

Mercer Island School District Long-Range Facility Plan

18 NOVEMBER 2019

**MERCER ISLAND
SCHOOL DISTRICT**
STUDENTS ARE THE PRIORITY

Welcome!

Introductions, agenda and objectives	20 min
Process/Schedule/Role of Committee	20 min
Vision and Programs	30 min
Vision for education at MISD	
Outline of programs and their relationship to facilities	
Program summary and interview themes	
Designing for Student Centered Excellence	20 min
Break	5 min
Vision/Goal Exercise	1 hr 20min
Goal cards and prioritization	(50 min.)
Grouping into themes	(10 min.)
Questions/discussion	(20 min.)
Next Steps	5 min

What is a LRFP?

Comprehensive summary of facility need

- Studies district facilities' ability to accommodate educational programs

- Tracks district's capacity with respect to projected enrollment

- Documents the condition of district's facilities and sites

Tool for strategic management of a district's facilities over time

- Explores modernizations, additions, replacement, and new construction

- Identifies desirable school sites and site acquisition schedules if needed

- Targets opportunities for more efficient use of sites and facilities

- Creates a prioritized plan that aligns with community support

What does a LRFP do?

Provides insight into community values and priorities

Consolidates information needed to make well-informed decisions

Allows coordination with jurisdictions regarding development in a district

Helps districts strategically plan for future facility needs

Keeps communities informed and builds support

Establishes an ongoing cycle for keeping capital investments up to date

Helps districts avoid doing something now that will need to be undone later

Objectives for Tonight

1. Understand Process/Schedule/Role of Committee
2. Overview of Vision and Programs
3. Overview Designing for Student Centered Excellence
4. Share Your Prioritized Vision/Goals

Introductions, agenda and objectives	20 min

DLT District Leadership Team Meeting (9:00-10:30 am)	FPC Facility Planning Committee Meeting (5:30-8:30 pm)	Community Outreach: Meetings	MTG Board Update Presentation	SB Scheduled Board Meeting	Prep / Documentation
District Review	Educational Program Focus Group / Principal Interviews	U V Community Outreach: Online Update/Survey (U) Video Summary (V)	PKT Packet to Board	District Holidays	Outreach Meeting Prep

What are we asking you to do?

Consistently attend meetings and actively participate

Work with the “big picture”

Express your point of view and be open to other viewpoints

Provide input regarding district’s facilities’ ability to support education in your community

Offer recommendations regarding what makes sense to you

Provide insight into what the broader community might support

Serve as ambassadors for the process and the proposed plan

.....and hopefully have fun!

We are not asking you to....

Lead the planning process

Make final decisions regarding what is done with district facilities

Establish policy

Mercer Island School District

Good to Great...“How effectively do we deliver on our mission and make a distinctive impact, relative to our resources?” - Jim Collins

Board Policy 0001

Board Policy 0001

Students are the priority

Values, Vision & Mission

Values - What are the core beliefs of our organization?

Vision - What is our “WHY”? What do we want for our MISD students?

Mission - How are we going to reach our aspirations?

Core Values, Vision & Mission

CORE VALUES

Students are the priority.

We believe in:

- Supporting the whole child
- Creating inclusive and equitable learning settings
- Ensuring our school communities are safe and supportive
- Providing rigorous and challenging learning

VISION

Inspiring our students to be lifelong learners as they create their futures.

MISSION

Mercer Island School District will foster learning by engaging students in thinking critically, solving problems creatively, and working collaboratively.

Operational Expectation 1800 OE -1

Fundamentals

- 1. Create a personalized learning environment where differentiated instruction, student-centered education and varied learning opportunities are responsive to students' strengths, needs, interests and passions.**
- 2. Maintain the highest learning standards in the areas of fine arts; health and physical fitness; English language arts; mathematics; financial education; science; environment and sustainability; social studies; world languages; computer science; and educational technology.**
- 3. Develop self-awareness, empathy, emotional/social intelligence, responsible decision-making and citizenship.**

OE -1 Fundamentals

- 4. Encourage and enable students to be academic entrepreneurs and risk-takers who can choose to pursue academic passions and interests beyond traditional curriculum and beyond the traditional classroom environment.**
- 5. Cultivate and foster thinking and process skills such as analytical and critical thinking, cross-discipline thinking, creativity, innovation, leadership, collaboration, communication, problem-solving, and information and technology literacy in curriculum design.**
- 6. Cultivate global awareness and understanding of real-world problems, issues, concerns, commonalities, differences and interdependence.**
- 7. Foster and embrace diversity, inclusiveness, and equity with a focus on respect and acceptance of every student.**

Superintendent Focus Priorities

Teaching and Learning

What learning do we want for our students?

How are we preparing our students for their world?

