School Goals

RHS is working to increase inclusivity and fostering an environment that promotes respect for all members of the learning community by utilizing PD time, student advisory, and parent meetings to build upon responsive practices that put people first. Our aim is to provide an environment where staff, students, and parents thrive both academically and emotionally. This environment will provide the ability for students to be resilient, persistent, and take academic risks.

State Goals

The Oregon Department of Education is partnering with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2025. To progress toward this goal, the state will prioritize efforts to improve attendance, provide a well-rounded education, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.

Safe & Welcoming Environment

We continue to use the following safety procedures: a multiagency threat assessment team, routine lock down and lock out drills, safety tip lines, connecting students with mental health services, staff training in safety strategies, and we partnership with our community resource officers. To create a welcoming environment for all we employ a DEI coordinator, staff equity committees, and have increased DEI content throughout our curriculum.
