |  | 16,669,980 |
| Total liabilities |  | 132,197,031 |  | 122,867,152 |
| Deferred inflows of resources |  |  |  |  |
| Unavailable revenue |  | 41,051,680 |  | 40,480,331 |
| Pension related |  | 8,125,821 |  | 7,349,564 |
| OPEB related |  | 10,564,866 |  | 11,670,827 |
| Total deferred inflows of resources |  | 59,742,367 |  | 59,500,722 |
| Net position |  |  |  |  |
| Net investment in capital assets |  | 82,499,879 |  | 78,864,754 |
| Restricted |  | 43,279,398 |  | 42,673,143 |
| Unrestricted |  | $(50,220,008)$ |  | $(53,382,173)$ |
| Total net position | \$ | 75,559,269 | \$ | 68,155,724 |

A restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used.

## Moline-Coal Valley School District No. 40

## Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2020
Table 2 highlights the District's revenues and expenses for the fiscal years ended June 30, 2020 and 2019. These two main components are subtracted to yield the change in net position.

Revenues are divided into two major categories: program revenue and general revenue. Program revenue is defined as charges for services and sales, operating and capital grants and contributions. General revenue includes taxes (property and replacement taxes), unrestricted grants and investment income.

Table 2 - Program Revenues and Expenses

|  | Governmental Activities |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 2020 |  | 2019 |  |

■ Operating grants and contributions

- Property taxes
- Sales tax
- Investment earnings

Moline-Coal Valley School District No. 40
Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020

Table 3 below discloses cost of services for Governmental Activities. The total cost of services column contains all costs related to programs and the net cost column shows how much the total amount is not covered by program revenues. Succinctly put, net costs are costs that must be covered by unrestricted state aid (State Foundation) or local taxes. The difference in these two columns would represent restricted grants, fees and donations restricted grants, fees and donations.

Table 3-Governmental Activities

| Programs | Total Cost of Services 2020 |  | Net Cost of Services 2020 |  | Total Cost of Services 2019 | Net Cost of Services 2019 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Instruction | \$ | 82,007,909 | \$ 38,373,711 | \$ | 79,617,124 | \$ 36,440,702 |
| Support services |  | 28,137,564 | 24,708,913 |  | 27,449,659 | 23,569,467 |
| Community services |  | 6,117,700 | 6,117,700 |  | 560,461 | 560,461 |
| Debt service, interest |  | 1,766,117 | 1,766,117 |  | 1,060,065 | 1,060,065 |
| Total expenses | \$ | 118,029,290 | \$ 70,966,441 | \$ | 108,687,309 | \$ 61,630,695 |

Expenditures for instruction and program support continued to represent the largest percent of total District expenditures. Expenditures for instruction increased due to pension and other postemployment benefits expense.

The property tax is the most significant revenue source of the District. The three factors that affect property tax revenues are assessed valuation, tax multiplier and tax rate. Through an overall increase in property values, the 2019 equalized assessed valuation of the District increased by $\$ 31,303,840$ or $2 \%$ and resulted in an increase in property tax revenue of $\$ 81,183$. Operating grants and contributions increased by $\$ 4,530,369$ due to government wide TRS and THIS special funding revenue. Capital grants and contributions decreased by $\$ 3,700,000$ due to a one-time donation in 2018-2019 for the Bartlett Performing Arts Center at Moline High School.

Real estate tax bills in Rock Island County for a calendar year tax levy are payable in four equal installments in the subsequent calendar year, with all but the first payment falling due after the close of the District's fiscal year. First installment tax collections prior to June 30, 2020 were $56.34 \%$ of the current property tax levy compared with $55.98 \%$ for the previous year. The remainder of the 2019 levy is billed for collection during calendar year 2020. Allocations of the 2019 property tax levy for fiscal 2020 and the two preceding levies are as follows (per \$100 assessed value):

| Purpose | Tax Rate Calendar Years |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2020 |  | 2019 |  | 2018 |  |
| General | \$ | 4.1600 | \$ | 4.1600 | \$ | 4.1600 |
| Special revenue |  | 0.4095 |  | 0.5160 |  | 0.4516 |
| Debt Service |  | 0.4243 |  | 0.3834 |  | 0.4478 |
| Capital Projects |  | 0.0500 |  | 0.0500 |  | 0.0500 |
| Total Tax Rate | \$ | 5.0438 | \$ | 5.1094 | \$ | 5.1094 |
| Collection/Levy <br> (2019 stated as of June 30, 2020) |  | 56.34\% |  | 55.98\% |  | 55.08\% |

## Moline-Coal Valley School District No. 40

Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020

## Financial Analysis of the Government's Funds

As noted earlier, Moline-Coal Valley School District No. 40 uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds: The focus of Moline-Coal Valley School District No. 40's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Table 4-Governmental Fund Balances

| Purpose | 2020 |  | 2019 |  | \% Change |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | und Balance |  | nd Balance |  |
| General | \$ | 52,191,382 | \$ | 49,488,442 | 5.46\% |
| Capital projects |  | 23,371,078 |  | 24,637,393 | (5.14) |
| Debt service |  | 3,092,771 |  | 1,550,974 |  |
| Nonmajor governmental funds |  | 9,620,699 |  | 9,680,803 | (0.62) |
| Total | \$ | 88,275,930 | \$ | 85,357,612 | 3.42 |

The District completed the year with a total governmental fund balance of \$88,275,930, \$2,918,318 more than last year's ending fund balance of $\$ 85,357,612$. Approximately $41 \%$ of this amount, $\$ 36,247,214$, constitutes unassigned fund balance available for spending at the government's discretion. The majority of the increase in governmental fund balance is due to the Governor's order to shutdown schools in March 2020 as a result of COVID-19 pandemic. The remainder of the governmental funds fund balance is restricted or assigned for 1) grantor restricted purposes $\$ 5,149,615 ; 2$ ) working cash $\$ 9,067,404 ; 3$ ) transportation $\$ 2,211,495$; 4) municipal retirement and social security $\$ 4,033,901 ; 5$ ) tort immunity $\$ 1,923,943 ; 6$ ) debt service $\$ 3,092,771 ; 7$ ) capital projects $\$ 21,883,797 ; 8$ ) school activity $\$ 728,939$, and 9) encumbrances $\$ 3,784,819$.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the General Fund was $\$ 36,247,214$ while total fund balance reached $\$ 52,191,382$. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents $47 \%$ of total General Fund expenditures, while total fund balance also represents approximately $67 \%$ of that same amount.

## General Fund Budgetary Highlights

The fund balance of the District's General Fund increased by $\$ 2,702,940$, during the current fiscal year. The increase in fund balance was due to an increase in Evidence Based Funding and Corporate Personal Property Replacement Tax and less expenditures as a result of the Governor's order to shutdown schools in March 2020.

Revenues were over budget by $\$ 993,226$. The increase in revenue was due to an increase in Corporate Personal Property Replacement Tax.

## Moline-Coal Valley School District No. 40

Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020

Expenditures were under budget by $\$ 2,160,468$. This is mainly due to the Governor's order to shutdown schools in March 2020 as a result of COVID-19 pandemic.

## Capital Assets and Debt Administration

At the end of the 2020 fiscal year, the District had invested $\$ 165,950,654$ in a broad range of capital assets, including buildings, sites, equipment and vehicles. This amount represents an increase of $\$ 16,784,480$. Additional information about capital assets can be found in Note 5. Total accumulated depreciation on these assets equaled $\$ 52,858,145$ for governmental activities.

- Asset acquisitions for governmental activities totaled \$18,068,488 including transfers from construction-in-process of \$1,163,242.
- The District disposed of \$120,766 of capital assets.
- The District recognized depreciation expense of $\$ 2,935,024$ for governmental activities.

Table 5-Capital Assets as of June 30 (Net of Depreciation)

| Purpose | Governmental Activities |  |  |  | \% Change |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | 2020 |  | 2019 |  |
| Land | \$ | 1,387,463 | \$ | 1,139,143 | 0.22\% |
| Land improvements |  | 2,707,133 |  | 2,928,656 | (7.56) |
| Buildings |  | 80,090,632 |  | 80,597,187 | (0.63) |
| Equipment and vehicles |  | 933,706 |  | 660,286 | 41.41 |
| Construction-in-process |  | 27,973,575 |  | 13,800,031 | 102.71 |
| Total | \$ | 113,092,509 | \$ | 99,125,303 | 14.09 |

The below graph shows the category and percentage of our School District's assets.

## Moline-Coal Valley School District No. 40

Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020

## Debt

As of June 30, 2020, Moline-Coal Valley School District No. 40 had general obligation bonds outstanding totaling $\$ 44,232,659$. In the current year, the District paid $\$ 11,833,596$ in principal and $\$ 1,614,370$ in interest and fiscal charges on outstanding debt.

Table 6 - General Obligation Outstanding Debt as of June 30

|  | Governmental Activities |  |  |  | \% Change |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | 2020 |  | 2019 |  |
| General obligation bonds | \$ | 44,232,659 | \$ | 35,671,255 | 24.00\% |

The District issued General Obligation bonds for purposes of making facilities modifications and repairs for Life Safety Code purposes as follows: July 1990, $\$ 2,215,000$ (repaid on February 1, 2002); May 1991, $\$ 5,000,000$ (repaid on February 1, 2003); April 1992, \$4,800,000 (repaid on February 1, 2004); March 1993, \$4,500,000 (repaid on February 1, 2004); July 1994, \$4,800,000 (repaid on February 1, 2003); December 1996, \$7,945,000 (with \$4,945,000 for refunding outstanding bonds for interest savings purposes; repaid on February 1, 2006); February 1999, \$9,045,000 (with \$7,045,000 for refunding outstanding bonds for interest savings purposes, repaid on February 1, 2013); February 2002, $\$ 2,500,000$ (repaid on February 1, 2006); March 2003, \$2,000,000 (repaid on February 1, 2014); November 2005, \$4,500,000 (repaid on February 1, 2009); June 2007, \$6,000,000 (repaid February 1, 2011); November 2009, \$10,200,000 (refunding in May 2018); December 2009, \$8,300,000 (repaid April 6, 2020); December 2010, \$11,495,000 (repaid April 6, 2020); December 2013, \$9,610,000; February 2018, \$21,925,000, May 2018, \$3,075,000 (refunded the November 2009 bonds), September 2019, $\$ 14,000,000$, April 2020, \$6,395,000 (refunded December 2009 and December 2010). The District has an Aa2 insured Moody's Investors service rating insured by Financial Guaranty Insured.

