

ST. MARY'S

ACADEMY

St. Mary's Academy Digital Learning Day (DLD) Protocol 2022-2023

Digital Learning Days will apply during school closures that occur on normal school days. **In cases of inclement or unforeseen weather events, DLD protocol will go into effect on the THIRD day of school closure.** *The closure days do not need to be consecutive.* For extended school closures unrelated to inclement weather, the DLD Protocol may go into effect on the **first day** of school closure. Information on school closures will be communicated to parents and students through our FlashAlert, SMA website, email, and Remind.

Digital Learning Day Protocol

For classes that will be missed on the closure day, teachers will post a Schoology course update no later than 10 am with specific instructions for work to be completed and a deliverable to be submitted. The update may refer to instructions, links, or assignments that are in other places. Assignments should take 45-60 minutes to complete.

The following information will be provided:

- Specific instructions for work to be completed for the missed classes
A required deliverable to be turned in by a reasonable deadline. Teachers will communicate deadlines through Schoology.
- Schedules for following school days will remain as posted on the calendar and updated as needed.

* All other due dates for assignments will remain as posted unless you are notified of changes by your teacher*