Educational Programs for Students

Learning Standards (ELA, Math, Science, Environment and Sustainability, Social Studies, Fine Arts, Health and Physical Education, Financial Education, Computer Science, Educational Technology)

Special Education Services (Pre-K - Adult Transition)

College Career Readiness (CTE)

Alternative Education (including online learning)

Before and After School Care

Athletics/Extra-Curriculars

Multi-Tier Systems of Support

Implement a child-centered system of tiered supports that is inclusive and educates all students at all levels including:

- Interventions for core subject areas (RTI)
- Social-emotional needs (PBIS)

Inclusive and equitable child-centered education for each student

Assure equity and inclusion for each student that recognizes students' voice through continued review and adjustments to the District's:

- Programs/Services
- Practices
- Policies

Professional Learning

Develop and sustain professional learning that has a clear focus and is:

- Student centered
- Focused on the whole child, including social emotional and deep learning
- Utilizes best practices in support of quality teaching and learning for each student
- Collaborative
- Educator driven

Island Park Elementary

“Multipurpose” room is used as a cafeteria and gymnasium. This causes a loss of 1 hour and 20 minutes per day for PE uses.

Having a centralized SPED area would allow better opportunity to connect with other students.

Multiple sensory rooms or “safe spaces” would be very useful. These would ideally be distributed throughout the school and easily accessible.

The campus is not secure. This problem is primarily related to multiple disconnected buildings (multipurpose and modular classrooms).

More “flex spaces” / project spaces distributed throughout the school would be useful.

Lakeridge Elementary

Shared use of multipurpose room results in limited lunch set up time, impact on PE programming and food service carts having to be stored outside during PE.

Lack of multipurpose / common space.

No pods / project areas (classrooms and library are used for these functions).

Students in modular classrooms cut through other classrooms to enter the building (i.e. to use the restroom, go to the office, etc.).

Northwood Elementary

Gym restrooms present a challenge, both from the standpoint of disruption of PE classes and supervised access from the playground.

Gym, dining / commons and entry, stairwells and corridor at Main Office are loud due to the number of hard surfaces.

Restroom without direct access from the Health Room is not optimal.

West Mercer Elementary

Shared function of multipurpose room results in a number of PE classes being doubled-up.

No flex space outside of classrooms.

Playground / play area is remote from cafeteria.

Pod configuration for each grade is desired.

Shared art and computer room.

Congestion in main corridor during pick-up and drop-off.

Students using four modular classrooms must leave the portable to use restroom or other school facilities.

Islander Middle School

Multiple detached buildings create a lack of connection between both students and programs.

Common areas in the “classic building” are difficult to supervise.

Sound transfer between classrooms in “classic building” can be disruptive.

Building 300 science classrooms do not support current STEM programs very well.

During hot days, the classroom areas get so hot (from about May through the end of school) that it could be interfering with teaching and learning.

Mercer Island High School

Crest Learning Center is too small for programs currently housed within the facility.

Older science classrooms / labs should be larger to accommodate instruction.

Music program continues to grow. Additional space desired.

Counseling area and health room should be reconfigured to provide better access and confidentiality.

Mercer Island High School

Acoustics in the Theater could be improved.

Separate Black Box Theater would enhance the drama program and allow theater to be used by more programs.

Improved Theater technology / equipment (i.e. lighting, sound, projection, curtain, etc.).

Reconfigure the Library into flexible learning spaces that will encourage better use by students and small groups.

Stadium seating and restrooms need to be renovated.

Improvements and connectivity could be made in College and Career Readiness programs (i.e. Broadcast programs).

Educational Program Needs

ELEMENTARY SCHOOL PROGRAMS

Special Education – improve existing spaces

Portables – eliminate for use as classrooms and potentially remove from site

Multipurpose Space – add new gymnasiums or cafeteria to provide separate areas for PE and food service functions

Educational Suitability – add shared instructional areas to create learning clusters and small group areas

MIDDLE SCHOOL PROGRAMS

Special Education – allow for inclusive educational experience for all students

Consolidate – consolidate all programs under one roof

Educational Program Needs

HIGH SCHOOL PROGRAMS

Alternative Education – expand Crest Learning Center and potentially relocate

College & Career Readiness – group existing programs to create a communications pathway and develop a new skills center with a variety of hands-on learning labs

Science – modernize existing older science labs (eight)

Athletics – provide practice and locker room space for all teams

Library – reconfigure into flexible learning areas

SUPPORT / OTHER PROGRAMS

Adult Transition Program – expand program (150%) and potentially relocate

Libraries – modernize existing libraries at high school and classic elementary schools

Technology Space – create dedicated space for repair and storage

Professional Learning – create a new multipurpose space with seating for 70 people