As of June 30, 2020, the District's available legal debt margin was \$76,840,485.
Additional information about the District's long-term debt can be found in Note 4 to the financial statements.

## Economic Factors and Next Year's Budgets and Rates

- The following is a summary of the major 2020-2021 budget changes from the 2019-2020 Amended Budget:
- Revenues and available carried forward fund balances equal or exceed expenditures for all funds for the 2020-2021 Fiscal Year. Historically, plan budget deficits do not materialize, since the District's past practice and budgeting philosophy is to allocate expenditures on the higher side while budgeting revenues conservatively. However, with local, state and federal funding extremely uncertain due to the coronavirus (COVID-19) pandemic, future year(s) might be the exception.
- Salaries, wages and benefits have been updated to reflect known changes of staff costs.
- Interest income reflects a decrease of $\$ 426,200$, or $25.0 \%$, directly related to the effect of the COVID-19 pandemic on the economy and financial markets.
- Summary of the Educational Fund:

0 The Educational Fund reflects a budgeted deficit of $\$ 1,945,871$. This is mainly due to an increase in negotiated salaries and health insurance benefits.
o Property tax revenue reflects an increase of $\$ 678,266$ or $2.4 \%$, as a result of updated equalized assessed valuation projections provided by the Rock Island Assessment Office and anticipated needs based on the 2019 levy.

## Moline-Coal Valley School District No. 40

Management's Discussion and Analysis
For Fiscal Year Ended June 30, 2020
o Corporate Personal Property Replacement Tax (CPPRT) reflects an increase of $\$ 593,648$, or $16.8 \%$. This estimate is based on recent funds received analysis.
o The Evidence Based Funding formula remains flat since the state has appropriated the same funding as in FY20.
o Other state funded grants (i.e., special Education, Preschool For All, Private Facility, etc.) reflects a decrease of $\$ 353,245$ or $13.1 \%$. This is based on recent funds received analysis.
o Federal grant program (i.e., Child Nutrition, IDEA, Title I, etc.) revenues and expenditures have been analyzed to reflect updated awards, entitlements, carryovers, and allocation changes from the prior year.

0 This budget reflects new funding for the Coronavirus Aid, Relief and Economic Security (CARES) Act in the amount of $\$ 1,900,000$.

- Operations \& Maintenance Fund reflects a budgeted deficit of $\$ 665,101$. The deficit is associated with budgeting fluctuating utility costs (i.e., water, gas and electric) which historically do not fully expend.
- Transportation Fund reflects a budgeted deficit of $\$ 438,911$, due to an increase in contracted transportation and the anticipated need for driver's education vehicles.
- Capital Projects Fund reflects a budgeted deficit of $\$ 21,395,880$, due to the timing of construction for the Moline High School air conditioning, PE Facility, projects authorized by the Board of Education.
- Tort Fund reflects a budgeted deficit of $\$ 245,083$, mainly due to an increase in District insurance premiums, including workers compensation benefits.
- Life Safety Fund reflects a budgeted deficit of $\$ 199,367$, due to an increase in planned capital expenditures as reflected in the 10-Year Life Safety review.
- Group Insurance Fund reflects a budgeted surplus of $\$ 438,367$, due to a reduction in insurance claims.
- Total revenues decreased by $\$ 12,834,925$, or $11.0 \%$, while expenditures increased by $\$ 5,624,849$, or $4.6 \%$, from the 2019-2020 Amended Budget. The majority of the change in revenue can be attributed to the $\$ 14,000,0002019$ bond sale. The majority of the change in expenditures is a result of a negotiated increase in staff salaries and health insurance benefits, as well as the receipt of ESSER grant funds provided through the CARES Act.
- Total Funds ending balance is budgeted at a deficit of $\$ 23,867,588$ mainly due to the increased salaries and health insurance benefits and construction for the Moline High School air conditioning system and PE Facility.

## Requests for Information

These financial statements and discussions are designed to provide our students, citizens, taxpayers, investors and creditors with a complete disclosure of the District's finances and to demonstrate the District's high degree of accountability for the public dollars entrusted to us. If you have questions about this report or need additional financial information, please write to Mr. David McDermott, Chief Financial Officer, Moline-Coal Valley School District No. 40, 1619 11 ${ }^{\text {th }}$ Avenue, Moline, Illinois 61265.

## Moline-Coal Valley School District No. 40

## Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities June 30, 2020

| Total governmental fund balances | \$ | 88,275,930 |
| :---: | :---: | :---: |
| Amounts reported for governmental activities in the statement of net position are different because: |  |  |
| Capital assets net of accumulated depreciation used in governmental activities are not financial resources and, therefore, are not reported in the funds: |  |  |
| Land |  | 1,387,463 |
| Construction-in-process |  | 27,973,575 |
| Land improvements |  | 9,561,772 |
| Buildings |  | 121,284,224 |
| Equipment and vehicles |  | 5,743,620 |
| Accumulated depreciation |  | $(52,858,145)$ |
| Other assets are not available to pay for current period expenditures and, therefore, are deferred inflows in the funds: |  |  |
| Unavailable revenue-intergovernmental |  | 796,378 |
| Unavailable revenue-sales tax |  | 319,204 |
| Pension and OPEB related deferred outflows of resources and deferred inflows of resources are not due and payable in the current year, and therefore, are not reported in the governmental funds, as follows: |  |  |
| Deferred outflow of resources: |  |  |
| Pension related |  | 2,120,141 |
| OPEB related |  | 2,341,839 |
| Deferred inflow of resources: |  |  |
| Pension related |  | $(8,125,821)$ |
| OPEB related |  | $(10,564,866)$ |
| Noncurrent liabilities, including accrued interest, are not due and payable in the current period and, therefore, are not reported in the funds: |  |  |
| Compensated absences |  | $(356,103)$ |
| Accrued interest |  | $(587,110)$ |
| General obligation bonds |  | $(44,232,659)$ |
| Other postemployment benefits liability |  | $(61,729,084)$ |
| Net pension liability |  | $(10,095,459)$ |
| Bond premium |  | $(1,354,059)$ |
| Internal Service Fund, net position |  | 5,658,429 |
| Net position of governmental activities | \$ | 75,559,269 |

See notes to basic financial statements.

## Moline-Coal Valley School District No. 40

## Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended June 30, 2020

| Net change in fund balances-total governmental funds |
| :--- |
| Amounts reported for governmental activities in the statement of |
| activities are different because: |
| Governmental funds report capital outlays as expenditures. However, in the |
| statement of activities, the cost of those assets is allocated over their |
| estimated useful lives as depreciation expense. This is the amount by which |
| capital outlay exceeded depreciation in the current period and other capital asset |
| transactions: |
| Capital outlay |
| Depreciation expense |
| Loss on disposal of capital assets |
| Revenues in the statement of activities that do not provide current financial |
| resources are not reported as revenues in the funds. |
| The issuance of long-term debt (e.g., bonds, loan, leases) provides current financial |
| resources to governmental funds, while the repayment of the principal of long-term |
| debt consumes the current financial resources of governmental funds. Neither |
| transaction, however, has any effect on net position. Also, governmental funds |
| report the effect of discounts and premiums when debt is first issued, |
| whereas these amounts are deferred and amortized in the statement |
| of activities. In the statement of activities, interest is accrued on outstanding bonds, |
| whereas in the governmental funds interest expenditure is reported when due. |
| The following is the detail of the net effect of these differences in treatment |
| of long-term debt and related items: |
| Repayment of long-term debt |
| Bond Proceeds |
| Interest |
| Addition and Amortization of bond discount and bond premium |
| Internal Service Fund, change in net position |
| Some |
| financial resources and, therefore, are not reported as expenditures in governmental funds: |
| Increase in compensated absences |
| OPEB expense |
| OPEB special funding revenue |
| OPEB special funding expense |
| Pension expense |
| Pension special funding revenue |
| Pension special funding expense |

See notes to basic financial statements.

\$ 27,780

See notes to basic financial statements.

## Notes to Basic Financial Statements

## Note 1. Nature of Operations, Reporting Entity, Basis of Presentation, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies

Nature of operations: Moline-Coal Valley School District No. 40 (the District) is a political subdivision created under Illinois State Statute. The District has the power to make rules and regulations for its own government consistent with the laws of the state of Illinois and the regulations of the Illinois State Board of Education. The District is governed by the Moline-Coal Valley School Board (the Board) which is elected at large in the general elections. The District is composed of one high school, one alternative high school, two middle schools, 11 elementary schools and one early childhood center. Student enrollment (preschool through high school) for the 2019-2020 school year was 7,243 regular and special education students as of September 30, 2019. The District employs a total of 866 personnel of which 501 are teachers and administrators and 365 are educational support staff.

Reporting entity: The financial statements of the District include all District operations required to be included in accordance with Governmental Accounting Standards Board (GASB) pronouncements concerning the reporting entity. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The GASB has set forth criteria to be considered in determining financial accountability. These criteria are: a) appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District; and b) fiscal dependency. Additional criteria to determine whether certain organizations for which the District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the District include (1) the economic resources being received or held by the separate organization being entirely or almost entirely for the direct benefit of the District, its component units or its constituents, (2) the District being entitled to, or having the ability to otherwise access, a majority of the economic resources received or held by the organization and (3) the economic resources received or held by an individual organization that the District is entitled to, or has the ability to otherwise access, are significant to the District. The District has no component units which meet the GASB criteria. In addition, the District is not aware of any entity which would exercise such oversight over it which would result in the District being considered a component unit of that entity.

Basis of presentation: The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide financial statements: The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The District does not have any activities that are considered business-type activities.

The statement of net position presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is selffinancing or draws from the general revenues of the District.

## Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Basis of Presentation, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

Fund financial statements: During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at a more detailed level. The focus of governmental fund financial statements is on major funds. Major funds are presented in separate columns. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Measurement focus, basis of accounting and financial statement presentation:
Government-wide financial statements: The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, as is the proprietary and fiduciary fund financial statements. For the most part, the effect of interfund activity has been removed from these statements. However, interfund services provided and used are not eliminated in the process of consolidation. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the District are included on the statement of net position. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flow.

Fund financial statements: All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current liabilities and deferred inflows/outflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental funds: Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, liabilities and deferred inflows/outflows of resources is reported as fund balance. The following are the District's major governmental funds:

General Fund: The General Fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Illinois or the restrictions placed on the resources by a third party.

Capital Projects Fund: The Capital Projects Fund accounts the acquisition or construction of major capital facilities.

Debt Service Fund: This fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

## Notes to Basic Financial Statements

## Note 1. Nature of Operations, Reporting Entity, Basis of Presentation, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

The other governmental funds of the District are considered nonmajor:
The Special Revenue funds account for the revenue sources that are legally restricted to expenditures for specific purposes.

The Debt Service Fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

The Capital Projects fund accounts for the revenue and expenditures related to fire prevention and safety projects.

Additionally, the District reports the following fund types:
Proprietary Fund: Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The only proprietary fund of the District is classified as internal service.

Internal Service Fund: This fund supports the general government and accounts for the premium and claim payments for the self-insured health insurance plan for District employees.

Fiduciary funds: Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary funds of the District are considered agency funds. Agency funds are custodial in nature and do not involve measurement of results of operations.

Flexible Spending Fund: This fund accounts for voluntary employee contributions and reimbursements for medical, dental and dependent care expenses.

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of unavailable revenue and in the presentation of expenses versus expenditures.

Revenues-exchange and nonexchange transactions: Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within 60 days of fiscal year-end.

## Notes to Basic Financial Statements

## Note 1. Nature of Operations, Reporting Entity, Basis of Presentation, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which it is budgeted and levied for. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when usage is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, property taxes when budgeted for, personal property replacement taxes, intergovernmental revenues when eligibility requirements are met, charges for services and interest revenues are considered to be both measurable and available at fiscal year-end to the extent received within 60 days of year-end.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's Internal Service Fund is charges for services. Operating expenses for proprietary funds include the cost of services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Deferred outflow of resources: In addition to assets, the statement of net position and the balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until that time. In the District's government-wide statements, deferred outflows of resources consist of unrecognized items not yet charged to expense related to the net pension liability and other postemployment benefit (OPEB) liability and contributions paid by the employer after the measurement date of the net pension liability and OPEB liability but before the end of the employer's reporting period.

Deferred inflows of resources: In addition to liabilities, the statement of net position and the balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position/fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The governmental funds report unavailable revenues from three sources: property taxes, sales taxes and intergovernmental revenue. The amounts relating to intergovernmental revenue are deferred and recognized as an inflow of resources in the period that the amounts become available. In both the District's government-wide and governmental fund financial statements, property tax revenues for the succeeding year are reported as a deferred inflow of resources and will become an inflow in the year they are levied and budgeted for. Also, the unamortized portion of the difference between the expected and actual experience, net difference between projected and actual earnings on pension plan and OPEB investments, changes in assumptions and changes in proportion difference between District contributions and proportionate share of contributions are recorded in the governmentwide statements as a deferred inflow of resources.

## Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Basis of Presentation, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)
Expenses/expenditures: On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus for governmental funds is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related liability is incurred and due. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds. The fair value of donated commodities used during the year is reported in the statement of revenues, expenditures, and changes in fund balance as an expenditure with the amount donated to the District reported as federal aid revenue. Unused donated commodities are reported as inventory on the balance sheet.

Significant accounting policies: The significant accounting policies followed by the District include the following:

Property taxes: Property taxes are recognized as a receivable at the time they become an enforceable legal claim. The current taxes receivable represent the 2019 levy and an estimate of the 2020 levy for the period January 1, 2020 through June 30, 2020. Property taxes are levied each year on all taxable real property in the District. Property taxes are levied on or before the last Tuesday in December and attach as an enforceable lien on the property as of the preceding January 1. These taxes become due and collectible in June, August, September and November, and are collected by the county collector, who in turn remits to the District its respective share. An allowance is provided for uncollectible taxes. Property taxes that are not available for current year operations are shown as deferred inflow of resources. Six months of the 2019 property tax levy along with six months from the 2020 property tax levy are intended to finance fiscal year ending June 30, 2021 and have been reported as deferred inflows of resources and will not be recognized as revenue until fiscal year 2021.

Revenue recognition: In applying the susceptible to accrual concept to intergovernmental revenues, the eligibility (including time) requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. For derived tax revenues (i.e., sales taxes, corporate personal property replacement taxes), revenues are recorded when the underlying exchange has occurred and the resources meet the availability criteria. For government-mandated or voluntary nonexchange transactions, revenues are recognized when all eligibility requirements have been met and the resources meet the availability criteria.

Charges for sales and services, and miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are measurable and available.

Due from other governmental units: Due from other governmental units represents amounts due from the Illinois State Board of Education, grants and reimbursements from other governments.

Inventories: Inventories are stated at cost (first-in, first-out) which approximates market. The consumption method of accounting is applied to the governmental fund type inventories. Unused commodities as of year-end are reported as inventory in the statement of net position and balance sheet. The fund balance related to inventories is reported as nonspendable.

## Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Basis of Presentation, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

Prepaids: Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased. The fund balance in the governmental funds relating to prepaid items is reported as nonspendable.

Investments: The District invests in the Illinois School District Liquid Asset Fund Plus and the Illinois Funds Money Market Fund which are external investment pools that are not SEC-registered and regulated by the State Treasurer's Office. These external investment pools are valued at amortized cost based on the criteria set forth in GASB Statement No. 79.

Capital assets: General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The District maintains a capitalization threshold of $\$ 5,000$. The District does not own any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported capital assets except land and construction-in-process are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

| Description | Governmental <br> Activities |
| :--- | ---: |

The District's collection of library books and other similar assets are not capitalized. These collections are unencumbered, held for public exhibition and education, protected, cared for and preserved and subject to District policy that requires proceeds from the sale of these items to be used to acquire other collection items.

Compensated absences: Certified employees working less than 12 months a year do not earn vacation days; however, certified and noncertified 12-month employees earn vacation days which vest as it accrues. Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The entire compensated absence liability is reported on the government-wide financial statements.

Self-insurance: The District is self-insured for health benefits. The District's premiums and claims are accounted for in the Internal Service Fund. Premiums are charged by the Internal Service Fund to operating funds based upon the number of employees and selected coverage in each fund.

## Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Basis of Presentation, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

Cash flows: For the purpose of cash flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Accrued liabilities and long-term obligations: All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, OPEB contributions and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due and payable.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Illinois Municipal Retirement Fund (IMRF) and the Teachers' Retirement System of the State of Illinois (TRS) and additions to/deductions from IMRF and TRS's fiduciary net position have been determined on the same basis as they are reported by IMRF and TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Total OPEB liability: For purposes of measuring the total OPEB liability, deferred outflows of resources related to OPEB and OPEB expense, information has been based on the actuary reports of the Plans. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The total of OPEB liability attributable to the governmental activities will be paid primarily by the General Fund.

Long-term debt: In the government-wide financial statements, long-term debt is reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Issuance costs are reported as expenditures in the year the costs are incurred.

In the fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures. Debt principal payments are reported as expenditures.

Fund balance: In the governmental fund financial statements fund balances are classified as follows:
Nonspendable: Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Assigned: Amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated by the Board of Education to the Superintendent through an approved fund balance policy.

## Notes to Basic Financial Statements

Note 1. Nature of Operations, Reporting Entity, Basis of Presentation, Measurement Focus, Basis of Accounting and Financial Statement Presentation and Significant Accounting Policies (Continued)

Unassigned: All amounts not included in other spendable classifications. The General Fund is the only fund that would report a positive amount in unassigned fund balance. Residual deficit amounts of other governmental funds would also be reported as unassigned.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's procedure is to pay the expenditure from restricted fund balance and then from less-restrictive classifications-committed, assigned and then unassigned fund balances.

Net position: Net position represent the difference between assets plus deferred outflows and liabilities plus deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net investment in capital assets excludes unspent debt proceeds. As of June 30, 2020, unspent bond proceeds in the Capital Projects Funds were $\$ 14,994,088$. Net positions are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted through enabling legislation consist of \$2,505,661 for debt service, \$1,835,425 for tort immunity, $\$ 9,067,404$ for working cash and $\$ 2,108,557$ for transportation. The District first applies restricted resources when an expense is incurred for which both restricted and unrestricted net position is available.

Interfund activity: Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are presented on the financial statements.

Activity between funds that are representative of lending/borrowing arrangements at the end of the fiscal year are referred to as "due to/from other funds" in the fund financial statements.

Estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 2. Cash and Investments

As of June 30, 2020, the District had the following cash and investments:

| Cash and investments, statement of net position | \$9,762,005 |
| :--- | ---: | ---: |
|  |  |
| Deposits | $7,063,359$ |
| Certificates of deposit | 430,139 |
| Illinois School District Liquid Asset Fund Plus | $30,371,838$ |
| Illinois Funds Money Market Fund | $41,896,669$ |

As of June 30, 2020, the District had the following investments:

| Investment Type | Weighted Average Maturities (Years) | Standard \& Poor's | Amortized Cost |  |
| :---: | :---: | :---: | :---: | :---: |
| Illinois School District Liquid Asset Fund Plus | 0.06 | AAAm | \$ | 30,371,838 |
| Illinois Funds Money Market Fund | 0.16 | AAAm |  | 41,896,669 |

State statutes and the District's investment policy authorize the District to make deposits in interest bearing depository accounts in federally insured and/or state chartered banks and savings and loan associations, and to invest available funds in direct obligations of, or obligations guaranteed by, the United States Treasury or agencies of the United States, and short-term obligations of corporations organized in the United States with assets exceeding \$500,000,000.

