November 10, 2014

To the Board of Directors Riverdale School District 51J Multnomah County, Oregon

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Riverdale School District 51J, as of and for the year ended June 30, 3014, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Riverdale School District 51J as of June 30, 2014 and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The District adopted the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* for the year ended June 30, 2014. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and required supplemental information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the Management's Discussion and Analysis or Schedules of Funding Progress and Employer Contributions for the pension or other post-employment benefit plans because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison schedules presented as Required Supplementary Information, as listed in the table of contents, have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and in our opinion are fairly stated in all material respect in relation to the basic financial statements taken as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, as listed in the table of contents, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

The listing of board members containing their term expiration dates, located before the table of contents, and the other information, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Reports on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated November 10, 2014 on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statues as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

RIVERDALE SCHOOL DISTRICT 51J MULTNOMAH COUNTY, OREGON MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2014

As consultants to management of Riverdale School District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2014.

FINANCIAL HIGHLIGHTS

In the government-wide statements, the assets of the District exceeded its liabilities on June 30, 2014 by \$8,484,926. The District's governmental funds report a combined ending fund balance of \$3,785,559 on June 30, 2014. At the end of the fiscal year total fund balance for the General Fund was \$2,264,482 which represents 29% of the total General Fund revenues. On June 30, 2014, the District's total long-term liabilities totaled \$24,505,899.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the assets and liabilities, including capital assets and long-term liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the net position of the District changed during the most recent fiscal year. Revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

In the *government-wide financial statements*, the District's activities are shown in one category as governmental activities. These activities include services related to education K-12. These activities are primarily financed through property taxes, Oregon's State School Fund, tuition, and other intergovernmental revenues.

The government-wide financial statements can be found on pages 9 and 10 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The District maintains four major funds: the General Fund, Special Revenue Fund, Debt Service Fund, and the Capital Projects Fund. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for all funds.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 15-31 of this report.

Overview of the Financial Statements, continued

Government-Wide Financial Analysis

Statement of Net Position. As noted earlier, net assets may serve as a useful indicator of a government's financial position over time.

Table 1 provides a comparative summary of the Riverdale District's net assets for the year ending June 30, 2013 and 2014 respectively.

Table 1

	Governmental Activ	ities	
			Increase
	<u>30-Jun-13</u> (Restated)	<u>30-Jun-14</u>	(Decrease)
Assets			
Current Assets	\$ 3,916,222	\$ 4,537,485	\$ 624,073
Prepaid pension expense	2,574,000	2,402,400	(171,600)
Net capital Assets	28,585,734	27,982,960	(867,398)
Total Assets	35,075,956	34,922,845	(414,925)
Liabilities Current Liabilities	1 801 276	1.022.020	120 744
	1,801,276	1,932,020	130,744
Long Term Liabilities	25,989,698	24,505,899	(1,483,799)
Total Liabilities	27,790,974	26,437,919	(1,353,055)
Deferred Inflows/Outflows	0	272,883	272,883
Net Assets			
Invested in Capital Assets	4,885,129	5,493,615	608,486
Restricted Assets	1,275,648	1,226,734	416,497
Unrestricted Assets	1,124,205	1,764,577	(86,853)
Total Net Position	\$ 7,284,982	\$ 8,484,926	\$ 938,130

A large portion of the District's net assets reflects its investment in capital assets (e.g. land, buildings, vehicles and equipment). The District uses the capital assets to provide services to students and other District residents; consequently these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (generally property taxes), since the capital assets themselves cannot be used to liquidate these liabilities

Overview of the Financial Statements, continued- Table 2 shows the comparative showing the net change in Governmental Funds for the year ending June 30, 2013 and 2014, respectively.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

The focus of the District's *governmental funds* is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

The increase in State revenues follows the Legislature's adoption of a much larger budget for K-12 education.

The increase in Instruction expenditures follows a focus to increase spending in that area. Teachers were added, costs were reduced in Support Service areas. On June 30, 2014 the District's governmental funds reported combined ending fund balances of \$3,785,559.

The *General Fund* is the chief operating fund of the District. As of June 30, 2014, total fund balance was \$2,264,482 while total assets reached \$2,859,903.

During the fiscal year management recognized that the previous practice of deficit spending could not continue and that future revenues would not keep pace with expenditure needs. As a result, spending freezes were implemented to build the ending fund balance to help offset losses in future years.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District's budget is prepared according to Oregon law and is based on accounting for transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

Table 3 shows the comparative showing the net change in the General Fund Balance for the year ending June 30, 2013 and 2014, respectively.

