

## NOTABLE NATURE

We are surrounded by the crazy beauty of nature. Sometimes we see something so interesting, or so beautiful, that we want to capture it and share it with others. We are offering students and their families an opportunity to do just this; share the beauty of nature they've discovered with others.

Here's how it will work, there are 3 things you must do: 1) If you see something out in nature that's exciting and really grabs your attention, take a picture of it (any family member can take the photo). 2) Then, with the help of family, [the form which can be accessed via this link](#), needs to be filled out. It is short and serves the purpose of learning more about the special part of nature you're sharing. 3) Finally, the photo should be emailed to [bellingen@depere.k12.wi.us](mailto:bellingen@depere.k12.wi.us). The photos should not contain any people or pets, just things you've seen in nature! Students AND staff are invited to send us Notable Nature photos. Keep in mind, we might get so many pictures sent to us, we may not be able to use them all, so don't be upset if you submit a photo and don't see it used right away. Also, these won't be included EVERY week's news, just sometimes for fun! No photos will be included if the form is not completely filled out. If you have any questions, direct them to [bellingen@depere.k12.wi.us](mailto:bellingen@depere.k12.wi.us).