The District is also authorized to invest in Illinois School District Liquid Asset Fund and the Illinois Funds Money Market Fund, which invests member deposits on a pooled basis, short-term certificates of deposit and high rated short-term obligations of major United States corporations and banks.

Interest rate risk: The District's investment policy does not specifically limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates, but it does state the investment portfolio should provide sufficient liquidity to pay District obligations as they become due.

Credit risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of rating by a nationally recognized statistical rating organization. See above for credit ratings related to the Illinois School District Liquid Asset Fund Plus and the Illinois funds money market fund.

Concentration of credit risk: The District's general investment policy is to apply the prudent-person rule. Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital and, in general, avoid speculative investments. The District's investment policy seeks diversification to minimize the risk of loss resulting in over concentration in a specific maturity, issuer or class of securities. The investments above are investments in an external investment pools and, therefore, are not subject to concentration of credit risk.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 2. Cash and Investments (Continued)

Custodial credit risk: Custodial credit risk for deposits is the risk that in the event of a bank failure, the government's deposits may not be returned to it. It is the District's policy to require that time deposits in excess of FDIC insurable limits be secured by collateral or private insurance to protect public deposits in a single financial institution if it were to default. The custodial risk for investments is the risk that in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investments or collateral securities that are in the possession of another party. As of June 30, 2020, the District's deposits are not exposed to custodial credit risk, as they were fully insured by federal deposit insurance or secured by some form of collateral. The District's investments in the external investment pools are not subject to custodial credit risk.

## Note 3. Interfund Account Balances

The interfund receivable and payable balances as of June 30, 2020 are as follows:

|  | Due From Other Funds |  | Due To Other Funds |  |
| :---: | :---: | :---: | :---: | :---: |
| Major funds: |  |  |  |  |
| General Fund | \$ | 6,085,939 | \$ | - |
| Capital Projects Fund |  | - |  | 4,542,337 |
| Debt Services Fund |  | 759,866 |  |  |
| Nonmajor governmental funds |  | - |  | 1,486,328 |
| Internal service funds |  | - |  | 817,140 |
|  | \$ | 6,845,805 | \$ | 6,845,805 |

Interfund balances result for the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, (3) payment between funds are made and (4) to cover operating deficits.

## Note 4. Interfund Transfers

The following is a schedule of transfers as included in the basic financial statement of the District:

|  | Transfers In |  |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | Transfers Out |  |  |  |
| Capital Projects Fund, major fund | $\$$ | - | $\$ 4,461,176$ |  |
| Debt Service Fund, major fund | $\$$ | $4,416,176$ | - |  |
|  |  | $4,416,176$ | $\$ 461,176$ |  |

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 5. Capital Assets

Capital asset activity for the year ended June 30, 2020 was as follows:

Depreciation expense was charged to governmental functions as follows:
Instruction
Support services
Total depreciation expense

| $\$$ | $2,799,681$ |
| ---: | ---: |
| 135,343 |  |
| $\$ \quad 2,935,024$ |  |

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 6. General Long-Term Liabilities

Changes in general long-term liabilities for the year ended June 30, 2020 are summarized as follows:

|  | $\begin{gathered} \text { Balance } \\ \text { June } 30,2019 \end{gathered}$ |  | Additions/ <br> Change in Accrual |  | Deductions |  | $\begin{gathered} \text { Balance } \\ \text { June } 30,2020 \end{gathered}$ |  | Balance Due Within One Year |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Compensated absences | \$ | 319,522 | \$ | 408,187 | \$ | 371,606 | \$ | 356,103 | \$ | 356,103 |
| General obligation bonds payable |  | 35,671,255 |  | 20,395,000 |  | 11,833,596 |  | 44,232,659 |  | 5,308,996 |
| Total | \$ | 35,990,777 | \$ | 20,803,187 | \$ | 12,205,202 | \$ | 44,588,762 | \$ | 5,665,099 |

Compensated absences are generally liquidated by the General Fund.
General obligation bonds payable as of June 30, 2020 are summarized as follows:

| Original Issue Amount and Date | Maturity Date | Purpose | Interest Rate | Balance Due |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Publicly issued long-term debt: |  |  |  |  |  |
| $\$ 8,300,000$ | Installments through | Construction | 1.40\% | \$ | 3,330,659 |
| December 15, 2009 | December 15, 2025 |  |  |  |  |
| \$21,925,000 | Installments through | Construction | 3.00\% |  | 18,705,000 |
| February 27, 2018 | February 1, 2028 |  |  |  |  |
| \$3,076,000 | Installments through | Refinance of Debt | 2.27\% to |  | 1,802,000 |
| May 24, 2018 | February 1, 2023 |  | 2.79\% |  |  |
| \$14,000,000 | Installments through | Construction | 2\% to 5\% |  | 14,000,000 |
| September 9, 2019 | February 1, 2028 |  |  |  |  |
| \$6,395,000 | Installments through | Refinance of Debt | 4\% |  | 6,395,000 |
| April 6, 2020 | February 1, 2029 |  |  |  |  |
|  |  |  |  | \$ | 44,232,659 |

Certain bonds have early redemption clauses that may be exercised at the District's option, subject to certain restrictions.

In September 2019, the District issued \$14,000,000 General Obligation Funding School Bonds, Series 2019A with interest rates of $2.00 \%$ to $5.00 \%$ due February 1, 2021 through 2028 with annual debt service from $\$ 1,070,000$ to $\$ 2,285,000$ to finance the development of a new physical education facility at Moline High School and to pay the costs of issuing the bonds.

In April 2020, the District issued $\$ 6,395,000$ General Obligation Refunding Bonds, Series 2020A with interest rates of $4.00 \%$ due February 1, 2020 through 2029 with annual debt service from \$260,000 to $\$ 1,045,000$ to refund the Districts Taxable General Obligation School Bonds, Series 2010B (Build America Bonds - Direct Payment) and Taxable General Obligation School Bonds, Series 2010C (Recovery Zone Economic Development Bonds - Direct Payment) and pay the costs of issuing the bonds. The refunding was conducted to achieve interest savings. The District completed the current refunding to reduce its total debt service payments by $\$ 456,936$ and obtain an economic gain of \$340,000.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 6. General Long-Term Liabilities (Continued)

As of June 30, 2020, the District's future cash flow requirements for the retirement of general obligation bond principal and interest is as follows:

For the year ending June 30 :

| 2021 | $\$$ | $5,308,996$ | $\$$ | $1,395,015$ | $\$$ | $6,704,011$ |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| 2022 |  | $5,503,500$ |  | $1,143,568$ | $6,647,068$ |  |
| 2023 |  | $5,650,109$ |  | 957,239 | $6,607,348$ |  |
| 2024 |  | $5,798,824$ |  | 765,551 |  | $6,564,375$ |
| 2025 |  | $5,941,648$ |  | 612,477 | $6,554,125$ |  |
| $2026-2029$ |  | $16,029,582$ |  | 975,994 | $17,005,576$ |  |
|  | $\$$ | $44,232,659$ | $\$$ | $5,849,844$ | $\$$ | $50,082,503$ |

## Legal debt margin:

| Assessed valuation |  | 877,341,626 |
| :---: | :---: | :---: |
| Statutory debt limit (13.8\% of assessed valuation) | \$ | 121,073,144 |
| Less indebtedness, outstanding general obligation bonds |  | 44,232,659 |
| Legal debt margin | \$ | 76,840,485 |

## Note 7. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks, except for employee's health benefits, are covered by the purchase of commercial insurance.

Settled claims from these risks have not exceeded the planned coverage during any of the past three years.

The District maintains an Internal Service Fund to account for its self-insurance related to its employees' health benefits. Self-insurance is in effect up to an individual stop loss amount of \$200,000 and aggregate stop loss amount of approximately $125 \%$ of cumulative monthly claim expenditures, with coverage from a private insurance company maintained for losses in excess of the aggregate stop loss amounts. All claim handling procedures are performed by an independent claims administrator. Liabilities are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Recognized liabilities include a provision for all estimated claims incurred but not reported. The changes in the aggregate liabilities for claims for the years ended June 30, 2020 and 2019 are as follows:

|  | 2020 |  | 2019 |  |
| :--- | ---: | ---: | ---: | ---: |
|  |  |  |  |  |
| Claims payable, beginning of the year | $\$$ | 409,730 | $\$$ | $1,189,548$ |
| Claims expense |  | $7,712,908$ | $7,110,772$ |  |
| Claims payments |  | $(7,839,190)$ | $(7,890,590)$ |  |
| Claims payable, end of the year | $\$$ | 283,448 | $\$$ | 409,730 |

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 7. Risk Management (Continued)

The District may levy taxes annually for the purpose of providing protection against liability for a tortuous act performed by the District or its employees. The following is a listing of tort immunity expenditures recorded by the District in the Internal Service Fund for the year ended June 30, 2020:

| Liability insurance premiums | $\$ 880,811$ |
| :--- | ---: | ---: |
| Monitoring and compliance | 234,354 |
| Legal counsel | 79,822 |
| Worker's compensation and unemployment claims | 39,750 |
|  | $1,034,737$ |

Monitoring and compliance expenditures represent an allocation of the salaries of teachers and administrators based on time spent performing and monitoring compliance activities during the school day.

## Note 8. Pension Plans

Employees of the District are eligible to participate in one of two pension plans. Below is a summary of amounts reported by the District as of and for the year ended June 30, 2020:

|  |  | Illinois Teachers' Retirement System |  | Illinois Municipal Retirement Fund |  | Total |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Net pension liability | \$ | 4,189,902 | \$ | 5,905,557 | \$ | 10,095,459 |
| Deferred outflows of resources |  | 751,757 |  | 1,368,384 |  | 2,120,141 |
| Deferred inflows of resources |  | 5,239,920 |  | 2,885,901 |  | 8,125,821 |
| Pension expense |  | 30,895,636 |  | 500,223 |  | 31,395,859 |

## Illinois Teachers' Retirement System (TRS)

Plan description: The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/cafrs/fy2018; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling 888678 3675, option 2.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 8. Pension Plans (Continued)

Benefits provided: TRS provides retirement, disability and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides $2.2 \%$ of final average salary up to a maximum of $75 \%$ with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3\% increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of $3 \%$ of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. The earliest possible implementation date is July 1, 2020. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs will begin after July 1, 2020 and will be funded by bonds issued by the state of Illinois.