	-		Increase
	<u>30-Jun-13</u>	<u>30-Jun-14</u>	(Decrease)
Revenues

Expenditures			
Instruction	3,694,015	4,128,400	434,385
Support Service	2,787,564	2,754,639	(32,925)
Total Expenditures	6,481,579	6,883,039	401,460
Net Change in Fund Balance:	\$ (114,159)	\$ 694,550	806,051

Table 3 Net Change in General Fund Balance

The increase in State Sources is due to two main factors, first, the state legislature approved a higher rate of funding for K-12 public schools in 2013-14 and second the state reduced its payment of school formula in May 2013 to account for the increased property taxes in 2011-12 from the sale of the Riverview Cemetery property and increased its payment in May 2014 to account for smaller than expected collections of local revenues in 2012-13.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. The District's investment in capital assets includes land, buildings and improvements, site improvements, vehicles and equipment. As of June 30, 2014 the District had invested \$27,982,960 in capital assets. Depreciation expense for the year totaled \$671,325.

Long-term debt. At the end of the current fiscal year, the District had a total debt outstanding of \$25,762,880.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

In June 2013, the State of Oregon adopted its budget for the 2013-15 biennium for K-12 education at \$6.55 billion, an increase of \$850 million from the 2011-13 biennium. Further actions by the Legislature brought about reductions in the rate increase for PERS employer rates for 2013-14. The District had expected an

increase of 7.71 percentage points beginning July 1, 2013. After the Legislative actions, the PERS Board adjusted the District's rate to an increase of only 3.31 percentage points.

Student membership is expected to remain flat at the Grade School and at the High School over the next several years. The District receives approximately \$6,994 per student in fiscal year 2015 from the State School Fund Formula. Any loss in resident and transfer student membership creates a financial burden upon the district.

Salary and benefit costs will increase in 2014-15, and will be based on negotiated contracts. Teachers will receive an increase of 2.0% in salary. The monthly insurance cap that the district provides certified teaching staff will also increase from \$1,205 to \$1,374 per month in 2014-15.

The District's Budget Committee and School Board considered all of these factors while preparing the District's budget for the 2014-15 fiscal year. The Board adopted a general fund budget that held \$748,209 in unappropriated ending fund balance and a contingency of \$542,746 with the goal to build financial stability for Riverdale Schools. During the current fiscal year, the total fund balance in the General Fund was \$2,264,482. The District has appropriated \$973,527 of this amount for spending in the 2014-15 fiscal year. This action was taken to enhance the educational programs and provide instructional technology for students.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Business Manager, at 11733 SW Breyman Avenue, Portland, Oregon 97219-8409.

Respectfully submitted,

Kathy Rodeman, Business Manager

Patrick Rodeman, Business Services

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES AND CHANGES IN NET POSITION

For the Year Ended June 30, 2014

Net Change in Fund Balance			\$ 605,065
Amounts reported for governmental activities in the statement of activities are different because:			
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:			
Capitalized Expenditures Depreciation expense Capital Asset Deletions	\$	71,386 (671,325) (2,835)	(602,774)
Long-term debt proceeds are reported as other financing sources in governmental funds. In the Statement of Net Position, however, issuing long-term debt increases liabilities Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the Statement of Net Position. This is the amount by which proceeds exceeded repayments:			
Principal Repaid			1,294,884
Governmental funds report the effect of, premiums and discounts when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.			
Amortization of Prepaid Pension Asset Amortization of Premiums, GO Bonds Discount on PERS Bond			(171,600) 41,260 (19,844)
In the Statement of Activities, interest is accrued on long term debt, whereas in governmental funds is recorded as interest expense when due.	it		1,780
Accrued Vacation, OPEB Obligation & Pension Obligation are recognized as expenditures in the governmental funds when they are paid. In the Statement of Activities these liabilities are recognized as expenditures when earned. In the current year, changes in these liabilities are as follow	ws:		
Accrued Vacation OPEB Obligations Pension Obligation			376 31,336 2,270
Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds, and are instead recorded as unearned revenue. They are, however, recorded as revenues in the Statement of Activities.			17,191
Change in Net Position			\$ 1,199,944

NOTES TO BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Basic Financial Statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies are described below.

A. THE FINANCIAL REPORTING ENTITY

The Riverdale School District 51J (the District) was established in 1888 with the Riverdale Grade School in the Dunthorpe neighborhood. Riverdale High School was added to the District starting with the 1996-1997 school year and its location is just two miles from the Grade School. The Riverdale Grade School building was replaced in 2009. The District Offices are located at the Grade School. The board is composed of five elected members who serve four-year terms. The Board supervises a Superintendent who is the chief administrative officer and executes the Board's policies and programs.

The District is independent and is not included as a part of any other financial reporting entity. Accounting principles generally accepted in the United States of America require that these financial statements present the District and all component units, if any. Component units, as established by the Governmental Accounting Standards Board (GASB) Statement 61, are separate organizations that are included in the District's reporting entity because of the significance of their operational or financial relationships with the District. There are various governmental agencies that provide service within the District's boundaries, however the District is not financially accountable for any of these entities, and therefore, none of them are considered component units or included in these basic financial statements.

