Arizona’s English Language Arts Standards work together in a clear progression from Kindergarten through 12th grade. This document provides an overview of the standards alignment for 5th Grade. ELA standards build on the standard that came before and towards the standard that comes in the next grade level. ELA standards appear to have similar wording at multiple grade levels; however, it is understood that they are to be applied with increased focus to progressively more challenging texts and tasks. Each standard is expected to be taught as appropriate for the grade-level.