Contributions: The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to $90 \%$ of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2020, was $9 \%$ of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On-behalf contributions to TRS: The state of Illinois makes employer pension contributions on behalf of the employer. For the year ended June 30, 2020, state of Illinois contributions recognized by the District were based on the state's proportionate share of the collective net pension liability associated with the employer, and the employer recognized revenue and expenditures of $\$ 4,483,196$ in pension contributions from the state of Illinois.
2.2 formula contributions: Employers contribute $0.58 \%$ of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2020, were $\$ 247,110$ and are deferred because they were paid after the June 30, 2019 measurement date of the net pension liability.

## Notes to Basic Financial Statements

## Note 8. Pension Plans (Continued)

Federal and special trust fund contributions: When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2020, the District pension contribution was $10.66 \%$ of salaries paid from federal and special trust funds. For the year ended June 30, 2020, salaries totaling \$533,080 were paid from federal and special trust funds that required employer contributions of $\$ 53,728$. These contributions are deferred because they were paid after the June 30,2019 measurement date of the net pension liability.

Employer retirement cost contributions: Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members granted salary increases over 6\% if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2020, the District paid none to TRS for District contributions due on salary increases in excess of 6\%, and none for sick leave days granted in excess of the normal annual allotment.

Pension liabilities, pension expense, deferred outflows of resources and deferred inflows of resources related to pensions: At June 30, 2020, the employer reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the employer. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 and rolled forward to June 30, 2019. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2019, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2019, the District's proportion was $0.0051658299 \%$, which was a decrease of 0.000319 from its proportion measured as of June 30, 2018.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 8. Pension Plans (Continued)

For the year ended June 30, 2020, the District recognized pension expense of $\$ 30,897,210$ and revenue of $\$ 32,376,078$ for support provided by the state. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|  | Deferred Outflow of Resources |  | Deferred Inflow of Resources |  |
| :---: | :---: | :---: | :---: | :---: |
| Differences between expected and actual experience | \$ | 68,703 | \$ | - |
| Net difference between projected and actual earnings on pension plan investments |  | 6,637 |  | - |
| Changes of assumptions |  | 93,882 |  | $(80,425)$ |
| Changes in proportion and differences between District contributions and proportionate share of contributions |  | 281,697 |  | $(5,159,495)$ |
| Total deferred amounts to be recognized in pension expense in future periods |  | 450,919 |  | $(5,239,920)$ |
| District contributions subsequent to the measurement date |  | 300,838 |  | - |
| Total | \$ | 751,757 | \$ | (5,239,920) |

\$300,838 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ending June 30, 2021. The deferred outflows and inflows of resources resulting from the difference between projected and actual earnings on pension plan investments will be recognized in pension expense over five years. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense over the average remaining service life (as of the beginning of the fiscal year) as follows:

Years ended June 30:

| 2021 | $\$(1,454,220)$ |
| :--- | ---: |
| 2022 | $(1,325,084)$ |
| 2023 | $(1,350,195)$ |
| 2024 | $(641,824)$ |
| 2025 | $(17,678)$ |
|  | $\underline{(4,789,001)}$ |

Actuarial assumptions: The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | $2.50 \%$ |
| :--- | :--- |
| Salary increases | $9.50 \%$ at one year of service to 4.00 at 20 and more years of service |
| Investment rate of return | $7.0 \%$, net of pension plan investment expense, including inflation |

Mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. The rates are used on a fully-generational basis using projection table MP-2017.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 8. Pension Plans (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The actuarial assumptions used in the June 30, 2019 actuarial evaluation are based on the actuarial experience analysis dated September 2018 that covered the period July 1, 2014 to June 30, 2017.

The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

|  | Target <br> Allocation | Long-Term <br> Expected Rate <br> of Return |
| :--- | :---: | :---: |
|  |  |  |
| U.S. equities large cap | $15.0 \%$ | $6.30 \%$ |
| U.S. equities small/mid cap | 2.0 | 7.70 |
| International equities developed | 13.6 | 7.00 |
| Emerging market equities | 3.4 | 9.50 |
| U.S. bonds core | 8.0 | 2.20 |
| U.S. bonds high yield | 4.2 | 4.00 |
| International debt developed | 2.2 | 1.10 |
| Emerging international debt | 2.6 | 4.40 |
| Real estate | 16.0 | 5.20 |
| Commodities (real return) | 4.0 | 1.80 |
| Hedge funds (absolute return) | 14.0 | 4.10 |
| Private equity | 15.0 | 9.70 |
| $\quad$ Total | $100.0 \%$ |  |

Discount rate: At the June 30, 2019 measurement date, the discount rate used to measure the total pension liability was $7 \%$. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier l's liability is partially-funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. Despite the subsidy, all projected future payments were not covered, so a slightly lower long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

## Notes to Basic Financial Statements

Note 8. Pension Plans (Continued)
Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate: The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of $7 \%$, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6\%) or 1-percentage-point higher (8\%) than the current rate.

|  | $\begin{array}{c}\text { Current } \\ \text { 1\% Decrease } \\ (6 \%)\end{array}$ |  |  |  | $\begin{array}{c}\text { Discount Rate } \\ (7 \%)\end{array}$ |
| :--- | :---: | :---: | :---: | :---: | :---: | \(\left.\begin{array}{c}1\% Increase <br>

(8 \%)\end{array}\right]\)

TRS fiduciary net position: Detailed information about the TRS's fiduciary net position as of June 30, 2019 is available in the separately issued TRS Comprehensive Annual Financial Report.

Payables to TRS: As of June 30, 2020, the District reported payables to TRS of \$1,302,306 for required District and employee contributions.

## Illinois Municipal Retirement Fund (IMRF)

Plan description: The District's defined benefit pension plan for employees provides retirement and disability benefits, postretirement increases and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multiemployer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits provided: IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to $1-2 / 3 \%$ of the final rate of earnings for the first 15 years of service credit, plus $2 \%$ for each year of service credit after 15 years to a maximum of $75 \%$ of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48 . Under Tier 1, the pension is increased by $3 \%$ of the original amount on January 1 every year after retirement.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 8. Pension Plans (Continued)

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3\% of the final rate of earnings for the first 15 years of service credit, plus $2 \%$ for each year of service credit after 15 years to a maximum of $75 \%$ of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96 . Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- $3 \%$ of the original pension amount, or
- $1 / 2$ of the increase in the Consumer Price Index of the original pension amount.

Employees covered by benefit terms: As of December 31, 2019, the following employees were covered by the benefit terms:

| Retirees and beneficiaries currently receiving benefits | 384 |
| :--- | ---: |
| Inactive plan members entitled to but not yet receiving benefits | 359 |
| Active plan members | 299 |
| Total | 1,042 |

Contributions: As set by statute, the District's Regular Plan Members are required to contribute 4.5\% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2019 and 2020 are $13.09 \%$ and $13.32 \%$, respectively. For the fiscal year ended June 30, 2020 the District contributed $\$ 1,261,744$ to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net pension liability: The District's net pension liability was measured as of December 31, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial assumptions: The following are the methods and assumptions used to determine total pension liability at December 31, 2019:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.50\%.
- Salary Increases were expected to be $3.35 \%$ to $14.25 \%$, including inflation.
- The Investment Rate of Return was assumed to be 7.25\%.
- Projected Retirement Age was from the experience-based table of rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from years 2014 to 2016.
- For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Healthy Annuitant Mortality Tables with adjustments to match current IMRF experience
- For Disabled Retirees, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed form the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 8. Pension Plans (Continued)

For Active Members, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

The actuarial assumptions used in the December 31, 2019 valuation were based on the results of the 2017 actuarial experience study covering the period 2014-2016.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class | Portfolio Target Percentage | Long-Term <br> Expected Real <br> Rate of Return |
| :---: | :---: | :---: |
| Domestic equity | 37\% | 5.75\% |
| International equity | 18 | 6.50 |
| Fixed income | 28 | 3.25 |
| Real estate | 9 | 5.20 |
| Alternative investments | 7 | 3.60-7.60 |
| Cash equivalents | 1 | 1.85 |
| Total | 100\% |  |

Discount rate: The discount rate used to measure the total pension liability was $7.25 \%$. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from participating employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

## Notes to Basic Financial Statements

## Note 8. Pension Plans (Continued)

Changes in the net pension liability:

|  |  | Total Pension Liability (A) |  | Ian Fiduciary Net Position (B) |  | Net Pension Liability (A) - (B) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Balances at June 30, 2019 |  | 67,260,894 | \$ | 55,200,204 | \$ | 12,060,690 |
| Changes for the year: |  |  |  |  |  |  |
| Service cost |  | 1,025,766 |  | - |  | 1,025,766 |
| Interest on the total pension liability |  | 4,767,419 |  | - |  | 4,767,419 |
| Differences between expected and actual experience of the total pension liability |  | 251,626 |  | - |  | 251,626 |
| Contributions-employer |  | - |  | 1,127,863 |  | $(1,127,863)$ |
| Contributions-employees |  | - |  | 473,392 |  | $(473,392)$ |
| Net investment income |  | - |  | 10,655,479 |  | $(10,655,479)$ |
| Benefit payments, including refunds of of employee contributions |  | $(4,032,558)$ |  | $(4,032,558)$ |  | - |
| Other (net transfer) |  | - |  | $(56,790)$ |  | 56,790 |
| Net changes |  | 2,012,253 |  | 8,167,386 |  | $(6,155,133)$ |
| Balances at June 30, 2020 | \$ | 69,273,147 | \$ | 63,367,590 | \$ | 5,905,557 |

Sensitivity of the net pension liability to changes in the discount rate: The following presents the plan's net pension liability, calculated using a single discount rate of $7.25 \%$, as well as what the plan's net pension liability (asset) would be if it were calculated using a single discount rate that is $1 \%$ lower or 1\% higher:

Net pension liability (asset)

| 1\% Decrease <br> $(6.25 \%)$ | Current Discount <br> $(7.25 \%)$ | $1 \%$ Increase <br> $(8.25 \%)$ |  |
| :---: | :---: | :---: | :---: |
| $\$ 13,813,057$ | $\$ \quad 5,905,557$ | $\$$ | $(736,048)$ |

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 8. Pension Plans (Continued)

Pension expense, deferred outflows of resources, and deferred inflows of resources related to pension: For the year ended June 30, 2020, the District recognized pension expense of \$1,500,223. At June 30, 2020, the District reported deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

| Deferred Amounts Related to Pensions | Deferred <br> Outflows of Resources | Deferred Inflows of Resources |
| :---: | :---: | :---: |
| Deferred amounts to be recognized in pension expense in future periods: |  |  |
| Differences between expected and actual experience | \$ 263,448 | \$ |
| Changes of assumptions | 395,075 | - |
| Net difference between projected and actual earnings on pension plan investments | - | $(2,885,901)$ |
| Total deferred amounts to be recognized in pension expense in future periods | 658,523 | $(2,885,901)$ |
| Pension contributions made subsequent to the measurement date | 709,861 | - |
| Total deferred amounts related to pensions | \$ 1,368,384 | \$ (2,885,901) |

\$709,861 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2021.