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION

Government Wide Financial Statements (GWFS)

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) display information about the District as a whole.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with GASB Statement No. 33 "Accounting and Financial Reporting for Non-exchange Transactions." Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. All direct expenses are reported by function in the Statement of Activities. The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Interest on general long-term debt is considered an indirect expense and it reported separately on the Statement of Activities.

Separate financial statements are provided for governmental funds.

NOTES TO BASIC FINANCIAL STATEMENTS

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION (CONTINUED)

Program revenues derive directly from the program itself or from parties outside the District's taxpayers or citizenry, as a whole. Program revenues reduce the cost of the function to be financed from the general revenues and include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities.

Fund Financial Statements

The accounts are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

Governmental Fund Types

Governmental funds are used to account for general governmental activities. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized as soon as they are both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, interfund transactions, and certain compensated absences which are recognized as expenditures because they will be liquidated with expendable financial resources.

Revenues susceptible to accrual are interest, state, county and local shared revenue and federal and state grants. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The following major governmental funds are reported:

General Fund

This is the primary operating fund and accounts for all revenues and expenditures except those required to be accounted for in another fund. The principal revenue sources are property taxes, state school fund grant, tuition, and the Riverdale School District Foundation Contribution.

Special Revenue Funds

These funds account for revenue sources that are legally restricted to expenditures for specific purposes such as classroom supplies and equipment, capital improvements and to supplement existing resources. The student body funds for the high school and grade school, for the purpose of supporting school activities, are a part of the special revenue funds.

NOTES TO BASIC FINANCIAL STATEMENTS

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION (CONTINUED)

Debt Service Fund

This fund provides for the payment of principal and interest on general obligation bonded debt. The principal revenue source is property taxes. This fund also provides for the principal and interest payments of the debt associated with paying down the PERS unfunded actuarial liability and the principal sources of revenue come from the state apportionment.

Capital Projects Fund

This fund accounts for activities related to the acquisition, construction, equipping, and furnishing of facilities. Principal revenue sources are proceeds from the sale of bonds received in prior years and interest earnings.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For financial reporting purposes, all highly liquid investments with a maturity of three months or less are considered to be cash equivalents.

Property Taxes

Ad valorem property taxes are levied and become a lien on all taxable property as of July 1. Property taxes are payable on November 15. Collection dates are November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

Uncollected property taxes are shown in the balance sheet. Uncollected taxes are deemed by management to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established.

Grants

Unreimbursed grant expenditures due from grantor agencies are recorded as receivables and revenues. Cash received from grantor agencies in excess of related grant expenditures that is to be carried over to the next fiscal year is recorded as a liability, unearned revenue.

Supply Inventories

All supply inventories are valued at cost (first-in, first-out method). Inventories of governmental funds are recorded as expenditures when purchased. A portion of the inventory consists of donated United States Department of Agriculture (USDA) commodities. Commodities are recorded as expenditures when consumed and are stated at their fair market value based on guidelines provided by the USDA. Management believes there were no material inventories on hand at year end.

NOTES TO BASIC FINANCIAL STATEMENTS

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION (CONTINUED)

Capital Assets

Capital assets, which include land, buildings and improvements, and equipment, are reported in the government wide financial statements. Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Interest incurred during construction is not capitalized. Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at their estimated fair market value on the date donated. The cost of routine maintenance and repairs that do not add to the value of the assets or materially extend asset lives are charged to expenditures as incurred and not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings and Improvements	10 to 50 years
Vehicles and Equipment	5 to 30 years

Long Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the bonds outstanding method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Retirement Plans

Substantially all employees are participants in the Public Employees Retirement System (PERS). Contributions to PERS are made on a current basis as required by the plan and are charged to expenditures as funded.

Certified employees who completed twenty years of service with the District as of July 1, 2007 and are fifty-two years or older shall receive a monthly stipend of \$400 for six years upon retirement.

Employees are offered a tax deferred annuity plan. This plan has been established pursuant to Section 403(b) of the Internal Revenue Code.

Post Employment Health Care Benefits

State law requires the District to offer a retirement program which allows retirees to continue group medical, dental and/or vision insurance coverage at their own expense, through the District's plans, subject to the terms and conditions of the insurance carrier(s). The District pays the group medical, dental and vision insurance premiums for retirees who qualified for the previous post retirement plan, plus one of their dependents, if applicable. The last eligible retiree under the old plan enrolled on June 30,2014.

NOTES TO BASIC FINANCIAL STATEMENTS

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION (CONTINUED)

Vested Compensated Absences

Policy is to permit employees to accumulate up to 40 hours of earned but unused vacation pay benefits. There is no liability for unpaid accumulated sick leave since there is no policy to pay any amounts when employees separate from service. All vacation pay is accrued in the government wide statements.