The deferred outflows of resources resulting from the difference between projected and actual earnings on pension plan investments will be recognized in pension expense over five years. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods over the average remaining service life (as of the beginning of the fiscal year) as follows:

|  |  | Deferred <br> Outflows (Inflows) of Resources |
| :---: | :---: | :---: |
| Years ending December 31: |  |  |
| 2021 | \$ | $(258,644)$ |
| 2022 |  | $(860,456)$ |
| 2023 |  | 240,452 |
| 2024 |  | $(1,348,730)$ |
| Total | \$ | (2,227,378) |

Payables to IMRF: As of June 30, 2020, the District reported payables to IMRF of \$53,810 for required District and employee contributions.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 9. Other Postemployment Benefits

The District offers two plans that employees may participate in, a self-funded District plan and the Illinois Teacher Health Insurance Security, (THIS). Below is a summary of amounts reported by the District as of and for the year ended June 30, 2020:

| Total OPEB liability | $\$$ | $16,309,764$ | $\$$ | $45,419,320$ | $\$$ | $61,729,084$ |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Deferred outflow of resources |  | 925,928 |  | $1,415,911$ | $2,341,839$ |  |
| Deferred inflow of resources |  | $3,090,679$ |  | $7,474,187$ | $10,564,866$ |  |
| OPEB expense | $(371,868)$ | $4,102,425$ | $3,730,557$ |  |  |  |

## District's defined benefit OPEB

Plan description: The District's defined benefit OPEB plan is a single-employer health care plan that provides OPEB for active and retired employees and their eligible dependents. The plan is administered by the District and the District has the authority to establish or amend the plan provisions or contribution requirements through the Board of Education. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75. The plan does not issue a stand-alone financial report.

Benefits provided: The District provided health insurance benefits for hourly employees and those noncertified staff until they reach 65 years of age at full cost to the retiree. For employees covered under a collective bargaining agreement, the District will pay one-half of the premiums for health and medical insurance as long as the employee is eligible to receive retirement benefits under the Illinois Municipal Retirement Fund or the Teachers' Retirement System.

Contributions: The required contribution is based on projected pay-as-you go financing. For fiscal year 2020, the District contributed $\$ 866,879$. Retiree and active members receiving benefits have required contributions based upon the current premiums charged for health insurance by the District or set rates by the state plan.

Employees covered by benefit terms: At June 30, 2020, the following employees were covered by the benefit terms:

## Total OPEB Liability

The District's total OPEB liability of $\$ 16,309,764$ was measured as of June 30, 2020, and was determined by an actuarial valuation as of July 1, 2019, rolled forward to the measurement date.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 9. Other Postemployment Benefits (Continued)

Actuarial methods and assumptions: The total OPEB liability was determined on an actuarial valuation dated June 30, 2019 with results projected to the June 30, 2020 measurement date using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| Inflation | $3.00 \%$ |
| :--- | :--- |
| Salary increases | $4.00 \%$ |
| Discount rate | $2.66 \%$, based on S\&P Municipal Bond 20-Year High <br> Grade Rate Index. |
| Health care cost trend rates | Initial cost for TRIP plan members is 5.00\% staying <br> consistent for all year. Initial cost for the District's plan <br> is $10.00 \%$ decrease ultimately to $5.0 \%$ |

Rates of mortality, retirement, withdrawal and disability are the same as those used in the December 31, 2019 IMRF valuation report and the June 30, 2019 Teachers' Retirement System Actuarial Valuation Report, respectively.

## Changes in the total OPEB liability

|  |  | Total OPEB <br> Liability |
| :---: | :---: | :---: |
| Balance as of June 30, 2019 |  | 15,221,833 |
| Changes for the year: |  |  |
| Service cost |  | 718,488 |
| Interest |  | 412,596 |
| Changes in assumptions or other inputs |  | 792,947 |
| Contributions and payments made |  | $(866,879)$ |
| Other changes |  | 30,779 |
| Net changes |  | 1,087,931 |
| Balance as of June 30, 2020 | \$ | 16,309,764 |

The discount rate was changed from $2.79 \%$ as of June 30, 2019 to $2.66 \%$ as of June 30, 2020. Starting per capita costs were updated using most recent premiums. The health care trend rates were reset based on recent experience. Decrements were changed to those in the most recent IMRF and TRS Pension Fund valuation reports. The benefits and eligibility for Administrators and Certified Teachers were changed to the current policy.

## Notes to Basic Financial Statements

## Note 9. Other Postemployment Benefits (Continued)

Sensitivity of the total OPEB liability to changes in the discount rate: The following presents the total OPEB liability of the District, as well as what the District's approximate total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

Total OBEP liability

| 1\% Decrease <br> $(1.66 \%)$ | Discount Rate <br> $(2.66 \%)$ | 1\% Increase <br> $(3.66 \%)$ |
| :---: | :---: | :---: |
| $\$ 17,253,731$ | $\$ 16,309,764$ | $\$ 15,410,856$ |

Sensitivity of the total OPEB liability to changes in the health care cost trend rates: The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using health care cost trend rates that are 1-percentage-point lower or 1-percentagepoint higher than the current health care cost trend rates:

OPEB expense and deferred outflows of resources and deferred inflows of resources related to OPEB: For the year ended June 30, 2020, the District recognized OPEB expense of $\$(371,868)$. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following source:

Differences between expected and actual experience Changes of assumptions

| Deferred <br> Outflows <br> of Resources |  | Deferred Inflow <br> of Resources |  |
| :---: | ---: | ---: | ---: |
| $\$$ | - | $\$$ | $(550,526)$ <br> $(2,540,153)$ |
| $\$$ | 925,928 |  |  |

## Notes to Basic Financial Statements

## Note 9. Other Postemployment Benefits (Continued)

Amounts reported as the deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense over the average future service to retirement of plan participants as follows:

## Teachers' Health Insurance Security Fund OPEB

Plan description: The District (employer) participates in the Teachers' Health Insurance Security Fund (THIS) of the State of Illinois. THIS is a cost-sharing multiple-employer defined benefit postemployment health care plan (OPEB) established by the Illinois legislature for the benefit of eligible retired Illinois public school teachers employed outside the City of Chicago (members). All District employees receiving monthly benefits from the Teachers' Retirement System (TRS) who have at least eight years of creditable service with TRS, the survivor of an annuitant or benefit recipient who had at least eight years of creditable service or a recipient of a monthly disability benefit are eligible to enroll in THIS.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Plan and amendments to the Plan can be made only by legislative action with the Governor's approval. The Plan is administered by the Illinois Department of Central Management Services. The publicly available financial report of the Plan may be found on the website of the Illinois Auditor General. The current reports are listed under "Central Management Services" (http://www.auditor.illinois.gov/Audit-Reports/CMS-THISF.asp).

Benefits provided: THIS provides medical, prescription, and behavioral health benefits for eligible retirees and their dependents, but it does not provide vision, dental or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan. The premiums charged reflect approximately a $75 \%$ subsidy for members that elect a managed care plan or elect the Teachers' Choice Health Plan (TCHP) plan if a managed care plan is either not available or only partially available. Members receive approximately a $50 \%$ subsidy if they elect the TCHP when a managed care plan is available. Medicare primary dependent beneficiaries enrolled in a managed care plan or in the TCHP when no managed care plan is available receive a premium subsidy.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 9. Other Postemployment Benefits (Continued)

Contributions: The State Employees Group Insurance Act of 1971 (5 ILCS 375/6) specifies the contribution requirements of the participating school districts and covered employees. For the year ended June 30, 2020, required contributions are as follows:

- Active members contribute 1.24\% of covered payroll.
- Employers contribute $0.92 \%$ of covered payroll. The percentage of employer required contributions in the future will not exceed $105 \%$ of the percentage of salary actually required to be paid in the previous fiscal year. For the year ended June 30, 2020, the employer paid \$391,958 to the THIS Fund, which was $100 \%$ of the required contribution.
- The State of Illinois makes contributions on behalf of the employer. State contributions are intended to match contributions to the THIS Fund from active members. The State contributed 1.18\% of covered payroll. For the year ended June 30, 2020, State of Illinois contributions on behalf of the District's employees were $\$ 604,978$ and the employer recognized revenue and expenditures for this on-behalf contribution amount during the year in the General Fund.
- Retired members contribute through premium payments based on the coverage elected, Medicare eligibility, and the age of the member and dependents. The premium for retired members is not permitted to increase by more than $5.0 \%$ per year by statute. The Federal Government provides a Medicare Part D subsidy.