Net Position

Net position is comprised of the various net earnings from operations, non-operating revenues, expenses and contributions of capital. Net position is classified in the following three categories:

Net Investment in Capital Assets – consists of all capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – consists of external constraints placed on assets use by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. There are assets restricted for debt service, student services and capital projects.

Unrestricted – consists of all other assets that are not included in the other categories previously mentioned.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one type of item which qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues for property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available.

Fund Balance

In March 2009, the GASB issued Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions*. The objective of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund-type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the five fund balance classifications are nonspendable, restricted, committed, assigned, and unassigned.

NOTES TO BASIC FINANCIAL STATEMENTS

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND BASIS OF PRESENTATION (CONTINUED)

Fund Balance - Continued

- Nonspendable fund balance represents amounts that are not in a spendable form.
- <u>Restricted fund balance</u> represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments) or are restricted by law (constitutionally or by enabling legislation).
- <u>Committed fund balance</u> represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- <u>Assigned fund balance</u> represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body or by an official to whom that authority has been given by the governing body. The authority to classify portions of ending fund balance according to the categories above is delegated to the Superintendent.
- <u>Unassigned fund balance</u> is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

There were no nonspendable, committed or assigned fund balances at year end.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable) and unassigned.

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

A budget is prepared and legally adopted for each governmental fund type on the modified accrual basis of accounting in the main program categories required by Oregon Local Budget Law. The budgets for all budgeted funds are adopted on a basis consistent with generally accepted accounting principles except the property taxes received after year-end are not considered budgetary resources in the funds, inventory is expensed when purchased, capital outlay is reported as an expenditure rather than capitalized, depreciation and amortization are not recorded, and debt including OPEB, vacation, and pension obligations are recorded as an expenditure when paid.

The budgeting process begins by appointing Budget Committee members in early fall. Budget recommendations are developed by management through spring, with the Budget Committee meeting and approving the budget document in late spring. Public notices of the budget hearing are generally published in May or June, and the hearing is held in June. The budget is adopted, appropriations are made and the tax levy is declared no later than June 30. Expenditure budgets are appropriated at the major function level (instruction, support services, community services, debt service, contingency, and transfers) for each fund. Expenditure appropriations may not legally be over expended, except in the case of grant receipts which could not be reasonably estimated at the time the budget was adopted.

NOTES TO BASIC FINANCIAL STATEMENTS

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10% of the fund's original budget may be adopted by the Board of Directors at a regular meeting. A supplemental budget greater than 10% of the fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels). Such transfers require approval by the Board.

Budget amounts shown in the basic financial statements include the original budget amounts and appropriation adjustments approved by the Board. Appropriations lapse at the end of each fiscal year.

Expenditures of the various funds were within authorized appropriations.

3. CASH AND INVESTMENTS

DEPOSITS

Deposits with financial institutions include bank demand deposits. Oregon Revised Statutes require deposits to be adequately covered by federal depository insurance or deposited at an approved depository as identified by the Treasury.

Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned. There is no deposit policy for custodial credit risk. As of June 30, 2014, the bank balance of \$1,468,561 was insured under the FDIC for \$500,000. The remainder is collateralized by the Oregon Public Funds Collateralization Program (PFCP).

INVESTMENTS

The policy is to follow state statutes governing cash management. Statutes authorize investing in banker's acceptances, time certificates of deposit, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool.

The State Treasurer's Local Government Investment Pool is not registered with the U.S. Securities and Exchange Commission as an investment company. The Oregon Revised Statutes and the Oregon Investment Council govern the State's investment policies. The State Treasurer is the investment officer for the Council and is responsible for all funds in the State Treasury. These funds must be invested, and the investments managed, as a prudent investor would, exercising reasonable care, skill and caution. Investments in the Fund are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board (OSTFB), which establish diversification percentages and specify the types and maturities of investments. The portfolio guidelines permit securities lending transactions as well as investments in repurchase agreements and reverse repurchase agreements. The fund was in compliance with all portfolio guidelines at June 30, 2014.

Amounts in the State Treasurer's Local Government Investment Pool are not required to be collateralized. Investments are valued at fair value as required by GASB 31. As of June 30, 2014 there was no material difference in the fair value of the position in the LGIP and the value of the pool shares as reported in the Oregon Short Term Fund audited financial statements. There were no known violations of legal or contractual provisions for deposits and investments during the fiscal year.