OPEB liabilities, expense and deferred outflows of resources and deferred inflows of resources: At June 30, 2020, the employer reported a liability for its proportionate share of the collective net OPEB liability that reflected a reduction for state pension support provided for the District. The state's support and total are for disclosure purposes only. The OPEB proportionate shares are as follows:

| Employer's proportionate share of the collective net OPEB liability | $\$ 45,419,320$ |
| :--- | :--- |
| The portion of the State's proportionate share amount of the collective |  |
| net OPEB liability associated with the District | 61,503,462 |
| Total THIS net collective OPEB liability associated with the employer | $\boxed{\$ 106,922,782}$ |

The collective net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the collective net OPEB liability was determined by an actuarial valuation as June 30, 2018, and rolled forward to June 30, 2019. The employer's proportionate share of the net OPEB liability was based on the employer's share of contributions to THIS for the measurement year ended June 30, 2019, relative to the contributions of all participating employers and the State during that period. At June 30, 2019, the District's proportion was $0.164102 \%$, which was a decrease of $0.001634 \%$ from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized the following for OPEB expense/expenditure and revenue pertaining to the District's employees:

|  | Governmental <br> Activities |  |
| :---: | :---: | :---: |
| State's proportionate share amount of the collective OPEB expense associated with the District | \$ | 2,014,116 |
| District OPEB expense/expenditure |  | 2,088,297 |
| Total OPEB expense/expenditure | \$ | 4,102,413 |

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 9. Other Postemployment Benefits (Continued)

At June 30, 2020, the employer reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|  |  | Deferred Inflow of Resources |
| :---: | :---: | :---: |
| Differences between expected and actual experience | \$ | \$ $(753,698)$ |
| Changes in proportion and differences between employer contributions and proportionate share of contributions | 17,219 | $(1,512,469)$ |
| Net difference between projected and actual investment earnings | - | $(1,487)$ |
| Changes of assumptions | 1,006,734 | $(5,206,533)$ |
| Total deferred amounts to be recognized in expense in future periods | 1,023,953 | $(7,474,187)$ |
| Employer contributions subsequent to the measurement date | 391,958 | - |
|  | \$ 1,415,911 | \$ $(7,474,187)$ |

The District reported $\$ 391,958$ as deferred outflows of resources resulting from employer contributions subsequent to the measurement date that will be recognized as a reduction of the collective net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in expense as follows:

| Years ending June 30: |  |
| :--- | ---: |
| 2021 | $(1,299,110)$ |
| 2022 | $(1,299,110)$ |
| 2023 | $(1,298,983)$ |
| 2024 | $(1,298,718)$ |
| 2025 | $(882,515)$ |
| Thereafter | $(371,798)$ |

## Notes to Basic Financial Statements

## Note 9. Other Postemployment Benefits (Continued)

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of June 30 , 2018, projected to June 30, 2019, based on the entry age normal cost method and using the following actuarial assumptions:

| Discount rate | $3.13 \%$ at June 30, 2019 <br> Inflation |
| :--- | :--- |
| Salary increases | Depends on service and ranges from $9.50 \%$ at 1 year of <br> service to 4\% at 20 or more years of service. Salary <br> increase includes a 3.25\% wage inflation assumption. |
| Investment rate of return | 0\%, net of OPEB plan investment expense, including <br> inflation. |
| Health care cost trend rates | Actual trend used for fiscal year 2019. For fiscal years on <br> and after 2020, trend starts at $8.00 \%$ and $9.00 \%$ for non- <br> Medicare costs and post-Medicare costs, respectively, and <br> gradually decreases to an ultimate trend of 4.50\%. <br> Additional trend rate of $0.31 \%$ is added to non-Medicare <br> cost on and after 2022 to account for the Excise Tax. |
|  |  |

$80 \%$ of future retirees that are currently active are assumed to elect health care coverage, with $80 \%$ electing single coverage and $20 \%$ electing two-person coverage.
$70 \%$ of current deferred vested participants with at least seven years of service and younger than 70 as of June 30, 2017, are assumed to elect healthcare coverage, with $80 \%$ electing single coverage and $20 \%$ electing two-person coverage.

The pension-related assumptions disclosed in the TRS experience study for the period July 1, 2014 through June 30, 2017, were applied to the THIS actuarial valuation as of June 30, 2018. Among other pension-related assumptions, mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-2014 Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table, sex distinct. All tables reflect future mortality improvements using Projection Scale MP-2017.

The following OPEB-related assumption changes were made since the June 30, 2017 OPEB actuarial valuation date:

- The discount rate was changed from $3.62 \%$ at June 30, 2018 to $3.13 \%$ at June 30, 2019;
- The health care trend assumption was updated based on claim and enrollment experience through June 30, 2018, projected plan cost for plan year end June 30, 2019, premium changes through plan year end 2020, and expectation of future trend increases after June 30, 2019;
- The Excise trend rate adjustment was updated based on available premium and enrollment information as of June 30, 2019;
- Per capita claim costs were updated based on projected claims and enrollment experience through June 30, 2019, and updated premium rates through plan year 2020; and
- Health care plan participation rates by plan were updated based on observed experience.

## Notes to Basic Financial Statements

## Note 9. Other Postemployment Benefits (Continued)

The long-term expected rate of return assumption was set to zero. As such, ranges of expected future real rates of return by asset class were not developed.

Discount Rate. Since THIS is financed on a pay-as-you-go basis, a long-term rate of return was not used and the discount rate used to measure the total OPEB liability was the 20 -year general obligation bond index rate (source was Fidelity Index's 20 -year municipal GO AA Index). The discount rate as of June 30, 2019 was $3.13 \%$, which was an increase from the June 30, 2018 rate of $3.62 \%$.

Sensitivity of the Employer's Proportionate Share of the Net OPEB Liability to Changes in the Single Discount Rate. The following presents the plan's net OPEB liability, calculated using a Single Discount Rate of $3.13 \%$, as well as what the plan's net OPEB liability would be if it were calculated using a Single Discount rate that is one percentage point higher (4.13\%) or lower (2.13\%) than the current rate:

|  | Current <br> Discount Rate <br> $3.13 \%$ |  |  |  |
| :--- | :---: | :---: | :---: | :---: | | $1 \%$ Decrease Increase |
| :---: |
| Employer's proportionate share of the |
| collective net OPEB liability |

Sensitivity of net OPEB liability to changes in the health care cost trend rate: The following presents the plan's net OPEB liability, calculated using the health care cost trend rates as well as what the plan's net OPEB liability would be if it were calculated using a health care cost trend rate that is one percentage point higher or lower, than the current health care cost trend rates. The key trend rates are $8.00 \%$ in 2020 decreasing to an ultimate trend rate of $4.81 \%$ in 2027, for non-Medicare coverage, and $9.00 \%$ decreasing to an ultimate trend rate of $4.50 \%$ in 2027 for Medicare coverage.

|  | Health Care <br> Cost Trend <br> Rates |  |  |  | $1 \%$ <br> Increase <br> (b) |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Employer's proportionate share of the net | $1 \%$ <br> Decrease <br> (a) | Assumption |    <br> OPEB liability $\$ 36,695,106$ $\$ 45,419,320$ |  |  |
|  | $\$ 57,202,473$ |  |  |  |  |

(a) One percentage point decrease in health care trend rates are $7.00 \%$ in 2019 decreasing to an ultimate trend rate of $3.81 \%$ in 2027, for non-Medicare coverage, and $8.00 \%$ in 2018 decreasing to an ultimate trend rate of $3.50 \%$ in 2027 for Medicare coverage.
(b) One percentage point increase in health care trend rates are $9.00 \%$ in 2019 decreasing to an ultimate trend rate of $5.81 \%$ in 2027, for non-Medicare coverage, and 10.00\% in 2019 decreasing to an ultimate trend rate of $5.50 \%$ in 2027 for Medicare coverage.

OPEB plan fiduciary net position. Detailed information about the THIS plan fiduciary net position is available in the separately issued THIS financial report.

Payable to the OPEB plan. At June 30, 2020, the District reported a payable of $\$ 289,279$ for the outstanding amount of contributions to the THIS plan for the year ended June 30, 2020.

## Note 10. Commitments and Guarantees

The District had significant encumbrances in the General fund, capital projects fund and nonmajor governmental funds of $\$ 1,629,919, \$ 1,487,281$ and $\$ 1,020,444$, respectively.

During the year ended June 30, 2020, the District guaranteed a note payable of the Moline Booster Club. As of June 30, 2020, the outstanding balance of the note was $\$ 307,801$.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 11. Tax Abatements

The Rock Island County Assessor's Office, in conjunction with municipalities located within Rock Island County and within the District's boundaries, encourage certain industrial and commercial development through the establishment of tax increment financing districts for new industrial facilities, the rehabilitation of existing industrial structures, and industrial utilization of abandoned buildings or areas experiencing severe stagnation. The District estimates its portion of annual abatement of property taxes to various local companies under these development incentives approximates $\$ 2.6$ million during the year ended June 30, 2020.

During the year ended June 30, 2017, the District entered into a development and economic incentive agreement with a local developer under Illinois Constitution Article VII, Section 10(a) whereas the developer agrees to redevelop certain property described in the agreement and the District is to provide an incentive in the form of certain economic development assistance. The District will pay the developer incentive payments based on a percentage of the increase from the 2015 base year equalized assessed value of the property for a maximum incentive of $\$ 1,200,000$ to be considered a property tax rebate to be paid to the developer. No taxes have been abated as of June 30, 2020.

## Note 12. Pending Governmental Accounting Standards Board (GASB) Statements

GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance, issued in May 2020, will be effective immediately for the District. The objective of Statement No. 95 is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic by delaying the effective dates of pronouncements not yet adopted by 12-18 months. The following pronouncements have been updated to reflect the new effective dates.