NOTES TO BASIC FINANCIAL STATEMENTS

3. CASH AND INVESTMENTS (CONTINUED)

INVESTMENTS (Continued)

Cash and Investments at June 30, 2014 consisted of:

Cash	\$ 1,365,154
Investments	2,740,243
Total Cash & Investments	\$ 4,105,397

There were the following investments and maturities:

Investment Type	 Fair Value	 Less than 3	3	-17	18	-59
State Treasurers Investment Pool	\$ 2,740,243	\$ 2,740,243	\$		\$	
Total	\$ 2,740,243	\$ 2,740,243	\$.=.	\$	-

Interest Rate Risk

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB. There are no investments that have a maturity date beyond three months.

Credit Risk

Oregon Revised Statutes does not limit investments as to credit rating for securities purchased from US Government Agencies or USGSE.

Concentration of Credit Risk

At June 30, 2014, 100% of total investments were in the State Treasurer's Investment Pool. State statutes do not limit the percentage of investments in this instrument. Oregon Revised Statutes require no more than 25 percent of the monies of local government to be invested in bankers' acceptances of any qualified financial institution. At June 30, 2014, there was compliance with all percentage restrictions.

4. RECEIVABLES

Receivables at June 30, 2014 consist of the following:

A. Accounts receivable represent amounts due from individuals and from other governments.

All receivables are current. Management believes they are fully collectible so no provision for doubtful accounts has been made.

NOTES TO BASIC FINANCIAL STATEMENTS

5. CAPITAL ASSETS

The changes in capital assets for the fiscal year ended June 30, 2014, are as follows:

		overnmental apital Assets 7/1/2013	Additions		Deletions		Governmental Capital Assets 6/30/2014
Capital assets not being depreciated: Land & Land Improvements	\$	7,521	\$ 	\$	-	\$	7,521
Capital assets being depreciated: Buildings & Improvements Vehicles and Equipment		33,030,712 157,534	 71,386		(10,413)	_	33,030,712 218,507
Total	_	33,188,246	 71,386	-	(10,413)		33,249,219
Accumulated Depreciation: Buildings and Improvements Vehicles and Equipments		4,480,946 129,087	 658,512 12,813		(7,578)	-	5,139,458 134,322
Total		4,610,033	\$ 671,325	\$	(7,578)	_	5,273,780
Capital Assets, Net	\$	28,585,734				\$	27,982,960

Depreciation was allocated to the functions as follows:

Instruction	\$ 424,006
Support	247,092
Community Services	 227
Total Depreciation Expense	\$ 671,325

6. OPERATING LEASE

A non-cancelable lease was entered into in October 2009 for five copy machines. Monthly payments are made for 60 months and the monthly payment increases by 6% each October. Expenditures for this lease during the fiscal year ending June 30, 2014 totaled \$24,543. Future lease payments are as follows:

Year Ended June				
30,	Amount			
2015	\$	5,981		

NOTES TO BASIC FINANCIAL STATEMENTS

6. OPERATING LEASE (CONTINUED)

A lease was entered into in July 2014 for the use of copy machines. Monthly payments of \$1,257 are made for 60 months beginning July 2014 through June 2019. Future lease payments are as follows:

Year Ended		
June 30,	A	mount
2015	\$	15,084
2016		15,084
2017		15,084
2018		15,084
2019		15,084
Total	\$	75,420

7. GROUND LEASE

A Ground Lease with Portland School District 1J (Portland) was entered into on February 9, 2001, and was amended on June 29, 2001, for the Collins View School Site, at a cost of \$10,000 per month. The Ground Lease provides for an initial lease term of twenty years, with three options to extend for ten years each. Each option to extend only may be exercised within the last two years of an extension period. Should the Ground Lease remain in effect for the initial term as well as all three term extensions, the District has an option to acquire the Collins View Site at its current fair market value.

The commencement date for this lease is July 1, 2001. In addition to the terms mentioned in the preceding paragraph the Ground Lease will increase by 2 percent each year. Every five years the minimum rent shall be adjusted to reflect any change in the fair market rental value of the premises. Although the Ground Lease is located outside the District's boundaries, the 1996 bond measure gave the District legal authority to locate a high school outside the District's boundaries. The Ground Lease was within the Riverdale Board's reasonable discretion, and the May 2001 Voter Approval was in all respects regular, effective and valid. If the district terminates the lease, all improvements shall become the sole property of Portland, and Portland shall pay the District an amount equal to 75% of the fair market value of the improvements as of the date the lease terminates. The lease costs for the year were \$152,184 or \$12,682 per month.

8. STATEWIDE LOCAL GOVERNMENT RETIREMENT SYSTEM

PERS

Contributions are made to the Oregon Public Employees Retirement Fund (OPERF), a cost-sharing multipleemployer defined benefit pension plan administered by the Oregon Public Employees Retirement System (PERS). PERS provides retirement and disability benefits, post-employment health care benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Generally, employees who retire at or after age 55 or with 30 years of credited service are entitled to a retirement benefit, payable monthly for life, equal to 1.67% of their final average salary for each year of credited service. Final average monthly salary is based upon either the three calendar years out of the last ten calendar years of employment during which the highest salaries were earned or the last 36 calendar months of membership, whichever is larger.