The GASB has issued several statements not yet implemented by the District. The statements which may impact the District are as follows:

- GASB Statement No. 84, Fiduciary Activities, issued February 2017, will be effective for the District beginning with its fiscal year ending June 30, 2021. The objective of Statement No. 84 is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. Governments with activities meeting the criteria should present a statement of fiduciary net position and a statement of changes in fiduciary net position. An exception to that requirement is provided for a business-type activity that normally expects to hold custodial assets for three months or less. This Statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds and (4) custodial funds. Custodial funds generally should report fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. Events that compel a government to disburse fiduciary resources occur when a demand for the resources has been made or when no further action, approval or condition is required to be taken or met by the beneficiary to release the assets.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 12. Pending Governmental Accounting Standards Board (GASB) Statements (Continued)

- GASB Statement No. 87, Leases, issued June 2017, will be effective for the District beginning with its fiscal year ending June 30, 2022, with earlier adoption encouraged. Statement No. 87 establishes a single approach to accounting for and reporting leases by state and local governments. Under this statement, a government entity that is a lessee must recognize (1) a lease liability and (2) an intangible asset representing the lessee's right to use the leased asset. In addition, the County must report the (1) amortization expense for using the lease asset over the shorter of the term of the lease or the useful life of the underlying asset, (2) interest expense on the lease liability and (3) note disclosures about the lease. The Statement provides exceptions from the single-approach for shortterm leases, financial purchases, leases of assets that are investments and certain regulated leases. This statement also addresses accounting for lease terminations and modifications, sale-leaseback transactions, non-lease components embedded in lease contracts (such as service agreements), and leases with related parties.
- GASB Statement No. 91, Conduit Debt Obligations, will be effective for reporting periods beginning after December 15, 2021. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with
(1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and
(3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures.
- GASB Statement No. 92, Omnibus 2020, issued in January 2020, will be effective for the District fiscal years beginning after June 15, 2021. The objective of Statement No. 92 is to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB statements. This Statement addresses a variety of topics including issues related to leases, postemployment benefits (pensions and other postemployment benefits), fiduciary activities, asset retirement obligations and fair value measurement and application.
- GASB No. 93, Replacement of Interbank Offered Rates establishes how the District will report the change of any of its variable payment debt that are tied to the London Interbank Offered Rate (LIBOR) when the LIBOR standard is no longer used after December 31, 2021. This statement will be effective for the District with its year ending June 30, 2022 except for provision relating to the removal of the LIBOR rate, which will be effective for the fiscal year ending June 30, 2023.
- GASB Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements will improve financial reporting by addressing issues related to public-private and public-public partnerships and provides guidance for accounting and reporting for availability payment arrangements. This statement will be effective for the District with its year ending June 30, 2023.
- GASB Statement No. 96, Subscription-Based Information Technology Arrangements provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users. This statement (1) defines a SBITA;
(2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosure regarding a SBITA. This statement will be effective for the District with its year ending June 30, 2023.

## Moline-Coal Valley School District No. 40

## Notes to Basic Financial Statements

## Note 12. Pending Governmental Accounting Standards Board (GASB) Statements (Continued)

- GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans will result in more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans. This statement will also enhance the relevance, consistency and comparability of (1) the information related to Section 457 plans that meet the definition of a pension plan and the benefits provided through those plans and (2) investment information for all Section 457 plans. Another objective of this statement is to increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform. This statement will be effective for the District with its year ending June 30, 2023.

The District's management has not yet determined the effect of Statement Nos. 84, 87, 91, 92, 93, 94,96 and 97 will have on the District's financial statements, but may have a material effect on the financial statements.

## Note 13. Contingency

On January 30, 2020, the World Health Organization declared the coronavirus outbreak (COVID-19) a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries and their political subdivision. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the coronavirus pandemic.

It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the District. The extent to which COVID-19 may affect the Districts results will depend on future developments, which are highly uncertain and cannot be predicted, including new information, which may emerge concerning the severity of COVID-19 and actions taken to contain COVID-19 or its impact, among others.

Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions.

## Required Supplementary Information Notes to Schedule of Employer Contributions Illinois Municipal Retirement Fund

Summary of Actuarial Methods and Assumptions used in the Calculation of the 2019 Contribution Rate.*
Valuation date:
Notes: Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine 2019 contribution rates:

| Actuarial cost method | Aggregate entry age = normal |
| :---: | :---: |
| Amortization method | Level percentage of payroll, closed |
| Remaining amortization period | Non-Taxing bodies: 10-year rolling period. <br> Taxing bodies (Regular, SLEP and ECO groups): 24-year closed period. <br> Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI. <br> SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 14 years for most employers (three employers were financed over 28 years and four others were financed over 29 years). |
| Asset valuation method | 5-year smoothed market, 20\% corridor |
| Wage growth | 3.25\% |
| Price inflation | 2.50\% |
| Salary increases | $3.35 \%$ to $14.25 \%$, including inflation |
| Investment rate of return | 7.50\% |
| Retirement age | Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2017 valuation pursuant to an experience study of the period 2014 to 2016. |
| Mortality | For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience. |

## Other information:

Notes to Schedule of the Employer's Contributions Teachers' Retirement System of the State of Illinois

## Changes of assumptions

For the 2018, 2017 and 2016 measurement year, the assumed investment rate of return was $7.0 \%$, including an inflation rate of $2.5 \%$ and a real return of $4.5 \%$. Salary increases were assumed to vary by service credit.

For the 2015 measurement year, the assumed investment rate of return was 7.5\%, including an inflation rate of $3.0 \%$ and a real return of $4.5 \%$. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

For the 2014 measurement year, the assumed investment rate of return was also $7.5 \%$, including an inflation rate of $3.0 \%$ and a real return of $4.5 \%$. However, salary increases were assumed to vary by age.

## Required Supplementary Information Notes to the Schedules

## Notes to schedule of contributions

| Valuation date | June 30, 2018 |
| :--- | :--- |
| Measurement date | June 30, 2019 |
| Fiscal year-end date | June 30, 2020 |

## Methods and assumptions used to determine contribution rates:

| Actuarial cost method | Entry Age Normal, used to measure the Total OPEB Liability |
| :---: | :---: |
| Contribution policy | Benefits are financed on a pay-as-you go basis. Contribution rates are defined by statute. For fiscal year end June 30, 2019, contribution rates are $1.24 \%$ of pay for active members, $0.92 \%$ of pay for school districts and $1.24 \%$ of pay for the State. Retired members contribute a percentage of premium rates. The goal of the policy is to finance current year costs plus a margin for incurred but note paid plan costs. |
| Asset valuation method | Market value |
| Investment rate of return | $0 \%$, net of OPEB plan investment expense, including inflation, for all plan years |
| Inflation | 2.50\% |
| Salary increases | Depends on service and ranges from $9.25 \%$ at less than 1 year of service to $4.00 \%$ at 20 or more years of service. Salary increase incudes a $3.25 \%$ wage inflation assumption. |
| Retirement age | Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the June 30, 2018, actuarial valuation. |
| Mortality | Retirement and Beneficiary Annuitants: RP-2014 White Collar Annuitant Mortality Table. Disabled Annuitants: RP-2014 Disabled Annuitant Table. Pre-Retirement: RP-2014 White Collar Table. Tables are adjusted for SURS experience. All tables reflect future mortality improvements using Projection Scale MP-2017. |
| Health care cost trend rates | Actual trend used for fiscal year 2019. For fiscal years on and after 2020, trend starts at $8.00 \%$ and $9.00 \%$ for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of $4.50 \%$. Additional trend rate of $0.31 \%$ is added to non-Medicare cost on and after 2022 to account for the Excise tax. |
| Aging factors | Based on the 2013 SOA Study "Health Care Costs-From Birth to Death" |
| Expenses | Health administrative expenses are included in the development of the per capita claims costs. Operating expenses are included as a component of the Annual OPEB Expense. |

## Moline-Coal Valley School District No. 40

## Note to Required Supplementary Information

## Note 1. Budgets and Budgetary Information

Budgets are adopted by the Board annually for all governmental funds except for the School Activity Fund, a special revenue fund, which is not budgeted. The budgets are prepared on a basis consistent with accounting principles generally accepted in the United States of America.

The Board uses the following procedures in establishing the budget amounts reported in the financial statements:

1. The administration submits to the Board a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments. The proposed budget is readily available at least 30 days prior to final action by the Board.
3. Prior to September 30, the budget is legally adopted through passage of a resolution. By the last Tuesday in December, a tax levy ordinance is filed with the county clerk to obtain tax revenues.
4. The Superintendent is authorized to transfer up to $10 \%$ of the total budget between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board.
5. Legal spending control for the budget is at the fund level, but formal budgetary integration at a line item level is employed as a management control device during the year for each fund.
6. The Board may amend the budget after it is approved using the same procedures required to approve the original budget.
7. Appropriations lapse at the close of the fiscal year to the extent that they have not been expended.

There was one budget amendment for 2020 in the General Fund increasing expenditures by $\$ 1,291,059$.
There was one budget amendment for 2020 in the Aggregate Non-Major Funds, decreasing expenditures by $\$ 275,000$.

During the year ended June 30, 2020, expenditures exceeded the amounts budgeted in the Tort Immunity and Judgement Fund.

## Nonmajor Governmental Funds

Transportation Fund: This fund accounts for all revenue received and expenditures made for student transportation to and from school. Revenue is derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement and Social Security Fund: This fund accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, OASDI and employer's share of Medicare for noncertified employees. Revenue to finance the contributions is derived primarily from local property taxes.

School Activity Fund: This fund accounts for the monies generated by student organizations via fund raising activities.

Tort Immunity and Judgment Fund: This fund accounts for all revenue received and expenditures made for tort immunity or tort judgment purposes. Revenue is derived primarily from local property taxes.

Life Safety Fund: This fund accounts for all revenue received and expenditures made for purposes of fire prevention, safety, energy conservation or school security.

## Statistical Section

Contents

The statistical section of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information presented in the financial statements, note disclosures and required supplementary information say about the District's overall financial health.

Contents
Page

## Financial Trends

These schedules contain trend information to help the reader understand
how the District's financial performance and well being have changed
over time.

## Revenue Capacity

These schedules contain information to help the reader assess the District's
most significant local revenue sources, the property tax (or sales tax).

## Debt Capacity

These schedules present information to help the reader assess the
affordability of the District's current level of outstanding debt and the District's
ability to issue additional debt in the future.

## Demographic and Economic Information

These schedules offer demographic and economic indicators to help the
reader understand the environment within which the District's financial
activities take place.

## Operating Information

These schedules contain service and infrastructure data to help the reader129 understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report for the relevant year.