NOTES TO BASIC FINANCIAL STATEMENTS

8. STATEWIDE LOCAL GOVERNMENT RETIREMENT SYSTEM (CONTINUED)

Employees become members of PERS after six months of service in a qualified position and benefits fully vest on reaching 5 years of service. Vested employees with fewer than 30 years of service will receive reduced benefits if retirement occurs prior to age 58. PERS also provides death and disability benefits. Benefits are established by State statute. PERS is administered under Oregon Revised Statute (ORS) Chapter 238. ORS 238.620 establishes the Public Employees Retirement Board as the governing body of PERS. The Oregon Public Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for PERS. That report may be obtained by writing PERS, P.O. Box 23700, Tigard, OR 97281-3700.

Members of PERS are required to contribute 6% of their salary covered under the plan. ORS 238.225 requires contributions at an actuarially determined rate. The rate effective July 1, 2013 is 11.76% of salary covered under the plan for Tier 1 and Tier 2 employees and 9.76% for employees covered under the Oregon Public Services Retirement Plan (OPSRP). The District participated in the Oregon School Boards Association limited tax pension obligation bond issues to finance a portion of the estimated unfunded PERS actuarial liability (the "UAL"). A total of \$4,387,738 was borrowed, reducing the rate paid to PERS. The PERS Board has statutory authority to revise employer contributions as necessary to ensure the promised benefits will be funded on a sound basis. The contributions to the plan for the years ending June 30, 2014, 2013 & 2012 were \$586,115, \$462,045, and \$364,127, respectively, and were equal to the required contributions for each year.

9. PENSION & OPEB BENEFITS

Pension Plan

Plan Description

A single-employer pension plan for employees is maintained. A stand-alone report for this plan is not issued. The program was established under a collective bargaining agreement and provides provisions for pension benefits for employees with 20 years of service or more for the District as of July 1, 2007 who are 52 years or older. This pension plan provides the employee a monthly stipend of \$400 for six years. Contributions are charged to supplemental retirement in the General Fund.

Contributions

The pension plan is funded on a pay-as-you-go basis. Contributions are charged to supplemental retirement in the General Fund. The cost for the years ending June 30, 2014, 2013, & 2012 were \$10,334, \$15,577, and \$16,100 respectively, which equaled the required contribution for the year.

Annual Pension Cost and Net Pension Obligation

The annual pension cost is calculated based on the annual required contribution of the employer (ARC), and amount determined in accordance within the parameters of GASB Statement 27. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded liabilities (or funding excess) over a period not to exceed fifteen years.

Percentage of APC contributed		279%		475%		457%

Funding Status and Funding Progress

As of June 30, 2014, the plan was 0% funded. The accrued liability for benefits was \$41,984 and the value of assets was \$0, resulting in an unfunded accrued liability (UAAL) of \$41,984. The Annual Required Contribution (ARC) for June 30, 2014 has been actuarially determined to be \$2,260 for District contributions

Significant Assumptions

The alternative measurement method outlined in GASB Statement 45 for employers with less than 100 plan participants is used to estimate the Accrued Liability and Annual Required Contribution for the Stipend Plan based on a level percentage of payroll. The Annual Required Contribution was calculated using the entry age cost method with the Unfunded Accrued Liability amortized as a level percentage of payroll.

Significant assumptions are as follows:

- Eligible employees receive benefits if they completed 20 years of service with Riverdale School District as of July 1, 2007, and are age 52 or older.
- If employee will not qualify before age 70, assumption is that they will retire without the supplemental plan.
- Each eligible employee is assumed to have one dependent.
- Turnover is based on Table 1, paragraph 35b, of GASB Statement 45.
- Expected future working lifetime is based on Table 2, paragraph 35c, of GASB Statement 45.
- Mortality is based on the National Center for Health Statistics Table A. Expectation of Life by Age, race and sex: United States, 2007, published date September 28, 2011.
- Estimated age-adjusted premiums for retiree insurance using the method outlined in Tables 3-5 of 35d, GASB Statement 45.
- Inflation is assumed to be 2.0% per year based on the long-term expectations published in the Economic Projections of Federal Reserve Board Members and Federal Reserve Bank Presidents, June 2014.
- Investment earnings rate is pegged to the 10 year Treasury yield at June 30, 2014 of 2.53%.

NOTES TO BASIC FINANCIAL STATEMENTS

9. PENSION & OPEB BENEFITS (CONTINUED)

Pension Plan (Continued)

Valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, claim cost and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Post-Employment Health Care Benefits

Plan Description

Also, as a result of collective bargaining agreements, post-employment health care benefits are offered for all employees who have completed 20 years of service or more for the District as of July 1, 2007, and a minimum age of 52. These retirees, shall be provided with the current negotiated insurance package (medical, dental and vision) for the member plus one dependent. This benefit shall be provided for six years upon retirement from the District.

Contributions

The plan is funded on a pay-as-you-go basis. Contributions are charged to supplemental retirement in the General Fund. The cost for fiscal years 2014, 2013, and 2012 were \$41,455, \$64,051, and \$46,245, respectively, which equaled the required contribution for the year.

Annual OPEB Cost and Net OPEB Obligation

The annual other postemployment benefit cost is calculated based on the annual required contribution of the employer (ARC), and amount actuarially determined in accordance within the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded liabilities (or funding excess) over a period not to exceed fifteen years.

		2012	2013	2014

Net OPEB Obligation (Asset) at end of year	\$	181,404	\$ 161,148	\$	129,812
Percentage of AOC contributed		387%	316%		594%

Funding Status and Funding Progress

As of June 30, 2014, the plan was 0% funded. The accrued liability for benefits was \$129,812 and the value of assets was \$0, resulting in an Unfunded Accrued Liability (UAL) of \$129,812. The Annual Required Contribution (ARC) for June 30, 2014 has been determined to be \$6,981 for District contributions.

NOTES TO BASIC FINANCIAL STATEMENTS

9. PENSION & OPEB BENEFITS (CONTINUED)

Post-Employment Health Care Benefits (Continued)

Significant Assumptions

The alternative measurement method outlined in GASB Statement 45 for employers with less than 100 plan participants is used to estimate the Accrued Liability and Annual Required Contribution for the Post Employment Health Care Benefits plan based on a level percentage of payroll. The Annual Required Contribution was calculated using the entry age cost method with the Unfunded Accrued Liability amortized as a level percentage of payroll.

Significant assumptions are as follows:

- Eligible employees receive benefits if they completed 20 years of service with Riverdale School District as of July 1, 2007, and are age 52 or older.
- If employee will not qualify before age 70, assumption is that they will retire without the supplemental plan.
- Each eligible employee is assumed to have one dependent.
- Turnover is based on Table 1, paragraph 35b, of GASB Statement 45.
- Expected future working lifetime is based on Table 2, paragraph 35c, of GASB Statement 45.
- Mortality is based on the National Center for Health Statistics Table A. Expectation of Life by Age, race and sex: United States, 2007, published date September 28, 2011.
- Estimated age-adjusted premiums for retiree insurance using the method outlined in Tables 3-5 of 35d, GASB Statement 45.
- Inflation is assumed to be 2.0% per year based on the long-term expectations published in the Economic Projections of Federal Reserve Board Members and Federal Reserve Bank Presidents, June 2014.
- Investment earnings rate is pegged to the 10 year Treasury yield at June 28, 2014 of 2.53%.

Valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, claim cost and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Funding Policy

The benefits from both programs are fully paid by the District and, consequently, no contributions by employees are required. There is no obligation on the part of the District to fund these benefits in advance.

Implicit Subsidy

Management believes there is no implicit subsidy because of the small size of the District's plan.

Tax Sheltered Annuity

Employees are offered a tax deferred annuity program established pursuant to Sections 403(b) of the Internal Revenue code (the code). Contributions are made through salary reductions from participating employees up to the amounts specified in the Code. No contributions are required from the District. As of June 30, 2014, 17 employees were participating in the plan.

NOTES TO BASIC FINANCIAL STATEMENTS

10. LONG-TERM DEBT

General Obligation Bonds

General Obligation bonds were issued to provide funds for the acquisition and construction of major capital facilities. On February 26, 2009, the District issued \$21,496,278 of Series 2009 General Obligation bonds to finance facility acquisition and construction. A portion of the funds received from the issuance were used to extinguish the \$1,500,000 of outstanding Series 2002 Full Faith & Credit bonds. Payment of principal and interest on the general obligation bonds are payable from the General Obligation Bonds Fund.

Pension Obligation Bonds

On April 21, 2003, the District issued \$4,387,738 of limited tax pension obligation bonds to finance its unfunded actuarially accrued liability (UAL) with the State of Oregon Public Employees Retirement System (PERS). The issuance of the bonds was considered an advance refunding of the UAL. The actual savings realized over the life of the bonds is uncertain because of the various legislative changes and legal issues pending with the PERS system which could impact future required contribution rate. The debt service payments were charged to debt service in the Pension Obligation Bonds Fund.

Advance Refunding Bonds

On July 29, 2008, \$6,070,000 in Series 2008 General Obligation Refunding Bonds were issued to provide resources for all future debt service payments of \$6,110,000 for the Series 1998 General Obligation Bonds. As a result, the refunded bonds were redeemed and the liability has been removed from the statement of net position. This advance refunding was undertaken to result in an economic gain of \$180,447.

Changes in long-term debt outstanding are as follows:

	Interest Rates	outstanding 7/1/2013	Debt Issued	 atured and edeemed	Outstanding 6/30/2014
Pension Bond 2003	1.15-6.3%	\$ 3,236,919	\$ -	\$ 124,884	\$ 3,112,035
GO Bonds 2008 Refunding	3.75-4%	2,545,000		820,000	1,725,000
GO Bonds 2009 A&B	2.5-5.77%	 20,741,278	 -	 350,000	 20,391,278
		26,523,197	-	1,294,884	25,228,313
Premium on Bonds Payable		414,327	-	41,260	373,067
Accrued Discount on PERS	5 Bonds	 141,656	 	 (19,844)	 161,500
Total		\$ 27,079,180	\$ -	\$ 1,316,300	\$ 25,762,880

NOTES TO BASIC FINANCIAL STATEMENTS

10. LONG-TERM DEBT (CONTINUED)

Future maturities of long-term debt are payable as follows:

Fiscal Year Ending June 30,	 Principal		Interest
2015	\$ 1,390,839	\$	768,301
2016	1,488,716		740,263
2017	1,333,869		711,471
2018	1,422,925		694,516
2019	1,511,523		675,292
2020-24	8,793,560		3,267,090
2025-29	5,816,531		7,123,171
2030-34	3,470,350		9,409,649
Total	\$ 25,228,313	\$:	23,389,753

11. RISK MANAGEMENT

There is exposure to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Commercial insurance is purchased to minimize exposure to these risks. Settled claims have not exceeded this commercial coverage for any of the past three years.

12. PROPERTY TAX LIMITATION

The State of Oregon imposes a constitutional limit on property taxes for schools and non-school government operations. School operations include community colleges, local school districts, and education service districts. The limitation provides that property taxes for school operations are limited to \$5.00 for each \$1,000 of property market value. This limitation does not apply to taxes levied for principal and interest on general obligation bonded debt. The result of this requirement has been that school districts have become more dependent upon state funding and less dependent upon property tax revenues as their major source of operating revenue.

The State further reduced property taxes by replacing the previous constitutional limits on tax bases with a rate and value limit in 1997. This reduction is accomplished by rolling property values back to their 1995-96 values less 10% and limiting future tax value growth of each property to no more than 3% per year, subject to certain exceptions. Taxes levied to support bonded debt are exempted from the reductions. The State Constitution sets restrictive voter approval requirements for most tax and many fee increases and new bond issues, and requires the State to minimize the impact to school districts from the impact of the tax cuts.

13. COMMITMENTS AND CONTINGENCIES

Substantially all amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although management expects such amounts, if any, to be immaterial.

A substantial portion of operating funding is received from the State of Oregon. State funding is determined through state wide revenue projections that are paid to individual school districts based on pupil counts and other factors in the state school fund revenue formula. Since these projections and pupil counts fluctuate they can cause either increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on operations cannot be determined.

NOTES TO BASIC FINANCIAL STATEMENTS

14. PREPAID PENSION ASSET

The unfunded actuarial liability to PERS was prepaid with a lump sum payment from the proceeds of the 2003 Pension Bonds. At June 30, 2014, there was a prepaid pension asset of \$2,402,400, which is net of accumulated amortization.

15. RESTATEMENT OF BEGINNING NET POSITION

Per the adopted provisions of GASB 65 – *Items Previously Reported as Assets and Liabilities*, debt issue costs are to be recognized as an expense in the period incurred and no longer reported as an asset on the Statement of Net Position. Beginning net position has been restated to reflect the removal of bond issue costs totaling \$264,376 that were previously reported as asset on the Statement of Net Position of the financial statements dated June 30, 2013.

PAULY, ROGERS, AND CO., P.C. 12700 SW 72nd Ave. Tigard, OR 97223 (503) 620-2632 (503) 684-7523 FAX www.paulyrogersandcocpas.com

November 10, 2014

Independent Auditors' Report Required by Oregon State Regulations

We have audited the basic financial statements of Riverdale School District 51J as of and for the year ended June 30, 2014, and have issued our report thereon dated November 10, 2014. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statues as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295)
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- Programs funded from outside sources.
- State school fund factors and calculation.
- Authorized investment of surplus funds (ORS Chapter 294).

In connection with our testing nothing came to our attention that caused us to believe the Riverdale School District 51J was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-10-0230 Internal Control

In planning and performing our audit, we considered the internal controls over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the internal controls over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the internal controls over financial reporting.

We noted a matter involving the internal control structure and its operation that we consider to be a significant deficiency under standards established by the American Institute of Certified Public Accountants, which is noted in our management letter dated November 10, 2014.

This report is intended solely for the information and use of the Board of Directors and management and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

Roy R Rogers
